At a time of growing evidence of racism across many countries and cultures, *Creating an Anti-Racist Culture in the Early Years* will help those working with young children recognise racism, name it for what it is and help their young pupils understand that difference is nothing to be feared. Drawing on both personal research and established theory, Smidt includes examples of anti-racist practice from real life and in literature, looks at how racism is acquired and cites examples of people who have spoken or acted against racism through the centuries. She emphasises how and why it is essential to develop multicultural education into anti-racist education and why it's so important to go beyond the mere celebration of differences in cultures. This indispensable resource also addresses: What racism is and why it is so corrosive How to recognise and challenge it in an early years setting How to work with parents and carers to help them reassess their prejudices or unconscious bias How to create an anti-racist curriculum and culture through inclusion, multiculturalism, literature, art and drama. *Creating an Anti-Racist Culture in the Early Years* is an indispensable resource for all early years practitioners and students of early childhood education who believe in creating more equitable opportunities for all of our young children.

Arte de la Lengua Guarani, O Mas Bien Tupi ... Wipf and Stock Publishers

"Lord knows that we have more than enough books about

ourselves and never enough books about the God that created us. It isn't until we see him that we can then make sense of ourselves. I believe Jen Oshman's book accomplishes that by widening our vision and helping us fall in love with seeing God again." —Jackie Hill Perry, poet; author; hip-hop artist Women today feel a constant pressure to improve themselves and just never feel like they're "enough." All too often, they live their daily lives disheartened, disillusioned, and disappointed. That's because joy doesn't come from a new self-improvement strategy; it comes from rooting their identity in who God says they are and what he has done on their behalf. This book calls women to look away from themselves in order to find the abundant life God offers them—contrasting the cultural emphasis on personal improvement and empowerment with what the Scriptures say about a life rooted, built up, and established in the gospel.

From its earliest appearance in the mid-1600s, the lyric theater form of zarzuela captivated Spanish audiences with its witty writing and lively musical scores. Clinton D. Young's *Music Theater and Popular Nationalism in Spain, 1880-1930* persuasively links zarzuela's celebration of Spanish history and culture to the development of concepts of nationalism and

national identity at the dawn of the twentieth century. As a weak Spanish government focused its energy on preventing a recurrence of mid-nineteenth-century political upheavals, the project of articulating a national identity occurred at the popular level, particularly in cultural venues such as the theater. Zarzuela suited this aim well, depicting the lives of everyday citizens amid the rapidly changing norms brought about by industrialization and urbanization. It also integrated regional differences into a unified vision of Spanish national identity: a zarzuela performance set in Madrid could incorporate forms of music and folk dancing native to areas of the country as far distant as Andalucía and Catalonia. A true "music of the people" (*música popular*), zarzuela offered its audiences an image of what a more modern Spain might look like. Zarzuela alone could not create a unified concept of Spanish identity, particularly with competition from new forms of mass culture and the rise of the Primo de Rivera dictatorship in the 1920s. Yet, as this riveting study shows, it made an indelible contribution to popular culture and nationalism. Young's history brings to life the stories, songs, and evolving contexts of a uniquely Spanish art form.

The Latino/a community continues to grow at a faster pace than any other racial or ethnic group in the country. In part because of this growth, Latino/as have begun to be recognized as bona fide contributors to American society, whether through sports, music, literary work, theology, or ministry. Largely missing from this, however, has been attention to the creative and indeed prophetic expression coming from the Latino/a pulpit--that is, the sermons being developed and preached from the Latino/a churches. This book fills that void. Eli Valentin has gathered some of the top US Latino/a theologians and religious practitioners to contribute actual sermons that have been constructed out of the rough and tumble of the Latino/a reality. The sermons in this book approach nitty-gritty issues that directly impact Latinos/as in the United States. What we find as a result is a message of hope that continues to emanate from the Latino/a pulpit, a hope placed in a

God who promises a restored cosmos.

Many view civil wars as violent contests between armed combatants. But history shows that community groups, businesses, NGOs, local governments, and even armed groups can respond to war by engaging in civil action. Characterized by a reluctance to resort to violence and a willingness to show enough respect to engage with others, civil action can slow, delay, or prevent violent escalations. This volume explores how people in conflict environments engage in civil action, and the ways such action has affected violence dynamics in Syria, Peru, Kenya, Northern Ireland, Mexico, Bosnia, Afghanistan, Spain, and Colombia. These cases highlight the critical and often neglected role that civil action plays in conflicts around the world.

The Routledge Companion to Latina/o Media provides students and scholars with an indispensable overview of the domestic and transnational dynamics at play within multi-lingual Latina/o media. The book examines both independent and mainstream media via race and gender in its theoretical and empirical

engagement with questions of production, access, policy, representation, and consumption. Contributions consider a range of media formats including television, radio, film, print media, music video and social media, with particular attention to understudied fields such as audience and production studies.

### The Politics of Sexuality and Race in Puerto Rico, 1870-1920

This incisive and elegantly written examination of Chicano antiwar mobilization demonstrates how the pivotal experience of activism during the Viet Nam War era played itself out among Mexican Americans. ¡Raza Sí! ¡Guerra No! presents an engaging portrait of Chicano protest and patriotism. On a deeper level, the book considers larger themes of American nationalism and citizenship and the role of minorities in the military service, themes that remain pertinent today. Lorena Oropeza's exploration of the evolution, political trajectory, and eventual implosion of the Chicano campaign against the war in Viet Nam encompasses a fascinating meditation on Mexican Americans' political and cultural orientations, loyalties, and sense of status and place in American society.
