Dialogues on a Dream Macmillan

This significant new book of poetry covers a wide area of life's challenges, victories and joys. It does not fail to recognize God in all His Glory. Grandpa Moses Baird, the author, spares no punches in describing events and situations that are sometimes painful to discuss. He does so without embarrassment, as he calls upon his own experiences in a full life of tremendous variety. He credits his wife, Honey, for her interest and encouragement toward his work. He deeply appreciates this support; as it has taken many hours of his time, lost in the composition of "Volume of Poetry - Number 79." As one indulges in the subjects the author has chosen to commit to his rhyme and verse, one can be transported to another time. A time when one likely encountered similar experiences to those that unfold in his poetry. While the volume may not contain poems that will be learned and recited precisely, they will leave a lasting impression on the minds and character of many. Grandpa Moses invites you to travel with him through this patchwork of living..... really living!

Bourbon Simon and Schuster

You are here with me now. It's time I take you on a dreamy food adventure. Our trip takes us to the more remote reaches of the American Southwest, and to France and Belgium. But first, I am a man who once sought Roubideau -a ghost town that completely vanished. We will lose our way following a trail of bread crumbs through a maze of sandstone ravines, as iridescent crows hover over our heads. Mountain lions invisible in plain sight will mimic our pace, stalking us step-by-step. - - - The search for any trace of Roubideau became a minor obsession shortly after I moved from buttoned down New England directly to an obscure valley on the high Sonoran desert of the Uncompahgre Plateau in Western Colorado. It was alien to us. We paid in full for the radical change we sought. Uncompahgre is Ute Indian meaning "rocks that make water red." At the time the area was an agritour back drop for my family's brand new livestock, goat cheese and grass fed meat business set on a well kept pioneer farmhouse property with pasture and woods. We lived on a section of the

plateau called the California Mesa. And on this, a multi-hectare farm that sat on a sweet, dry, flat, geological rise called a bench. The snow capped views were stunning with no lights of civilization. - - - Roubideau became our handle, the adopted name of the farm and company. By natural extension, 'Roubideau' became synonymous in my search for the collective soul of memorable food. It became my choice metaphor for everything missing in human taste... Each new discovery became a Roubideau Moment. - - - I count food as an engram that appears, disappears and reappears from our memory like a mountain summit in the fog. It's hard to ask yourself, but you know. Somewhere inside, do you remember foods you haven't eaten for eons like baked Clams Casino or the memory of the first mouth watering bite of a real, genuinely sun ripened tomato that was picked deep red and plump right off the vine? (As a child on my parents farm I would take a salt shaker right out into the rows.) Your taste memory cataloged and stored -your moments. I pose the questions. Was all this merely the electrical impulses of the senses, or was it more? I think it's got to go deeper. When was the first time you tasted smoked meat? Was it the first taste of Easter ham or the bacon you were given as a child? Or were your engrams sourcing stored code? Could that first recorded moment reach back to our ancient ancestors who ate over camp fires 40,000 years ago and its all still locked in your genetics? The blessing is your taste catalog. It awaits near infinite sensory playback... Welcome to Skin Side Down, The Search for Roubideau in the American Culinary Outback. I've been keeping food journals since an early age. They're personally important to me, and my story is the way I want to share them with you. Oh, as for, Skin Side Down: when sauteing a piece of fish or duck. You've got a fast moving collection of short stories. - - - In our inevitably short, variable subjective lives, with a shared desire to reacquaint ourselves with great emotional food stuffs, a magic place like Roubideau floated in and out of reality, in and out of my own collective consciousness, in and out anywhere on earth. Like those mountain bends on the road in Midi-Pyrenees France with hidden treasures like perfect trout, tiny goat and sheep cheeses and sips of wine from bottles without labels. In and out of my very own western farmhouse with mud on my boots and glaring dogs at my feet while I made dinner. This novel is about making Roubideau solid and informative for a little while longer - before it disappears for good in the vanishing world. Joseph V. Coniglio - Ides of March"

The American Experiment The Floating Press

The texts which comprise this small book - forms of essay, talk, dialogue - at one time saw themselves as individualists who went somewhere (to small press magazines) on their own. Now they are here, collected with the chance of going nowhere together. As it should be: since they represent the fate of language and translation in the memory of aliens living inside America - like a family going nowhere together, but at home. The philosopher Jacques Derrida and his family are part of this family in the dead letter office, and curiously they are named going nowhere together at home. Along the way, so are the poets Charles Reznikoff and William Carlos Williams and Emmanuel Hocquard and Juliette Valery and Charles Olson, as well as Horace's Odes in translation. You will find in this Memoir what it means for an alien to search for his family in a book outside the time of its writing. You will find him discovering that translation is a personal story and that poetry might not

have a home without it. You will find him wondering: whose voices are these which we hear around us as we write, as Babel turns to rumor through the fact of translation, wherein a book is being made and remade from American to French and back again? You will find him through translation like a Being in the Poetry of the Extraterritorial, an un-owned territory which is neither French nor American but is negotiated by the rumor of a poetry which emerges from both, a future condition (État) which seeks the name it could be but is not. Follow this alien Being's trajectory: he is not of America but grows up in it. He publishes a book in French translation before it appears in the American English original. He becomes native to a writing whose eloquence is always in question, at times because it is passive, at other times because it is unpronounceable. Who, over time, finds his Memoir? In the dead letter office, we do. We find someone somewhat like ourselves, who uses language and translation as if these were a poet's gifts in the making of history, a history which is foreign yet integral to his homeland. We find someone who uses it to return to his own people and place, so that he can "only stand more/revealed." We find someone who will act the new basis for his identity - the consciousness whose coming into Being must be premised on his existence in another world.

These selected paragraphs distill the contents and give you a quick look inside *Introducing the American Spirit*: Look inside the book: These unconventional studies, most of which received their inspiration through the visit of the Herr Director and his charming wife, are here offered as an Introduction to the American Spirit, not only to the Herr Director and the Frau Directorin, but to those Americans who do not realize that a nation, as well as man, "cannot live by bread alone;" that its most precious asset, its greatest element of strength, is its Spirit, and that the elements out of which the Spirit is made, are so rare, so delicate, that when once wasted they cannot readily be replaced. ...What the Herr Director and the Frau Directorin would say to the sky-scraper meant to me, not whether they would say it is beautiful or ugly, but whether they would discover in it the Spirit of America, the daring spirit of the pioneers who built Towers of Babel, though reversing the process; for they began with a confusion of tongues which outbabeled Babel, and finished on a day of Pentecost when men said: "We do hear them all speaking our own tongue, the mighty works of God."

The story of Wild Turkey is in many ways the story of bourbon itself. From the struggles of nineteenth-century immigrants, to the triumphs of the longest-tenured master distiller in the world, a bold, uniquely American spirit emerges. *American Spirit: Wild Turkey Bourbon* from Ripy to Russell is a tribute to the perseverance of two families, each perfecting their passion through extraordinary

circumstances. It's a testament to Jimmy Russell and his sixty-five years of unmatched dedication to quality. From renowned Newbery-winning author Jerry Spinelli comes a powerful story about how not fitting in just might lead to an incredible life. This classic book is perfect for fans of Gordon Korman and Carl Hiaasen. Just like other kids, Zinkoff rides his bike, hopes for snow days, and wants to be like his dad when he grows up. Other kids have their own word to describe him, but Zinkoff is too busy to hear it. He doesn't know he's not like everyone else. And one winter night, Zinkoff's differences show that any name can someday become "hero." With some of his finest writing to date and great wit and humor, Jerry Spinelli creates a story about a boy's individuality surpassing the need to fit in and the genuine importance of failure. As readers follow Zinkoff from first through sixth grade, it becomes impossible not to identify with and root for him through failures and triumphs. The perfect classroom read.

American Kid William Morrow Paperbacks

With a supernatural undercurrent, *The Fourth Marker* is the story of an elderly man, Gabriel Townsend, whose spirit is being crushed between the metaphoric anvil of his pragmatic views and the falling hammer of his wife's pending death. The story revolves around a family, the Townsends, whose heritage is partly Native American. The United States' Indian Removal Act of 1830, which resulted in the Trail of Tears episode in American history, required all indigenous people, with few exceptions, to leave their tribal lands in the southeast and east, along the eastern seaboard. Some Lenape (Delaware) tribal members on the Delmarva Peninsula as well as other areas in the east, defied the government and remained on their ancestral lands, hiding from authorities in the Great Pocomoke Forest, outlying islands, and swamps on the southern peninsula. A conscious decision to "hide in plain sight" or not, they eventually intermarried and bred with local whites, African-Americans, and mulattoes. Many families whose ties to Delmarva date back a hundred years or more share a heritage with those aboriginal people; however, the prejudice and racial bias of a bygone era caused many to ignore - even deny - their lineage. In the story, while a child on the family farm during the Great Depression, Gabe Townsend rejected legends of his Native American ancestors and ignored miraculous cures of family members. Gabe's half-breed grandfather, Noopah, tried to teach him tribal legends and the old ways, explaining that, after most Indians had been killed or driven from their lands by the Army and settlers, tribal elders returned to their lands in spirit form after their deaths. They dwelled at a sacred hill on the family's land and protected their descendants from early death and white man's diseases. During those years, three family members were cured of life-threatening diseases, but Gabe's mother blindly credited their recoveries to the nascent field of modern medicine. After each recovery, a person of evil character and not of tribal blood disappeared, followed by the mysterious appearance of a wood marker on the sacred tribal hill. Yet, despite those events and Noopah's words, Gabe adhered to his mother's intractable views. Now facing the loss of his wife, he relives his childhood memories, guided by the spirit of his

grandfather from beyond – well beyond – the grave. Finally understanding the truth of long ago, he decides to beg the tribal spirits to take his life in exchange for his wife's, aware that a fourth marker would signify his own life – and death. As Gabe's father noted, "some understand only what they see; others see only what they understand." The Fourth Marker highlights this most human of vices against the backdrop of Native American legends with ample helpings of farm life during the Great Depression.

The first European immigrants came to the American colonies to escape incessant wars, oppressive governments, lack of opportunity, and tyrannical religious authorities. The dangerous and mysterious new world couldn't rectify all the ills of the old world, but it offered something that resonated with their Christian faith—hope for a better life for their loved ones. They miraculously built a government that preserved more freedom and opportunity for the American people than any government in history. The United States can continue as a beacon of hope if its citizens focus on the common goodness of their past that binds them instead of the differences that divide them. American Spirit presents this refreshing perspective through an exciting mosaic of adventure, despair, hope, faith, and love. Smith's incredible research and vivid writing style as he follows multiple generations of immigrants seeking freedom in America make this book an essential read. Smith's novel is historical fiction that intrigues, engages, and lingers, long after the last page is turned. — Joe Kilgore, US Review of Books The Civil War is an ugly period of American history. Uglier still, are the many times inaccurate accounts of the war were told. Roger Smith has taken a giant step forward in setting the record straight. Reading this book will open your mind. It is much more than just another war story. — Dan Mackintosh, Pacific Book Review

A History of the American Spirit Library of Alexandria

America's story is made up of many elements, but through it have coursed two main streams that have nourished and carried a people forward to a destiny that was beyond all imagining when the story began. One of these is an idea that goes back to the rim of recorded time. It was first a dim,

gnawing hope that the future lay in a magic land off to the west. Once that land was found, it drew people to it like a magnet. It is easy to say that it was gold or precious stones or land that led them on, for it was all of these. Yet, it was more – and here was the second great stream of American history. There was something that literally drove people westward, goading them across the endless mountains, through steep passes, across searing plains and desert into the face of terrors known and those unguessed. It was vision. It was courage. It was, at times, the sheer joy of overcoming fantastic obstacles. And it was also the conviction that what they were doing was different from anything that had happened before, that nothing would ever be quite the same again, and that the world would be a better place for what they had accomplished. "Eastward I go only by force," Henry David Thoreau said, "but westward I go free." The sleep of 100 centuries was stirred up in that surge toward the sunset, for out of it emerged not only a new people and a new nation but a force that changed the globe.

He got married while in fifth year college, but still graduated on time. This book relates his struggles, failures, as well as successes, including his coming to America. Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.
