California Bill's
Automotive
Handbooks
Ferrari Fever
is a
fascinating
and nostalgic
look back at
the classic car
collecting
scene in the
60's and 70's,
an era when
some of the
rarest and
most
interesting
Italian
automobiles
could still be
found hidden
or languishing
in barns,
junkyards or
by the side of
the
road...almost
lost in time.
Paul
Schouwenburg
s story begins

in wartime
occupied
Amsterdam, a
poignant
backdrop to
the hardships
of the years to
follow, when
the
appearance of
any exotic
Italian
thoroughbred
was a rare
sight indeed.
Fuelled by a
fascination for
all things
mechanical,
adventures on
a Rudge
bicycle and
early
experiences in
his parents
succession of
Rovers, Paul
gains a
burning
passion for
finding,
restoring, and

ultimately racing Italian cars. But these were not just any Italian cars - from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/6 1 and 275GTB/C/LM, usually by word of mouth or tenuous

rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible

project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants

decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GTO at the time!

**Holden

Autobook**

Haynes Publishing
Nissan Patrol 1998 to 2009,
Diesel and Petrol/Gasoline Engines including Turbo with World Wide Spec's. This manual has over 500 pages. It has

step by step instructions in every chapter. Covering both model produced the Station Wagons and tray models. Engine chapters - The book covers all diesel engines, RD28, TD42 and ZD30 including the common rail engine, turbocharged engines are covered. All petrol/gasoline engines, TB42, TB45 and TB48, the TB42 was an option in some countries in the first few years of production.

Chapters are full of step by step instructions, plus plenty of photographs and line illustrations to give the reader explicit detail, suitable for everyone, regardless of whether you require minor engine work or a major rebuild.

discussing repairs and maintenance with your professional automotive technician. This Bentley Manual is the only comprehensive, single source of service information and specifications available specifically for BMW 5 Series from 1997 to 2002. The aim throughout this manual has been simplicity, clarity and completeness, with practical explanations, step-by-step procedures

and accurate specifications. Whether you are a professional or a do-it-yourself BMW owner, this manual will help you understand, care for and repair your E39 5 Series. Though the do-it-yourself BMW owner will find this manual indispensable as a source of detailed maintenance and repair information, the BMW owner who has no intention of working on his or her car will find that

reading and owning this manual will make it possible to discuss repairs more intelligently with a professional technician.
