The accompanying Audio CD offers students a huge amount of listening practice. There are audio recordings for tasks in every lesson (not only for the Vocabulary & Listening lessons).

 Exploring the relationship between ASD and mental health difficulties, this book offers practical guidance to help parents and professionals recognise and handle co-morbid conditions, and dispels the myth that they are just a part of autism.

The authors cover a wide range of common mental health problems experienced by children with ASD, including Obsessive Compulsive Disorder (OCD), anxiety, ADHD, eating disorders, psychosis, stress, tics and depression, and illustrate these issues with case studies. They also provide vital advice in an accessible format and suggest strategies to ease the difficulties which arise from these co-morbid conditions. This book is essential reading for professionals working with children on the autism spectrum and is an accessible and practical resource for parents and carers.

Set in Glasgow in 1981, a time of hunger strikes, riots and unemployment that decimated the old industrial heartlands, *The Field of Blood* is the first in the tense Paddy Meehan series from Scotland's princess of crime, Denise Mina. The vicious murder of a young child provides rookie journalist Paddy Meehan with her first big break when the suspect turns out to be her fiancée's 11-year old cousin. Launching her own investigation into the horrific crime, Paddy uncovers lines of deception deep in Glasgow's past, with more horrific crimes in the future if she fails to solve the mystery. Infused with Mina's unique blend of dark humor, personal insights and social injustice, the story grips the reader while challenging our perceptions of childhood innocence, crime and punishment, and right or wrong.
