This short, practical book introduces students to the important components of the information-seeking process. The Elements of Library Research provides a foundation for success in any research assignment, from a freshman paper to a senior thesis. Unlike guides that describe the research process but do not explain its logic, this book focuses entirely on basic concepts, strategies, tools, and tactics for research--in both electronic and print formats. Drawing on decades of experience with undergraduates, reference librarian Mary George arms students with the critical thinking skills and procedures they need to approach any academic project with confidence. Ways to turn a topic into a research question Techniques for effective online searches How to evaluate primary and secondary sources When and how to confer with reference librarians and faculty How to avoid plagiarism Glossary of key terms, from Boolean search to

In the late 1970s Ondaatje returned to his native island of Sri Lanka. As he records his journey through the drug-like heat and intoxicating fragrances of that "pendant off the ear of India," Ondaatje simultaneously retraces the baroque mythology of his Dutch-Ceylonese family. An inspired travel narrative and family memoir by an exceptional writer.

Shakespeare in the World Routledge Orientalism and Literature discusses a key critical concept in literary studies and how it assists our reading of literature. It reviews the concept's evolution: how it has been explored, imagined and narrated in literature. Part I considers Orientalism's origins and its geographical and multidisciplinary scope, then considers the major genres and trends Orientalism inspired in the literary-critical field such as the eighteenth-century Oriental tale, reading the Bible, and Victorian Oriental fiction. Part II recaptures specific aspects of Edward Said's Orientalism: the multidisciplinary contexts and scholarly discussions it has inspired (such as colonial discourse, race, resistance, feminism and travel writing). Part III deliberates upon recent and possible future applications of Orientalism, probing its currency and effectiveness in the twenty-first century, the role it has played and continues to play in the operation of power, and how in new forms, neo-Orientalism and Islamophobia, it feeds into various genres, from migrant writing to journalism.

Homi K. Bhabha is one of the most highly renowned figures in contemporary post-colonial studies. Seminar paper from the year 2018 in the subject English Language and Literature Studies - Literature, grade: 2,7, University of Wuppertal, language: English, abstract: Postcolonial literature is often used to describe the problems and consequences of the colonization. Here, the independence of the political or cultural is important. In relation to post colonialism, the term hybridity plays also a significant role. Hybridity as such can be seen as a state in which two or more cultures convene. Since every culture has its own identity, it can be said that because of the hybridization, the identity can be lost. National identity is a crucial aspect when it comes to hybridization due to the fact that it is possible that one can lose its national identity when he or she comes in touch with another culture after colonizing. This paper attempts to show how the author succeeded to illustrate the occurrence of hybridization for the different characters with different cultural backgrounds and to what extent the Third Space is a tool to create new cultural experiences for the characters. First, the term hybridity will be explained in more detail and afterwards the Hybridity Theory by Bhabha (1994) will be used in order to represent hybridization. His theory will be applied on the four main characters of the novel in Section 2.1. The next section, Section 2.2 will be used to illustrate the hybridity in the Third Space with the focus on the spaces of the villa and the desert. In Section 2.3 whether the characters still have the desire to belong to the different culture after the climax of the novel or whether they detach themselves from the hybridity they once experienced.

The Location of Culture Routledge Research Paper from the year 2010 in the subject English - History of Literature, Eras, grade: -, Lovely Professional University, course: English Literature & Literary Theory, language: English, abstract: Objective of this paper is to discuss how culture of a nation gets formed strongly and how it affects literature of that very nation. The proposed paper elucidates and illustrates ideas of Homi K Bhabha, he has given in Location of Culture.

The Representation of Islam in William Shakespeare's "Othello" The Location of Culture

This bold and ambitious volume argues that postcolonial historical fiction offers readers valuable resources for thinking about history and the relationship between past and present. It shows how the genre's treatment of colonialism illustrates continuities between the colonial era and our own and how the genre distills from our colonial pasts the evanescent, utopian intimations of a properly postcolonial future. *Critique and Utopia in Postcolonial Historical Fiction* arrives at these insights by juxtaposing novels from the Atlantic world with books from the Indian subcontinent. Attending to the links across these regions, the volume develops luminous readings of novels by Patrick Chamoiseau, J. G. Farrell, Amitav Ghosh, Marlon James, Hari Kunzru, Toni Morrison, Marlene van Niekerk, Arundhati Roy, Kamila Shamsie, and Barry Unsworth. It shows how these works not only transform our understanding of the colonial past and the futures that might issue from it, but

also contribute to pressing debates in postcolonial theory—debates about the politics of literary forms, the links between cycles of capital accumulation and the emergence of new genres, the meaning of 'working through' traumas in the postcolonial context, the relationship between colonial and panoptical power, the continued salience of hybridity and mimicry for the study of colonialism, and the tension between national liberation struggles and transnational forms of solidarity. Beautifully written and meticulously theorized, *Critique and Utopia in Postcolonial Historical Fiction* will be of interest to students of world literature, Marxist critics, postcolonial theorists, and thinkers of the utopian. [Colonial Desire](#) Oxford University Press The contributors address the gap in Italian colonial/postcolonial studies by examining how different notions of hybridity can help illuminate the specific nature & circumstances of the Italian colonial & postcolonial condition. Some of the contributors view hybridity as a direct challenge to fixed categorizations.

This interdisciplinary collection of critical articles seeks to reassess the concept of hybridity and its relevance to post-colonial theory and literature. The challenging articles written by internationally acclaimed scholars discuss the usefulness of the term in relation to such questions as citizenship, whiteness studies and transnational identity politics. In addition to developing theories of hybridity, the articles in this volume deal with the role of hybridity in a variety of literary and cultural phenomena in geographical settings ranging from the Pacific to native North America. The collection pays particular attention to questions of hybridity, migrancy and diaspora.

Cavan W. Concannon makes a significant contribution to Pauline studies by imagining the responses of the Corinthians to Paul's letters. Based on surviving written materials and archaeological research, this book offers a textured portrait of the ancient Corinthians with whom Paul conversed, argued, debated, and partnered, focusing on issues of ethnicity, civic identity, politics, and empire. In doing so, the author provides readers a unique opportunity to assess anew, and imagine possibilities beyond, Paul's complicated legacy in shaping Western notions of race, ethnicity, and religion.

Home is a foreign country: they do things differently there. In a tiny flat in West London, sixteen-year-old Marina lives with her emotionally delicate mother, Laura, and three ancient Hungarian relatives. She is the awkward half-foreign girl who doesn't know how to fit in, flirt or even be. And as a semi-Hungarian Londoner, who is she? In the meantime, her mother Laura, an alien in this strange universe, has her own painful secrets to deal with, especially the return of the last man she'd expect back in her life. She isn't noticing that, at Combe Abbey, things are starting to go terribly wrong.

"My name is Karim Amir, and I am an Englishman born and bred, almost..."

The hero of Hanif Kureishi's debut novel is dreamy teenager Karim, desperate to escape suburban South London and experience the forbidden fruits which the 1970s seem to offer. When the unlikely opportunity of a life in the theatre announces itself, Karim starts to win the sort of attention he has been craving - albeit with some rude and raucous results. With the publication of *Buddha of Suburbia*, Hanif Kureishi landed into the literary landscape as a distinct new voice and a fearless taboo-breaking writer. The novel inspired a groundbreaking BBC series featuring a soundtrack by David Bowie.

Homi Bhabha: An Introduction and Critique, Volume 2: Colonialism and Inbetweenness Peter Lang

The language of contemporary cultural theory shows remarkable similarities with the patterns of thought which characterised Victorian racial theory. Far from being marked by a separation from the racialised thinking of the past, *Colonial Desire* shows we are operating in complicity with historical ways of viewing 'the other', both sexually and racially. *Colonial Desire* is a controversial and bracing study of the history of Englishness and 'culture'. Robert Young argues that the theories advanced today about post-colonialism and ethnicity are disturbingly close to the colonial discourse of the nineteenth century. 'Englishness', Young argues, has been less fixed and stable than uncertain, fissured with difference and a desire for otherness.

Hybridity, OR the Cultural Logic of Globalization Independently Published
Exploring Translation Theories presents a comprehensive analysis of the core

contemporary paradigms of Western translation theory. The book covers theories of equivalence, purpose, description, uncertainty, localization, and cultural translation. This second edition adds coverage on new translation technologies, volunteer translators, non-linear logic, mediation, Asian languages, and research on translators' cognitive processes. Readers are encouraged to explore the various theories and consider their strengths, weaknesses, and implications for translation practice. The book concludes with a survey of the way translation is used as a model in postmodern cultural studies and sociologies, extending its scope beyond traditional Western notions. Features in each chapter include: An introduction outlining the main points, key concepts and illustrative examples. Examples drawn from a range of languages, although knowledge of no language other than English is assumed. Discussion points and suggested classroom activities. A chapter summary. This comprehensive and engaging book is ideal both for self-study and as a textbook for Translation theory courses within Translation Studies, Comparative Literature and Applied Linguistics. *Reconstructing Hybridity* Princeton University Press

In *Location of Culture*, Homi Bhabha sets out the conceptual imperative and political consistency of the post-colonial intellectual project. In a provocative series of essays, Bhabha explains why the post-colonial critique has altered forever the landscape of postmodern discourse. *Location of Culture* examines the displacement of the colonist's legitimizing cultural authority; the margins of Western "civility" put under colonial stress; the complex cultural and political boundaries which exist between

the spheres of gender, race, class, and sexuality; the place of language, psychic affect, and narrative discourse in the construction of social authority and cultural identity. Bhabha investigates a diverse range of texts in a bold attempt to specify the moment and the place of both colonial and post-colonial perspectives. He discusses writers such as Toni Morrison, Nadine Gordimer, and Salman Rushdie; historical documents such as those on the Indian Mutiny and by missionaries; race riots and nationhood; and he builds on the work of important cultural theorists such as Frantz Fanon and Edward Said.

Hybridity, Mimicry and Commodification GRIN Verlag

Shakespeare in the World traces the reception histories and adaptations of Shakespeare in the nineteenth century, when his works became well-known to non-Anglophone communities in both Europe and colonial India. Sen provides thorough and searching examinations of nineteenth-century theatrical, operatic, novelistic, and prose adaptations that are still read and performed, in order to argue that, crucial to the transmission and appeal of Shakespeare's plays were the adaptations they generated in a wide range of media. These adaptations, in turn, made the absorption of the plays into different "national" cultural traditions possible, contributing to the development of "nationalist

cosmopolitanisms" in the receiving cultures. Sen challenges the customary reading of Shakespeare reception in terms of "hegemony" and "mimicry," showing instead important parallels in the practices of Shakespeare adaptation

in Europe and colonial India. *Shakespeare in the World* strikes a fine balance between the Bard's iconicity and his colonial and post-colonial afterlives, and is an important contribution to Shakespeare studies.
