Operations Strategy 34 4. Process Design 46 5. The Design of Products and Services 60 6. Supply Network Design 71 7. Layout and Flow 86 8. Process Technology 95Instructor's ManualA simple answer; because

operations management is the function that, directly and indirectly, is responsible for most energy usage. By their nature, transformation processes consume energy. If operations managers managed to reduce consumption by just a few per cent a year it would allow the economic growth that most people seem to want, while at the same time reducing global energy consumption. 208 © Nigel Slack, Stuart Chambers & Robert Johnston 2007 ... operations management and operations ...
