This third edition manual is intended to provide law enforcement agencies with a quick and informative reference when the worst occurs: the unexpected death of a departmental member. The material contained herein has been gathered by

the International Conference of Police Chaplains from numerous departments and sources. It covers all law enforcement circumstances and protocols and religious beliefs. New to this edition is a section devoted to ethnic communities and death/funeral considerations. Divided into seven sections, the major topics cover: preparing for the funeral, basic elements of law enforcement funerals, types of

funerals, animal burials, funeral resources, survivor resources, and planning for the future. Police hymns, prayers, and help and supportive agencies are included for departments to use in drafting their own policies and procedures. Particular attention is given to ongoing care for the deceased member's family. A "Line of Duty or Serious Injury" form is provided as an example for other departments and agencies to use in drafting their own policies and procedures. The very helpful appendices contain a funeral checklist, a personnel debriefings form, and sample "Line of Duty Death Department Regulation of Standard Operating Procedure and Model Department Policy."

This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and

Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror

have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society. Our morally deteriorating culture has forgotten God's goodness to its own peril. Will the next generation even know God? The very survival of the Christian faith depends on creating a culture of

God-memories that must start now! Today's culture is quickly forgetting the goodness and power of God. The Bible describes the potential destruction through all generations to people who forget God. The dangers are paramount. If we don't remember what God has already done, we won't believe what he is capable of doing in the future. Memory builds faith. *Forsaken God* explores biblical examples of forgetting God as God repeatedly pleads for his people to remember his mighty acts and deeds. As you read this captivating book, you will have an opportunity to recall your own memories of God and learn new ways to remember God's goodness and the power of sharing those memories with the next generation. The author and other contributors share open and

honest stories of forgetting God's goodness and offer ways that help them to remember.

A New Juvenile Justice System aims at nothing less than a complete reform of the existing system: not minor change or even significant overhaul, but the replacement of the existing system with a different vision. The authors in this volume—academics, activists, researchers, and those who serve in the existing system—all respond in this collection to the question of what the system should be. Uniformly, they agree that an ideal system should be centered around the principle of child well-being and the goal of helping kids to achieve

productive lives as citizens and members of their communities. Rather than the existing system, with its punitive, destructive, undermining effect and uneven application by race and gender, these authors envision a system responsive to the needs of youth as well as to the community's legitimate need for public safety. How, they ask, can the ideals of equality, freedom, liberty, and self-determination transform the system? How can we improve the odds that children who have been labeled as "delinquent" can make successful transitions to adulthood? And how can we create a system that relies on proven, family-focused interventions and creates opportunities for positive youth development? Drawing upon interdisciplinary work as well as on-the-

ground programs and experience, the authors sketch out the broad parameters of such a system. Providing the principles, goals, and concrete means to achieve them, this volume imagines using our resources wisely and well to invest in all children and their potential to contribute and thrive in our society. Be Your Own Kind of Brave! Bravery isn't reserved for only women serving on international mission teams, or for women who serve in the military or on a police force. Every woman is brave, much braver than she might think. But feelings of doubt and inadequacy try to stop us from living up to our God-given potential to be courageous women of faith. In *Everyday Brave*, Janet explores the extraordinary actions of fifty ordinary

women in the Bible, women who display bravery in usual and unusual circumstances. Thirty present-day women also give their testimony of realizing their strength and courage through God's love. As Janet shares the stories of these women, she reminds us that the heart and substance of bravery, even in the face of fear, comes from unconditionally placing our hope in the only One who can give us the courage to stay the course.

Law professor James J. Duane became a viral sensation thanks to a 2008 lecture outlining the reasons why you should never agree to answer questions from the police--especially if you are innocent and wish to stay out of trouble with the law. In this timely, relevant, and

pragmatic new book, he expands on that presentation, offering a vigorous defense of every citizen's constitutionally protected right to avoid self-incrimination. Getting a lawyer is not only the best policy, Professor Duane argues, it's also the advice law-enforcement professionals give their own kids. Using actual case histories of innocent men and women exonerated after decades in prison because of information they voluntarily gave to police, Professor Duane demonstrates the critical importance of a constitutional right not well or widely understood by the average American. Reflecting the most recent attitudes of the Supreme Court, Professor Duane argues that it is now even easier for police to use your own words against you. This lively and

informative guide explains what everyone needs to know to protect themselves and those they love.
