Contrastive Analysis Carl James
1980 Contrastive analysis is viewed as an
interlinguistic, bidirectional phenomenon
which is concerned with both the form
and function of language. As such,
contrastive analysis must view language
psycholinguistically and
sociolinguistically as a system to be both
described and acquired. Due to the need
for a psychological component in the
analysis, the notion of transfer is
discussed. ERIC - ED202229 - Contrastive
