What is Latin? If you will look at the map of Italy on the opposite page, you will find near the middle of the peninsula and facing the west coast a district called Latium,¹ and Rome its capital. The Latin language, meaning the language of Latium, was spoken by the ancient Romans and other inhabitants of Latium, and Latin was the name applied to it after the armies of Rome had carried the knowledge of her language far beyond its original boundaries. As the English of to-day is not quite the same as that spoken two or three hundred years ago, so Latin was not always the same at all times, but changed more or less in the course of centuries. The sort of Latin you are going to learn was in use about two thousand years ago. And that period has been selected because the language was then at its best and the greatest works of Roman literature were being produced. This period, because of its supreme excellence, is called the Golden Age of Roman letters. This is a high quality book of the original classic edition. It was previously published by other bona fide publishers, and is now, finally, back in print. This is a freshly published edition of this culturally important work, which is now, at last, again available to you. Enjoy this classic work. These few paragraphs distill the contents and give you a quick look inside: Part II carries the work through the first sixty lessons, and is devoted to the study of forms and vocabulary, together with some elementary constructions, a knowledge of which is necessary for the translation of the exercises and reading matter. ...The Latin language, meaning the language of Latium, was spoken by the ancient Romans and other inhabitants of Latium, and Latin was the name applied to it after the armies of Rome had carried the knowledge of her language far beyond its original boundaries. As the English of to-day is not quite the same as that spoken two or three hundred years ago, so Latin was not always the same at all times, but changed more or less in the course of centuries. ...The

Normans spoke French-which, you remember, is descended from Latin-and spread their language to a considerable extent over England, and so Norman-French played an important part in the formation of English and forms a large proportion of our vocabulary. ...In English we have three cases, -nominative, possessive, and objective; but, in nouns, the nominative and objective have the same form, and only the possessive case shows a change of ending, by adding 's or the apostrophe.

Aesop's Fables Yale University Press

"In this text for the upper-beginner and intermediate students, Brian Beyer collects authentic Latin prose from Book I of Eusebius's *Breviarium ab urbe condita*, which covers Roman history from Rome's foundation to the sack of Rome by the Gauls...Bottom-of-the-page glosses, passages in English from the Roman historian Livy, a running commentary on grammar and syntax, historical notes, and compiled vocabulary allow students foresight into the historical myths of ancient Rome and the historical context of Eutropius's narrative"--P. [4] of cover.
Revised edition for OCR GCSE Classical Greek (9-1) Harvard University Press

A Latin grammar and reader all in one when the text and workbook are used together, Learn to Read Latin presents basic Latin morphology and syntax with clear explanations and examples, and it offers direct access to great works of Latin literature even at the earliest stages of learning the language. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style, thus becoming well prepared for later, more difficult texts. No other beginning Latin book contains as many unaltered versions of ancient texts. Learn to Read Latin includes the writings of such authors as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, arranged chronologically and accompanied by introductions to each author and each work. These readings serve as the chief training texts around which the book's fifteen chapters are constructed. A workbook is also available, providing abundant drills for each chapter of the text. A flexible format allows the workbook exercises to be used in the classroom, for homework assignments, for extra individual drill work, or as a

home study tool.

Pastoral Ministry according to Paul Yale University Press

By providing a much-needed grammar review, along with a variety of readings that will suit the tastes of many different teaching preferences, this textbook will help students make the transition from beginning Latin to the intermediate level. The book is filled with exercises and a balance of prose and verse readings organized around five topics. After using College Latin, students will be reacquainted with all the major Latin grammar and able to hold their own in the "authors courses" that make up most intermediate Latin curriculums.

Reading Medieval Latin Harper Collins

Introduction to Latin, Second Edition is an introductory Latin textbook designed with a streamlined flow that allows it to be completed in one year. Its concise and uncluttered approach gives students what they need to master the material. Grammar is integrated within the context of reading fluency. Innovative exercises provide translation practice as well as build "instinctive

skills" that prepare students for reading authentic Latin works. Features: Concise, streamlined presentation focuses on what students need to know, allowing the material to be covered in a year, even for courses which meet only three days a week Innovative exercises that go beyond the usual translation practice, engaging students with the mechanisms of the language and developing "more instinctive" skills Succinct grammatical explanations that don't overwhelm the students with superfluous detail while also providing help for students with little or no understanding of English grammar Latin readings from ancient sources in the form of both sentences and short passages allow for students to connect with authentic Latin Practical instructions often overlooked by other textbooks, including reading a dictionary entry, reading strategies, sentence patterns, gapping, and expectations New to the Second Edition Revised order of presentation that spreads material out more evenly between the first and second halves of the book Derivatives exercises added at the end of each chapter providing practice connecting English words with their Latin roots Bridge to next level: final three chapters provide review and include longer narrative readings with minimal editing to bridge students to the next level of Latin Revised selection of readings for more appropriate level of difficulty

Legends of Early Rome galore park publishing ltd

Learn to Read Greek is a text and workbook for students beginning the study of Ancient Greek. It is the companion volume to the authors' Learn to Read Latin, published in 2004. Like its Latin predecessor, it has a grammar-based approach and is intended for students who have a serious interest in learning the language. The text and workbook include carefully chosen vocabularies and extensive vocabulary notes; clear and complete presentations of all necessary morphology and syntax; large numbers of drills and drill sentences; and abundant unabridged sample passages from a variety of Greek authors and texts.

College Latin Cambridge University Press

This teacher's manual to Latin Everywhere, Everyday contains the answers to all the exercises in the student workbook along with additional exercises and answers for those who have studied Latin. Some additional games and projects are also included in the teacher's manual.

Greek Grammar Yale University Press

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's Odyssey and Alexander the Great, providing an excellent

introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

A Biblical Vision Cambridge University Press

Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary material explains English grammar points and provides drills especially for today's students offers sections on Latin metrics includes numerous unaltered examples of ancient Latin prose and poetry incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each author and work offers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

Authorized King James Version Canongate U.S.

Focuses on helping school and university students to acquire the skills to read and appreciate the great works of Latin literature. This book not only presents basic Latin morphology and syntax with clear explanations and examples, but also offers direct access to original, unaltered Latin writings.

The Gospel According to John Bloomsbury Publishing

A newly revised and typeset edition of one of the most popular textbooks used for review of grammar and for writing Latin composition. The main justification for composing Latin prose is that it is an invaluable means of acquiring a real mastery of the language. Progress is made as the language is used as a medium

of expression. This book is appropriate for those who already have a basic command of the Latin language.

Latin Prep Book 1 Workbook A Harper Collins

Reading Latin, first published in 1986, is a bestselling Latin course designed to help mature beginners read classical Latin fluently and intelligently. It does this in three ways: it encourages the reading of continuous texts from the start; it offers generous help with translation at every stage; and it integrates the learning of classical Latin with an appreciation of the influence of the Latin language upon English and European culture from antiquity to the present. The Text and Vocabulary, richly illustrated, consists at the start of carefully graded adaptations from original classical Latin texts. The adaptations are gradually phased out until unadulterated prose and verse can be read. The accompanying Grammar and Exercises volume completes the course by supplying all the grammatical help needed, and the second edition has been fully revised and updated. It has also been extensively redesigned to make it clearer and easier to navigate.

Latin Cambridge University Press

Using an introduction to mythology by the master storyteller Ovid himself, the authors have prepared a unique teaching tool designed to achieve proficiency at Latin in one year at the college level, two years at the high school or intermediate level. The volume provides students with imaginative, connected reading, beginning with introductory prose versions of Ovid's simple myth tales and progressing to the rich poetry of Ovidian Latin (with appropriate teaching aids) within forty lessons. The grammatical approach is traditional, but the central emphasis is on reading. In

each chapter the reading appears first, followed by the vocabulary, the grammar, exercises, and etymology relating to the vocabulary. The exercises begin with a group of questions in Latin (based on the reading), to be answered in Latin. Each tale is preceded by a brief discussion in English of the story and its mythological significance. The myths retold by Ovid and the attractive format are conceived to impel the student into acquiring the skill to read the author in the original language. For additional complimentary materials on this topic, please see Latin Via Ovid Audio materials (available via downloadable flash drive and cassette tapes) by Norma Goldman and Jacob E. Nyenhuis and the accompanying text Practice, Practice: A Latin Via Ovid Workbook by Norma Goldman and Michael Rossi.

Prima Latina Wayne State University Press

What is the ultimate purpose of pastoral ministry? What emphases and priorities should take precedence? In the day-to-day emphasis on various pastoral roles and pragmatic concerns, what can sometimes get lost is the theological foundation for understanding pastoral ministry. James Thompson is a New Testament scholar with a concern for relating biblical studies to practical ministry. Here he does a careful study of several of Paul's epistles in order to see what Paul's vision and purpose were for his own ministry. He finds that Paul's aim was an ethical transformation of the communities (not just individuals) with which he worked, so that they would live lives worthy of the gospel until Christ's return. Using this as a framework, Thompson

offers suggestions for practical application to contemporary ministry.

Learn to Read Latin Rodale

Reading Medieval Latin is an introduction to medieval Latin in its cultural and historical context and is designed to serve the needs of students who have completed the learning of basic classical Latin morphology and syntax. (Users of Reading Latin will find that it follows on after the end of section 5 of that course.) It is an anthology, organised chronologically and thematically in four parts. Each part is divided into chapters with introductory material, texts, and commentaries which give help with syntax, sentence-structure, and background. There are brief sections on medieval orthography and grammar, together with a vocabulary which includes words (or meanings) not found in standard classical dictionaries. The texts chosen cover areas of interest to students of medieval history, philosophy, theology, and literature.

An Intensive Course Cambridge University Press

The leading Latin course worldwide Book I begins in the city of Pompeii shortly before the eruption of Vesuvius. The Worksheet Masters for Book I features exercises to consolidate Latin vocabulary, accidence and syntax; develop language awareness with work on Latin derivations; test aural comprehension and extend knowledge of the Roman world.
