VALENTINE UNDERWOOD

Goodbye Helter Skelter HarperCollins

The first comprehensive biography of Sharon Tate: Hollywood star, wife of Roman Polanski, victim of Charles Manson, and symbol of the death of the 1960s. It began as a home invasion by the "Manson family" in the early hours of August 9, 1969. It ended in a killing spree that left seven people dead: actress Sharon Tate, writer Voyteck Frykowski, coffee heiress Abigail Folger, hair stylist Jay Sebring, student Steven Parent, and supermarket owner Leno LaBianca and his wife, Rosemary. The shock waves of these crimes still reverberate today. They have also, over time, eclipsed the life of their most famous victim—a Dallas, Texas, beauty queen with Hollywood aspirations. After more than a dozen small film and television roles, Tate gained international fame with the screen adaptation of Jacqueline Susann's *Valley of the Dolls*, but *The Fearless Vampire Killers* marked a personal turning point, as she would marry its star and director, Roman Polanski. Tate now had a new dream: to raise a family—and she was only weeks away from giving birth the night Charles Manson's followers murdered her. Drawn from a wealth of rare material including detective reports, parole transcripts, Manson's correspondence, and revealing new interviews with Tate's friends and costars as well as surviving relatives of the murder victims, *Sharon Tate and the Manson Murders* gives readers a vital new perspective on one of the most notorious massacres of the twentieth century. The dark legacy of the cult phenomenon is still being explored in novels (Emma Cline's *The Girls*) and TV shows (NBC's *Aquarius*). In addition to providing the first full-fledged biography of Sharon Tate, author Greg King finally gives a voice to the families of the slain, notably Tate's mother, Doris. Her advocacy for victims' rights was recognized during President George H. W. Bush's 1992 "A Thousand Points of Light" ceremony. This is the true story of a star who is being rediscovered by a new generation of fans, a woman who achieved in death the fame she yearned for in life.

The Rise of True Crime W. W. Norton & Company

The *Killer Book of Serial Killers* is the ultimate resource (and gift) for any true crime fan and student of the bizarre world of serial killers. Filled with stories, trivia, quizzes, quotes, photos, and odd facts about the world's most notorious murderers, this is the perfect bathroom reader for anyone fascinated with serial killers. The stories and trivia cover such killers as: John Wayne Gacy Ted Bundy The BTK Killer Jack the Ripper The Green River Killer Serial killers around the world And many more Bathroom readers have enjoyed considerable success as a format, selling millions of copies. The *Killer Book* series brings this format to the rabid true crime audience. Including more than 40 black & white photos, this is a must for true crime fans.

Chris and Nancy W. W. Norton & Company

Bugliosi, brilliant prosecutor and bestselling author, is perhaps the only man in America capable of "prosecuting" Lee Harvey Oswald for the murder of John F. Kennedy. His book is a narrative compendium of fact, ballistic evidence, and, above all, common sense.

Killer Book of Serial Killers Simon and Schuster

A journalist's twenty-year fascination with the Manson murders leads to "gobsmacking" (The Ringer) new revelations about the FBI's involvement in this "kaleidoscopic" (The New York Times) reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents.

When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, *Chaos* mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

Perfect Victim Createspace Independent Publishing Platform

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the

killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

Chaos Open Road Media

From a renowned investigative journalist comes the true story of a couple whose criminal exploits paralleled those of the controversial film "Natural Born Killers." photos. Original.

Restless Souls W. W. Norton & Company

In this poignant and disturbing memoir of lost innocence, coercion, survival, and healing, Dianne Lake chronicles her years with Charles Manson, revealing for the first time how she became the youngest member of his Family and offering new insights into one of the twentieth century's most notorious criminals and life as one of his "girls." At age fourteen Dianne Lake—with little more than a note in her pocket from her hippie parents granting her permission to leave them—became one of "Charlie's girls," a devoted acolyte of cult leader Charles Manson. Over the course of two years, the impressionable teenager endured manipulation, psychological control, and physical abuse as the harsh realities and looming darkness of Charles Manson's true nature revealed itself. From Spahn ranch and the group acid trips, to the Beatles' White Album and Manson's dangerous messiah-complex, Dianne tells the riveting story of the group's descent into madness as she lived it. Though she never participated in any of the group's gruesome crimes and was purposely insulated from them, Dianne was arrested with the rest of the Manson Family, and eventually learned enough to join the prosecution's case against them. With the help of good Samaritans, including the cop who first arrested her and later adopted her, the courageous young woman eventually found redemption and grew up to lead an ordinary life. While much has been written about Charles Manson, this riveting account from an actual Family member is a chilling portrait that recreates in vivid detail one of the most horrifying and fascinating chapters in modern American history. *Member of the Family* includes 16 pages of photographs.

The Manson File W. W. Norton & Company

In this revised, updated and expanded edition, the author explores the life of Theodore Bundy, one of the more infamous--and flamboyant--American serial killers on record. Bundy's story is a complex mix of psychopathology, criminal investigation, and the U.S. legal system. This in-depth examination of Bundy's life and his killing spree that totaled dozens of victims is drawn from legal

transcripts, correspondence and interviews with detectives and prosecutors. Using these sources, new information about several murders is unveiled. The biography follows Bundy from his broken family background to his execution in the electric chair.

A Manson insider's take on the famous murder case

Helter Skelter Independently Published

A Canadian psychiatric nurse recounts his dealings with the imprisoned Charles Manson's confidants on the outside, his telephone conversations with the convicted murderer, and their meeting, and offers Manson's own writings and art.

In Cold Blood Hachette Books

During the 1950s and 1960s *True Detective* magazine developed a new way of narrating and understanding murder. It was more sensitive to context, gave more psychologically sophisticated accounts, and was more willing to make conjectures about the unknown thoughts and motivations of killers than others had been before. This turned out to be the start of a revolution, and, after a century of escalating accounts, we have now become a nation of experts, with many ordinary people able to speak intelligently about blood-spatter patterns and organized vs. disorganized serial killers. *The Rise of True Crime* examines the various genres of true crime using the most popular and well-known examples. And despite its examination of some of the potentially negative effects of the genre, it is written for people who read and enjoy true crime, and wish to learn more about it. With skyrocketing crime rates and the appearance of a frightening trend toward social chaos in the 1970s, books, documentaries, and fiction films in the true crime genre tried to make sense of the Charles Manson crimes and the Gary Gilmore execution events. And in the 1980s and 1990s, true crime taught pop culture consumers about forensics, profiling, and highly technical aspects of criminology. We have thus now become a nation of experts, with many ordinary people able to speak intelligently about blood-spatter patterns and organized vs. disorganized serial killers. Through the suggestion that certain kinds of killers are monstrous or outside the realm of human morality, and through the perpetuation of the stranger-danger idea, the true crime aesthetic has both responded to and fostered our culture's fears. True crime is also the site of a dramatic confrontation with the concept of evil, and one of the few places in American public discourse where moral

terms are used without any irony, and notions and definitions of evil are presented without ambiguity. When seen within its historical context, true crime emerges as a vibrant and meaningful strand of popular culture, one that is unfortunately devalued as lurid and meaningless pulp.

And the Sea Will Tell Zondervan

"A book for the ages." —Los Angeles Times Book Review Four Days in November is an extraordinarily exciting, precise, and definitive narrative of the assassination of President John F. Kennedy on November 22, 1963, by Lee Harvey Oswald. It is drawn from *Reclaiming History: The Assassination of President John F. Kennedy*, a monumental and historic account of the event and all the conspiracy theories it spawned, by Vincent Bugliosi, legendary prosecutor of Charles Manson and author of *Helter Skelter*. For general readers, the carefully documented account presented in *Four Days* is utterly persuasive: Oswald did it and he acted alone.

Columbo: The Helter Skelter Murders Garrett County Press

"Gives us a portrait close to the truth" of the man responsible for the Tate-LaBianca murders that changed Hollywood and ended the sixties (*The New York Times Book Review*). This astonishing book lays bare the life and the mind of a man whose acts have left us horrified. His story provides an enormous amount of new information about his life and how it led to the Tate-LaBianca murders and reminds us of the complexity of the human condition. Born in the middle of the Depression to an unmarried fifteen-year-old, Manson lived through a bewildering succession of changing homes and substitute parents, until his mother finally asked the state authorities to assume his care when he was twelve. Regimented and often brutalized in juvenile homes, Manson became immersed in a life of petty theft, pimping, jail terms, and court appearances that culminated in seven years of prison. Released in 1967, he suddenly found himself in the world of hippies and flower children, a world that not only accepted him, but even glorified his anti-establishment values. It was a combination that led, for reasons only Charles Manson can fully explain, to tragedy. Manson's story, distilled from seven years of interviews and examinations of his correspondence, provides sobering insight into the making of a criminal mind, and a fascinating picture of the last years of the sixties. "A glimpse of part of the American experience that is rarely described from the

inside . . . It compels both interest and horror.”—The Washington Post “Provides a fascinating glimpse into the mind of a truly dangerous human being.”—Los Angeles Herald Examiner

Child of Satan, Child of God SCB Distributors

Restless Souls is the true, bone-chilling chronicle of the Manson Family murders and its aftermath, from the point of view of the victims’ families. When actress Sharon Tate and four others were brutally murdered by Charles Manson and his followers, the world was shocked. More than forty years later, the gruesome barbarity of the “Manson Family” still fascinates and horrifies. This true crime memoir by Alisa Statman, a 20-year Tate family friend, and Brie Tate, the daughter of Sharon Tate’s niece, includes interviews with the Tate family, accounts from personal letters, tape recordings, home movies, and private diaries. Complete with color photographs and personal insights, Restless Souls is the most revealing, riveting, and emotionally raw account of the gruesome slayings, the hunt and capture of the killers, and the behind-the-scenes drama of their trials, as well as a touching view of the torment that the victims families’ have endured for years after such tragedy.

Alcoholics Anonymous Citadel Press

An account of one of the most notorious criminals in American history puts Manson in the context of his times, the turbulent end of the 1960s, revealing a rock star wannabe whose killings were directly related to his musical ambitions.

The Manson Women and Me Pinnacle Books

A 75th anniversary e-book version of the most important and practical self-help book ever written, Alcoholics Anonymous. Here is a special deluxe edition of a book that has changed millions of lives and launched the modern recovery movement: Alcoholics Anonymous. This edition not only reproduces the original 1939 text of Alcoholics Anonymous, but as a special bonus features the complete 1941 Saturday Evening Post article “Alcoholics Anonymous” by journalist Jack Alexander, which, at the time, did as much as the book itself to introduce millions of seekers to AA’s program. Alcoholics Anonymous has touched and transformed myriad lives, and finally appears in a volume that honors its posterity and impact.

The True Confessions of Charlotte Doyle (Scholastic Gold) It Books

"Grips you by the throat from beginning to end."—Cleveland Plain Dealer *ALONE WITH HER NEW HUSBAND* on a tiny Pacific atoll, a young woman, combing the beach, finds an odd aluminum container washed up out of the lagoon, and beside it on the sand something glitters: a gold tooth in a scorched human skull. The investigation that follows uncovers an extraordinarily complex and puzzling true-crime story. Only Vincent Bugliosi, who recounted his successful prosecution of mass murderer Charles Manson in the bestseller *Helter Skelter*, was able to draw together the hundreds of conflicting details of the mystery and reconstruct what really happened when four people found hell in a tropical paradise. And *The Sea Will Tell* reconstructs the events and subsequent trial of a riveting true murder mystery, and probes into the dark heart of a serpentine scenario of death.

A Room of One's Own Praeger

The wife of a wealthy L.A. businessman is found murdered in bed with her lover, with the words "Helter Skelter" painted in blood on the walls. Columbo, America's favorite TV detective, must ask himself whether the horror of the Manson Family's massacres could return--and whether Manson himself is ordering a fresh round of atrocities from his San Quentin prison cell.

Cruel Death Little, Brown

American serial killer Edmund Kemper III stalked co-eds in California at the height of the era of peace and free love, dismembering his victims and tossing their body parts in remote areas around Santa Cruz. As pieces of young women began washing up on shore and turning up alongside rural highways, female residents - especially college students - were decidedly on edge. A lust killer who savored the act of decapitating his victims - and often used their severed heads for sexual pleasure - Kemper's story is particularly twisted among historical serial killers. Still, the true crime tale of Edmund Kemper is particularly fascinating, because the man many people called "a gentle giant" was a near genius whose cunning manipulation of others made him particularly depraved and dangerous. This true crime story, a detailed biography of one of the most psychopathic serial killers of our time, shares some insight into the troubled childhood and awkward nature that led the American serial killer to take 10 lives, including those of six pretty co-eds, his paternal

grandparents, his calculatingly cruel mother and his mother's best friend. Among historical serial killers, Kemper is especially depraved, since he included necrophilia and cannibalism in his gruesome mix of sordid criminal activity. Ultimately, Kemper's murderous inclinations and urges to kill were satisfied after he bludgeoned to death his mother, a woman he'd hated since he was eight years old, and he turned himself in. But if he hadn't finally acted on his long-held fantasy to end his mother's life, he might still be trolling California highways, getting away with murder.

Liminal States Harper Collins

"A haunted, haunting examination of mental illness and murder in a more or less ordinary American city...Mature and thoughtful...A *Helter Skelter* for our time, though without a hint of sensationalism—unsettling in the extreme but written with confidence and deep empathy" (Kirkus Reviews, starred review). On March 11, 2003, in Brownsville, Texas—one of America’s poorest cities—John Allen Rubio and Angela Camacho murdered their three young children. The apartment building in which the brutal crimes took place was already run down, and in their aftermath a consensus developed in the community that it should be destroyed. In 2008, journalist Laura Tillman covered the story for *The Brownsville Herald*. The questions it raised haunted her and set her on a six-year inquiry into the larger significance of such acts, ones so difficult to imagine or explain that their perpetrators are often dismissed as monsters alien to humanity. Tillman spoke with the lawyers who tried the case, the family’s neighbors and relatives and teachers, even one of the murderers: John Allen Rubio himself, whom she corresponded with for years and ultimately met in person. Her investigation is “a dogged attempt to understand what happened, a review of the psychological, sociological and spiritual explanations for the crime...a meditation on the death penalty and on the city of Brownsville” *Star Tribune* (Minneapolis). The result is a brilliant exploration of some of our age’s most important social issues and a beautiful, profound meditation on the truly human forces that drive them. “This thought-provoking...book exemplifies provocative long-form journalism that does not settle for easy answers” (Publishers Weekly, starred review).
