These sheets should be useful to anybody who writes pub quizzes or a quiz for a charity fund-raising event, or they can be used as a bank of questions, or even just to challenge yourself. They are designed to be photocopied as a written quiz and hence they have spaces for the answers and team names. There are 80 sheets with an average of about 25 questions on each, that's over 2000 questions. They are called 'Half Time Quiz' because you can use them for the written part of the quiz which is usually handed in at 'half time' or the interval for marking. This is the part of the quiz that can take much longer to compile.

NEW YORK TIMES BESTSELLER • Are you an Upholder, a Questioner, an Obliger, or a Rebel? From the author of *Better Than Before* and *The Happiness Project* comes a groundbreaking analysis of personality type that “will immediately improve every area of your life” (Melissa Urban, co-founder of the Whole30). During her multibook investigation into human nature, Gretchen Rubin realized that by asking the seemingly dry question “How do I respond to expectations?” we gain explosive self-knowledge. She discovered that based on their answer, people fit into Four Tendencies: • Upholders meet outer and inner expectations readily. “Discipline is my freedom.” • Questioners meet inner expectations, but meet outer expectations only if they make sense. “If you convince me why, I’ll comply.” • Obligers (the largest Tendency) meet outer expectations, but struggle to meet inner expectations—therefore, they need outer accountability to meet inner expectations. “You can count on me, and I’m counting on you to count on me.” • Rebels (the smallest group) resist all expectations, outer and inner alike. They do what they choose to do, when they choose to do it, and typically they don’t tell themselves what to do. “You can’t make me, and neither can I.” Our Tendency shapes every aspect of our behavior, so using this framework allows us to make better decisions, meet deadlines, suffer less stress, and engage more effectively. It’s far easier to succeed when you know what works for you. With sharp insight, compelling research, and hilarious examples, *The Four Tendencies* will help you get happier, healthier, more productive, and more creative.

Hybrid Learning Research & Education Assoc.

Blended learning has gained significant attention recently by educational leaders, practitioners, and researchers. *i²Flex*, a variation of blended learning, is based on the premise that certain non-interactive teaching activities, such as lecturing, can take place by students without teachers' direct involvement. Classroom time can then be used for educational activities that fully exploit teacher-student and student-student interactions, allowing for meaningful personalized feedback and scaffolding on demand. *Revolutionizing K-12 Blended Learning through the i²Flex Classroom Model* presents a well-rounded discussion on the *i²Flex* model, highlighting methods for K-12 course design, delivery, and evaluation in addition to teacher performance assessment in a blended *i²Flex* environment. Emphasizing new methods for improving the classroom and learning experience in addition to preparing students for higher education and careers, this publication is an essential reference source for pre-service and in-service teachers, researchers, administrators, and educational technology developers.
