The Christmas Tree Story is a familiar journey in preparing for the holidays. Through busy schedules, unbreakable traditions and caloric overload, there is something calming and comforting about the Christmas Tree process. Each household embraces different approaches but all get comparable outcomes. The

time shared with each other etches in memories of music, smiles, snacks and more.

From buying the tree to fully decorating it. It builds upon one's impression from season to season which quickly becomes a lifetime event worth celebrating.

May your tree stand as high as the snow at the North Pole. May your ornaments shine as bright as the stars in the sky. May the magic of the holiday

touch you gently as a reminder that you are loved. Danny Mishek resides in Little Canada, MN (a suburb of St. Paul).

He is married with four children and a curly dog - Darby. Danny enjoys golfing, gardening, beekeeping and red wine. While writing a book was never part of the plan, sharing stories and creating memories have always come naturally.

From being a 3rd generation manufacturer to an author is

quite the transformation for Mishek.

The Wizenard Series:
Training Camp
Simon and Schuster
Highbrow/Low down explores the twentieth century's first culture war and the forces that permanently transformed American theater into the art form we know today. The arrival of jazz in the 1920s sparked a cultural revolution that was impossible to contain. The music affected every stratum of U.S. society and culture, confusing and

challenging long-entrenched hierarchies based on class, race, and ethnicity. Jazz was considered the first distinctively American art form, and its dissemination across the globe served to launch the United States as a cultural force to be reckoned with. The Jazz Age was also the era of vaudeville, burlesque, and musical comedys that were quick to cash

in on the jazz craze. But jazz was much more than the music. It was also a powerful cultural force that brought African American, Jewish, and working-class culture into the white Protestant mainstream. When the influence of jazz spread to legitimate theater, playwrights, producers, and critics rushed to distinguish the newly emerging literary theater from its illegitimate

cousins. The efforts to defeat the democratizing influences of jazz and to canonize playwrights like Eugene O'Neill triumphed, giving birth to American theater as we know it today. David Savran is Distinguished Professor of Theatre and Vera Mowry Roberts Chair in American Theatre at the Graduate Center, City University of New York. "An important book that raises crucial questions

about how and why a literary 'art theatre' came to be seen among tastemakers and canonizers as 'legitimate.' Savran makes the persuasive argument that jazz needed to be defeated in order for the art theatre to take center stage, using an impressive variety of tools to make his case." --- Andrea Most, University of Toronto "Like a canny fight promoter in the perennial American culture wars, David Savran

puts the reader ringside for a blow-by-blow account of the Battle of the Brows---high, middle, and low. Setting Jazz Age entertainment s at one another, with 'legitimate theater' duking it out with nightclub revues and movies pummeling vaudeville, Highbrow/Low down tracks the rise of heavyweight Eugene O'Neill to the top of the card, but it also makes heroes of the referees---the drama critics

and audiences who crowned the winners. This is performance history as an innovative 'political economy of culture,' and it's a knockout." --- Joseph Roach, Yale University "A stunningly original analysis of music and theater in the 1920s as inseparable faces of jazz. Savran grounds his social history on a huge array of primary sources while drawing, without

fanfare or jargon, on theorists such as Adorno and Bourdieu. His musical analyses of Gershwin, John Alden Carpenter, and George Antheil are not just first class but pathbreaking. No student of jazz as a Western cultural phenomenon--or of any American music or theater in the 1920s---will dare miss this powerfully illuminating, unabashedly reliable, beautifully written book."

---Rose Rosengard Subotnik, Brown University

New York Times–bestselling author of *The Nightingale* Kyoto, Japan, 1948. “Do not question. Do not fight. Do not resist.” Such is eight-year-old Noriko “Nori” Kamiza’s first lesson. She will not question why her mother abandoned her with only these final words. She will not fight her confinement to the attic of her grandparents’ imperial estate. And she will not resist the

scalding chemical baths she receives daily to lighten her skin. The child of a married Japanese aristocrat and her African American GI lover, Nori is an outsider from birth. Her grandparents take her in, only to conceal her, fearful of a stain on the royal pedigree that they are desperate to uphold in a changing Japan. Obedient to a fault, Nori accepts her solitary life, despite her natural

intellect and curiosity. But when chance brings her older half-brother, Akira, to the estate that is his inheritance and destiny, Nori finds in him an unlikely ally with whom she forms a powerful bond—a bond their formidable grandparents cannot allow and that will irrevocably change the lives they were always meant to lead. Because now that Nori has glimpsed a world in which perhaps there

is a place for her after all, she is ready to fight to be a part of it—a battle that just might cost her everything. Spanning decades and continents, *Fifty Words for Rain* is a dazzling epic about the ties that bind, the ties that give you strength, and what it means to be free. [A Couples' Guide to Sensational Oral Sex](#) Rodale Books In 1930, anyone walking down Fifth Avenue in the middle of New York

City would have seen an incredible sight. A forest of giant steel beams rose hundreds of feet into the sky. Thousands of men stood on the beams cutting, drilling, and hammering. The workers were

businessmen and ending with the completion of the awe-inspiring building. Large color photos, maps, and fact boxes enrich the captivating story, which is sure to excite even the most reluctant readers.
