On Being Different provides an up-to-date, comprehensive, and interdisciplinary account of diversity and multiculturalism in the United States and Canada. Kottak and Kozaitis clarify essential issues, themes, and topics in the study of diversity, including ethnicity, religion, gender, and sexual orientation. The book also presents an original theory of multiculturalism, showing how human agency and culture work to organize and change society. Decolonizing Anthropology McGraw-Hill Education

THE ESSENCE OF ANTHROPOLOGY features an experienced and diverse author team with expertise in all subfields of anthropology. With an eye to visual and written clarity, the authors present anthropology from an integrated, holistic perspective. They use three unifying themes as a framework to tie the book together and keep students focused: systemic adaptation to emphasize that every culture, past and present, is an integrated and dynamic system of adaptation; biocultural connections that highlight the integration of human culture and biology in the steps humans take to meet the challenges of survival; and the emergence of globalization and its disparate impact on peoples and cultures around the world. Pedagogical elements support these main themes and give deeper insight into the meaning and relevance of a wide range of topics covered in the general narrative by tying examples to behavior today. Insightful questions foster critical thinking, additional Visual Counterpoints widen the book's array of compare-and-contrast examples, and a new Digging into Anthropology feature provides a hands-on approach to anthropological methods by giving active learning opportunities related to each chapter's content. In addition, the authors have broadened viewpoints to offer explanations and examples from different points of view. Important Notice: Media

Written by nationally recognized anthropologists Conrad Kottak and Lara Descartes, this ethnography of largely white, middle class families in a town in the midwest explores the role that the media play in influencing how those families cope with everyday work/family issues. The book insightfully reports that families struggle with, and make work/family decisions based largely on the images and ideas they receive from media sources, though they strongly deny being so influenced. An ideal book for teaching undergraduate family, media, and methods courses.
