The growing concern over the number of
accidental firearm shootings, especially
those involving children, prompted
passage of the initial handgun safety law

which went into effect in 1994. The stated
intent of the California Legislature in
enacting the current FSC law is for persons
who obtain firearms to have a basic
familiarity with those firearms, including,
but not limited to, the safe handling and
storage of those firearms. The statutory
authority for this program is contained in
Penal Code sections 26840 and 31610
through 31700. These statutes mandate
DOJ to develop, implement and maintain
the FSC Program. Pursuant to Penal Code
section 26840, a firearms dealer cannot
deliver a firearm unless the person

receiving the firearm presents a valid FSC,
which is obtained by passing a written test
on firearm safety. Prior to taking delivery
of a firearm from a licensed firearms
dealer, the purchaser/recipient must also
successfully perform a safe handling
demonstration with that firearm..

In 1990 the Beretta M9 replaced the venerable Colt 1911 as the main pistol of choice for the US Army, and it has seen widespread use in Iraq and Afghanistan. Written by a leading pistol expert who currently trains US Special Forces in the use of this weapon, this book is an honest appraisal of the successes and failings of the 9mm Beretta. The volume traces the Beretta designs that preceded the M9, as well as its use on the battlefield, including the impact it has had on close combat training due its the larger magazine capacity. It also details the adoption of the Beretta by US law enforcement agencies and the impact this has had. This is a fascinating history of a classic pistol and an assessment of its future use.
