Making Sense of the Future B&H Publishing Group

When handling the things of God, our method matters. Everyone who thinks about God has a method for approaching the subject, whether they recognize it or not. A theological method addresses foundational questions such as: What is theology? How should we approach Scripture? What is the role of tradition, philosophy, and experience? How do we use theology in ministering to others? These questions are vital for anyone studying God and his Word—how one defines theology, sees its task, and uses its sources will shape one's doctrine, for better or worse. In *The Method of Christian Theology*, Rhyné Putman guides readers through the essential "first words" of systematic theology. Written for entry-level theology students, this book provides clear guidance for using theological sources, reasoning through difficult questions, and applying theological reflection in paper writing and preaching. By studying the foundations of theology, readers will be better equipped to serve God's people in whatever ministry they are called to.

Moving from biblical theology to systematic theology to practical theology, "Work: Theological Foundations and Practical Implications" offers a comprehensive theology of work. With contributions from a variety of leading theologians including Miroslav Volf and Samuel Gregg, this book brings together biblical scholars, ethicists, economists representing a spectrum of theological voices. It will bring a new academic depth to the literature on the theology of work and provide a comprehensive single-volume resource for scholars and students alike. Contributions include: "Work and the Trinity" (Miroslav Volf) "Work and Anthropology" (Jay Wesley Richards) "Sanctification and Work" (Scott B. Rae) "Economics and the Common Good" (Samuel Gregg) *Theological Foundations and Practical Implications* Vandenhoeck & Ruprecht This new printing of Louis Berkhof's classic *Systematic Theology* represents a publishing landmark. For the first time in its long and acclaimed history, Berkhof's monumental treatment of the

doctrines of the Reformed faith is now available together in one volume with *Introduction to the Study of Systematic Theology*, Berkhof's formal prolegomenon to his theology. Meant to be read together with *Systematic Theology*, the Introduction includes Berkhof's discussions of the nature and character of dogmatics, the methods and history of theological system, and the principia, or foundations, of theology - Scripture and God. This edition also includes a new preface by Richard A. Muller that explains both the publishing history and the relation and importance of the Introduction to the rest of Berkhof's text. Written in a concise and compact style and organized in a manner ideal for detailed study, *Systematic Theology* covers the full range of theology in traditional systematic fashion - examining, in order, the doctrines of God, anthropology, Christology, soteriology, ecclesiology, and eschatology. The work also includes an extensive bibliography and full indexes to the authors, subjects, and Scriptures referenced in the text. Revised and enlarged throughout his lifetime until it reached its present final form, *Systematic Theology* not only stands as Berkhof's magnum opus but also is widely considered to be the most important twentieth-century compendium of Reformed theology.

Arnold Huijgen analysiert und bewertet den Akkommodationsbegriff in der Theologie Johannes Calvins. Akkommodation meint, dass Gott sich in seiner Offenbarung dem menschlichen Begriffsvermögen anpasst. Calvins Akkommodationsbegriff wurde wahrscheinlich terminologisch beeinflusst von Erasmus, während es inhaltlich geprägt wurde von Motiven aus der Theologie der Kirchenvätern. Der Autor vertritt die These, dass Calvins Akkommodationsbegriff unter zwei Aspekten beschrieben werden kann: Pädagogik und Offenbarung. Der pädagogische Aspekt liegt in Calvins Verständnis der Heilsgeschichte und des Verhältnisses von Altem und Neuem Testament. Christus als Mittler hat eine zentrale Funktion für diesen Aspekt. Der Offenbarungsaspekt bezieht sich auf Calvins Verständnis des Wesens Gottes, das er oft beschreibt als liege es hinter Gottes Offenbarung. Calvins Definition der Offenbarung als Akkommodation impliziert eine bestimmte Dynamik der Offenbarung. Anhand dieser Analyse bewertet Huijgen Calvins Akkommodationsbegriff theologisch in einem Vergleich mit der modernen Kritik dieses Begriffs bei I.A. Dorner, H.M. Kuitert und K. Barth. Der Autor konkludiert dass den Akkommodationsbegriff in vielen Punkten kritisiert werden muss, aber dass besonders der pädagogische Aspekt fruchtbar gemacht werden kann für die heutige Theologie.

Volume II Involved in God's Project Systematic Theology, All Three Volumes

The value of systematic, disciplined reflection on biblical truth is the theme of this brief but convincing anthology. Writing from a variety of perspectives, the contributors present an excellent case for the necessity of systematic theology. The editor has drawn from a vast reservoir of literature on the subject. Lewis (letter 1 of Screwtape Letters), Dorothy Sayers ("Creed or Chaos?"), Jonathan Edwards ("The Importance of Christian Knowledge"), B. B. Warfield ("The Idea of Systematic Theology"), Emil Brunner ("The Necessity for Dogmatics"), and Francis Pieper ("Nature and Character of Theology"). Other chapters are by: R. C. Sproul ("Right Now Counts Forever"), John H. Gerstner ("Everyman Must Be a Theologian"), Kenneth F. W. Prior ("The Minister As Teacher"), R. L. Saucy ("Doing Theology for the Church"), and John Jefferson Davis ("Contextualization and the Nature of Theology").

Faith in Christ Today Invitation to Systematic Theology Zondervan

In this two volume collection of essays, which forms a companion to The Domain of the Word, John Webster brings together studies of a range of topics in dogmatic and moral theology. This first volume, God and the Works of God, treats the themes of God's inner being and God's outer acts. After an overall account of the relation between God in himself and the economy of God's external works, there are studies of the divine aseity and of the theology of the eternal Son. These are followed by a set of essays on creation out of nothing; the relation between God and God's creatures; the nature of providence; the relation of soteriology and the doctrine of God; and the place of teaching about justification in Christian theology. Each of the essays explores the relation of theology proper to economy, and together they pose an understanding of Christian doctrine in which all theological teaching flows from the doctrine of the immanent Trinity.
