An innovative collaboration between academics, practitioners, activists and artists, this timely and provocative book rewrites 16 significant Scots law cases, spanning a range of substantive topics, from a feminist perspective. Exposing power, politics and partiality, feminist judges provide alternative accounts that bring gender equity concerns to the fore, whilst remaining bound by the facts and legal authorities encountered by the original court. Paying particular attention to Scotland's distinctive national identity, fluctuating experiences of political sovereignty, and unique legal traditions and institutions, this book contributes in a distinctive register to the emerging dialogue amongst feminist judgment projects across the globe. Its judgments address concerns not only about gender equality, but also about the interplay between gender, class, national identity and citizenship in contemporary Scotland. The book also showcases unique contributions from leading artists which, provoked by the enterprise of feminist judging, or by individual cases, offer a visceral and affective engagement with the legal. The book will be of interest to academics, practitioners and students of Scots law, policy-makers, as well as to scholars of feminist and critical theory, and law and gender, internationally.

The Yearbook is laid out in a manner similar to the Statistical Abstract of the United States. The first section includes demographic and population information such as births, deaths, and other demographic characteristics of the State. Sections B and C contain economic information. Sections D, E and F contain information about elections and government finances and employment. The sections that follow cover banking and insurance, energy and utilities, housing, education, public safety and criminal justice, education, health and human services, transportation, agriculture, and environment.

Officially released on February 2, 2015. As one of the reference volumes of the FY2016 Budget request of the President, the popular Fiscal Year Budget Appendix volume presents detailed financial information on individual programs, Federal agencies and appropriation accounts that constitute the budget in tables and graphs. Includes for each Government department and agency the text of proposed appropriations language, budget schedules for each account, new legislative proposals, and explanations of the work to be performed and the funds needed, and proposed general provisions applicable to the appropriations of entire agencies or groups of agencies. Federal agency personnel, policy makers, think tank advocates, lawmakers, media organizations, and others interested in a "line item by line item" view of the President's proposed Fiscal year Budget will want this resource in their personal library collection. Public and academic libraries will want to make this annual reference product available for the general public in their Government collections. Students studying Public Finance, political scientists, and researchers will appreciate this detailed information with authoritative data legends presented in tables and graphs.

Transit-oriented development (TOD) seeks to maximize access to mass transit and nonmotorized transportation with centrally located rail or bus stations surrounded by relatively high-density commercial and residential development. New Urbanists and smart growth proponents have embraced the concept and interest in TOD is growing, both in the United States and around the world. New Transit Town brings together leading experts in planning, transportation, and sustainable design—including Scott Bernstein, Peter Calthorpe, Jim Daisa, Sharon Feigon, Ellen Greenberg, David Hoyt, Dennis Leach, and Shelley Poticha—to examine the first generation of TOD projects and derive lessons for the next generation. It offers topic chapters that provide detailed discussion of key issues along with case studies that present an in-depth look at specific projects. Topics examined include: the history of projects and the appeal of this form of development a taxonomy of TOD projects appropriate for different contexts and scales the planning, policy and regulatory framework of "successful" projects obstacles to financing and strategies for overcoming those obstacles issues surrounding traffic and parking the roles of all the actors involved and the resources available to them performance measures that can be used to evaluate outcomes Case Studies include Arlington, Virginia (Roslyn-Ballston corridor); Dallas (Mockingbird Station and Addison Circle); historic transit-oriented neighborhoods in Chicago; Atlanta (Lindbergh Center and BellSouth); San Jose (Ohlone-Chynoweth); and San Diego (Barrio Logan). New Transit Town explores the key challenges to transit-oriented development, examines the lessons learned from the first generation of projects, and uses a systematic examination and analysis of a broad spectrum of projects to set standards for the next generation. It is a vital new source of information for anyone interested in urban and regional planning and development, including planners, developers, community groups, transit agency staff, and finance professionals.

Bloomsbury Publishing

The essential healthcare guide to doing more with existing resources The healthcare industry faces foundational challenges to how it sustains itself.

As the gap between cost and revenue continues to widen, and as cost-effectiveness remains an elusive imperative, the question persists: how can healthcare organizations do more with the same resources? The Hospital and Clinic Improvement Handbook is a practical guide to how operations management -- in particular Lean and the Theory of Constraints (TOC) -- can rapidly advance value and performance in any healthcare organization. Utilizing a systems approach that will be relevant for healthcare managers and executives, it unpacks and demystifies concepts such as performance measures, operations, quality, cost accounting, pricing, and value enhancement, all as they relate to eliminating waste and non-value-adding activities. Enriched with dozens of examples and building on the authors' experience teaching and refining these concepts for healthcare, this text is an essential guide for executives and managers across the industry.

**Environmental Impact Statement**

"I expected good, but this is great." -Janet Pirus Phelps, Principle, Strategic CFO, Former CFO Papa Murphy's Pizza Gaps . . . holes in your organization where tasks fall and failure breeds. They inhibit your ability to implement strategic plans, lead people, and run successful projects. Daily, executives, middle managers, and project managers wrestle with "the big six": Absence of common understanding Disengaged executive sponsors Misalignment with goals Poor change management Ineffective governance Lackluster leadership Ignoring any of these gaps will hex any strategy or project. They regularly destroy hundreds of companies' ability to turn their corporate vision into business value—taking careers with them. Filling Execution Gaps addresses the sources of these gaps, and how to fill them. Without any one of these important functions, projects fail. Without change management, adoption suffers. Without common understanding, there is confusion. Without goals, business units, and capabilities aligned, execution falters. Without executive sponsorship, decisions languish. Too little governance allows bad things to happen, while too much governance creates overburdening bureaucracy. Without leadership at all levels of the organization, people are directionless. Using decades of experience, years of research, and interviews with hundreds of business leaders, Todd Williams illustrates how to fill these gaps, meet corporate goals, and increase value. An excellent review of this book appears here: <https://www.linkedin.com/pulse/improving-project-execution-filling-gaps-murray-pmp-ms> Click below to read an interview with the author: <https://www.linkedin.com/pulse/filling-organization-gaps-successful-project-part-1-naomi/> <https://www.linkedin.com/pulse/filling-organization-gaps-successful-project-part-2-naomi/?published=t> Facebook users can access an interview on "Project Management Cafe" here: <https://www.facebook.com/groups/projectmanagementcafe/permalink/1975750702698459/> Related blogs can be accessed here: <https://www.projectmanager.com/blog/project-execution> <https://www.strategyex.co.uk/blog/pmoperspectives/strategy-from-the-bottom-up/> Check out his August 27, 2018 interview here: <https://www.yegor256.com/shift-m/2018/34.html>
