Devil in the Milk Pan Macmillan

Junior Doctor, personal trainer and Instagram hit Dr Hazel

Wallace's first book brings you over 70 nutritional recipes to look and feel amazing whilst debunking the diet myths. 'I'm a girl who juggles two jobs, who loves to lift, who adores real food - and can't resist chocolate. As a junior doctor and a personal trainer, I know that we all feel our best when we are free of illness, full of energy and at a healthy weight - and I know it can be done, even if you lead the busiest of lives! I want to debunk the myths that are out there surrounding dieting and instead offer solid, evidence-based advice. I want to bridge the gap between

mainstream medicine and nutrition and help you take full control of your fitness and wellbeing, so you will never have to diet again. I want to show you that eating the most natural, unrefined and unprocessed wholefood ingredients can be enjoyable, uncomplicated and easy to incorporate into a busy lifestyle. I want this book to change your life.' Hazel x

Clarabelle Star Bright Books

North Americans are some of the least healthy people on Earth. Despite advanced medical care and one of the highest standards of living in the world, one in three Americans will be diagnosed with cancer in their lifetime, and 50 percent of US children are overweight. This crisis in personal health is largely the result of chronically poor dietary and lifestyle choices. In *Whitewash*, nutritionist Joseph Keon unveils how North Americans unwittingly sabotage their health every day by drinking milk, and he shows that our obsession with calcium is unwarranted. Citing scientific literature, *Whitewash* builds an unassailable case that not only is milk unnecessary for human health, its inclusion in the diet may increase the risk of serious diseases including: Prostate, breast,

and ovarian cancers Osteoporosis Diabetes Vascular disease Crohn's disease Many of America's dairy herds contain sick and immunocompromised animals whose tainted milk regularly makes it to market. Cow's milk is also a sink for environmental contaminants and has been found to contain traces of pesticides, dioxins, PCBs, rocket fuel, and even radioactive isotopes.

Whitewash offers a completely fresh, candid, and comprehensively documented look behind dairy's deceptively green pastures and gives readers a hopeful picture of life after milk. Joseph Keon has been a wellness consultant and nutrition and fitness expert for over twenty-five years. He is considered a leading authority on public health and has written three books, including *Whole Health: The Guide to Wellness of Body and Mind* and *The Truth About Breast Cancer*.

Following a day in the life of Clarabelle, one of 1,200 cows on a Wisconsin dairy farm, we learn what it takes for a cow to produce life-giving milk and also by-products like electricity. The manure that Clarabelle and her herdmates create not only generates electricity, it provides fresh bedding for cow stalls and fertilizer for the crops grown to feed the cows. Vibrant close-up photographs capture Clarabelle, her calf, and the youngest members of this multi-generational farm family, Josh and Sam, sharing the workload.

The Sensory Evaluation of Dairy Products Flatiron Books
Tina isn't like the other cows. She believes that the sky is the limit, that everything is possible. But her sisters aren't convinced - and when Tina tells them she has climbed a tree and met a dragon, they decide that her nonsense has gone too far. Off they go into the woods to find her . . . and soon discover a world of surprises! A richly atmospheric, thoughtful and funny picture book from rising star Gemma Merino. Her debut picture book, *THE CROCODILE WHO DIDN'T LIKE WATER*, has won a string of awards and many fans all over the globe. Her deliciously expressive artwork is created using monoprint, coloured digitally.

Before We Eat has been adopted by the USDA's Agriculture in the Classroom program. Before we eat, many people work very hard—planting grain, catching fish, tending farm animals, and filling crates of vegetables. With vibrant illustrations by Caldecott Medalist Mary Azarian, this book reminds us what must happen before food gets to our tables to nourish our bodies and spirits. This expanded edition of Before We Eat includes back-of-book features about school gardens and the national farm-to-school movement. Fountas & Pinnell Level L

The Cow Who Climbed a Tree Springer Science & Business Media

Milk mustache sporting young readers will enjoy this trip to a dairy farm where they will learn about the powerful machines that pump milk from cows and prepare it for consumption. Easy-to-follow text explains why milking machines are needed on large dairy farms and how farmers clean and use milkers. Brilliant photographs illustrate the daily work on a dairy farm that helps bring a calcium-rich carton full to your home.

Pure and Modern Milk Harper Collins

For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. Why Evolution is True weaves together the many threads of modern work in genetics, palaeontology, geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

Jill Winger, creator of the award-winning blog *The Prairie Homestead*, introduces her debut *The Prairie Homestead Cookbook*, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin *The Pioneer Woman Cooks* meets *100 Days of Real Food*, on the Wyoming prairie. While Jill produces much of her own food on her Wyoming ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. Jill teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to enjoy this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical, hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and mouth-watering recipes and heartwarming stories of her unique adventure into homesteading. These recipes are ones I know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself. Beyond these recipes, *The Prairie Homestead Cookbook* shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

[The Face on the Milk Carton](#) Chelsea Green Publishing

In the vein of psychological thrillers like *We Were Liars* and *One*

of *Us Is Lying*, bestselling and Edgar Award nominated author Caroline Cooney's JANIE series seamlessly blends mystery and suspense with issues of family, friendship and love to offer an emotionally evocative thrill ride of a read. No one ever really paid close attention to the faces of the missing children on the milk cartons. But as Janie Johnson glanced at the face of the ordinary little girl with her hair in tight pigtails, wearing a dress with a narrow white collar—a three-year-old who had been kidnapped twelve years before from a shopping mall in New Jersey—she felt overcome with shock. She recognized that little girl—it was she. How could it possibly be true? Janie can't believe that her loving parents kidnapped her, but as she begins to piece things together, nothing makes sense. Something is terribly wrong. Are Mr. and Mrs. Johnson really her parents? And if not, who is Janie Johnson, and what really happened?

Big Red Barn Board Book Oxford University Press

By the big red barn In the great green field, There was a pink pig Who was learning to squeal. There were horses and sheep and goats and geese--and a jaunty old scarecrow leaning on his hoe. And they all lived together by the big red barn. In joyous and exuberant Pictures, Felicia Bond lovingly evokes Margaret Wise Brown's simple, rhythmic text about the cycle of a day on a farm, where a family of animals peacefully plays and sleeps. In the barnyard there are roosters and cows, horses and goats, and a pink piglet who is learning to squeal. Margaret Wise Brown's lulling story about a day in the life of a barnyard is now available as a sturdy board book. Felicia Bond's atmospheric illustrations add to the tranquil simplicity of this story.
