 In 2019, Peter Kreeft published *Socrates' Children*, a four-volume series on the hundred greatest philosophers of all time, spanning from ancient Greece to contemporary Germany. But he made a terrible mistake: he somehow left out women, and with this, he overlooked the greatest mind of them all. He forgot her—a mysterious housewife from a desert village—because he had forgotten what "philosophy" means. "Philosophy is not the cultivation of cleverness," Kreeft explains, "or the sophistications of scholarship, or the analysis of analysis, or the refutation of refutations, or the deconstruction of deconstructions." No, "philosophy is a romance, a love affair—the love of wisdom." This book is a one-of-a-kind study on Mary of Nazareth, the mother of Jesus. If Jesus Christ is wisdom incarnate, and if Mary loved Him more than anyone else ever did, then it holds that Mary is the greatest philosopher, the greatest wisdom-lover. With precision and humor, Kreeft not only unpacks the thought and spirit of Mary as we know her through Scripture and Church doctrine, but offers a heartfelt crash course in the basics of philosophy—methodology, epistemology, logic, metaphysics, cosmology, ethics, politics, aesthetics, and more—all through the lens of the Mother of God. Fans of Kreeft will find here another fine example of his characteristic freshness, creativity, depth, and readability. But above all, those who are curious about the mother of Jesus, whether they are new to Christian faith or simply hoping to discover it anew, will likely find themselves swept up in the tide of Mary's wise love for God.

The literature on psychological trauma and traumatic attachment has progressed over the past few decades, however issues of coerced and internalized perpetration have not been fully explored and deconstructed. This book presents a synthesis of relational and archetypal psychology, trauma and

dissociation theory, and highly relevant child soldier literature, to offer new clinical perspectives to assist psychotherapists and trauma patients to achieve more successful therapy outcomes. The *Alchemy of Wolves and Sheep* offers instructive, cautionary and innovative therapeutic approaches to help transform the lives of survivors of complex trauma. Providing an explanation of how the effects of coerced perpetration trauma are built, and the damage done to the psyches and lives of most trauma victims, the book extends our knowledge base in a thorough deconstruction of the nature of perpetration and its effects on the psyche. Chapters include: - trauma, dissociation, and coerced perpetration - the child soldier as a model of internalized perpetration - relational concepts in the treatment of trauma and dissociative disorders - treatment trajectory - archetypal constructs as a vehicle for integration. This book provides valuable new perspectives on the psychodynamic challenges and opportunities for mental health professionals treating internalized perpetration in survivors of complex trauma, and will prove essential reading for psychotherapists, psychoanalysts and post-graduate students as well as researchers, legal scholars and policy makers.
