### **ROSA SHEPPARD**

*Breaking Through the Language Arts Block*  
 Narr Francke Attempto Verlag  
 Addressing a key skill in reading, writing, and speaking, this comprehensive book is grounded in cutting-edge research on vocabulary development. It presents evidence-based instructional approaches for at-risk students, including English language learners and those with learning difficulties. Coverage ranges from storybook reading interventions for preschoolers to direct instruction and independent word-learning strategies for older students. Guidance is provided on using word lists effectively and understanding how word features

influence learning. The book also reviews available vocabulary assessment tools and describes how to implement them in a response-to-intervention framework.

#### **English for Vocational Purposes**

Guilford Publications  
 Help upper-grade students read and understand multisyllabic words and morphemes, build vocabulary, and learn spelling strategies with this comprehensive classroom supplement. Lessons cover what to teach, how to teach, and when to teach the Working with Words Block in fourth-grade classrooms. It also fully supports the Four-Blocks® Literacy Model.  
*The Planting Design Handbook* National Academies Press  
 Help your students develop logical reasoning and critical thinking skills. This new book from bestselling authors and

popular consultants Tammy Jones and Leslie Texas offers authentic logic-building activities and writing strategies that can be used across all subject areas in grades 6-8. Filled with hands-on activities and photocopiable tools, Strategic Journeys will help you guide your students into deeper thinking to go beyond the surface of content to true understanding. Topics include: Identifying opportunities for students to engage in meaningful and relevant writing across the content areas; Introducing a logical reasoning process, questioning structure, and bridging models to allow students to delve deeper into problems; Incorporating literature to increase student engagement and make content come alive for your students; Building vocabulary and literacy skills through fun activities aimed at increasing proficiency; Using the Three Phases of

Logical Reasoning to plan lessons effectively, help students reflect on their progress, and implement the strategies successfully. The strategies in this book have been implemented in hundreds of classrooms around the country, and have been proven to increase student engagement, promote higher-order thinking and in-depth reasoning, and improve overall achievement.

### **Effective Instruction for Struggling Readers, K-6**

R&L Education English for Vocational Purposes provides a linguistic description of English in the context of the trades and investigates how this specialist language is used in real-world contexts. As the demand for English-speaking workers in the trades grows internationally, a major gap in the research on language in the trades is evident. Based on courses in construction and engineering at a polytechnic in New Zealand, this book offers an empirical response to this gap in research. Features of this book include: new research on linguistic features of written and spoken texts in trades education, with a special focus on discourse, visual elements of written texts and vocabulary; real-life examples of the language in context, along with implications for teaching and learning and a chapter devoted to putting research findings into practice; qualitative and quantitative data to support examples and shed light on the most complex aspects of English as a trades language; supplementary material online which includes technical word lists in areas of carpentry, plumbing, automotive technology and fabrication (welding). Paving the way for a new research agenda in the field of ESP, English for Vocational Purposes is key reading for advanced students, researchers and practitioners in the areas of ESP, trades education and vocational education.

### **Bookwise Language & Literacy**

This book is intended for students from all language backgrounds other than English, attending or preparing to attend a university where the medium of instruction is English, particularly in the UK. The International Student's Guide helps you succeed at university, by sharing the experiences of many international students who have already attended a university in the UK. Every student is unique, with different abilities and needs. With this in mind, the authors provide you with practical information and help on a range of aspects of study. They focus on both spoken and written forms of communication, and deal with the approaches to thinking and learning which you will meet in higher education in the UK

system. Written by experienced lecturers in language and learning, the book offers a wealth of advice and guidance on topics such as: ways of learning how to make the most of your own strengths working in seminars and groups writing in different forms, disciplines and at different levels assessment techniques such as exams and oral presentations. Whether you are embarking on a pre-degree foundation course or a postgraduate programme, this book will help you manage all the challenging aspects of studying through the medium of another language, in a new and different environment. This book is for students studying at any level in English on Foundation courses, on degree programmes, undergraduate or postgraduate, or on pre-masters programmes. It could be used in EAP classes and on summer courses and pre-entry programmes or for self study. It could also be used for staff-development purposes with lecturers teaching students from different language backgrounds. It is assumed that the reader already has a grasp of English at least equivalent to IELTS 4.5 or 5 or TOEFL 450-500 (130-170 on the computerised test). SAGE Study Skills are essential study guides for students of all levels. From how to write great essays and succeeding at university, to writing your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills hub for tips, resources and videos on study success!

### **The Vocabulary Book**

Guilford Press The Building Your Vocabulary Skills series is a three book set of workbooks to help children increase their vocabulary and become more confident in using new words correctly. Each book is divided into single-page activities with each page using a different strategy or theme to help your child learn new words. This is the first of three books in the series and contains: over 60 pages of vocabulary exercises to help your child learn new words easy-to-follow tasks a wide range of activities covering different skills practise in matching words to definitions, finding synonyms and antonyms and sorting words into groups a lift-out answer section This series of books are designed to help your child at home, which will in turn improve their confidence in reading, writing, spelling and comprehension exercises at school. It would be useful for children to have a quality dictionary at hand when doing these exercises. This can avoid guesswork if they are unsure of an answer. Theoretically, then, there will be no errors for parents to correct, yet

children will have still have added new words to their vocabularies.

### **Helping Struggling Readers**

Routledge With a balance of fiction and non-fiction text types and genres, Bookwise is carefully graded and organised into five cross-curricular strands, encouraging links to other subjects. The full-colour readers are accompanied by Teacher's Guides and Resource Sheets to help you get the most out of your Guided Reading and Writing sessions.

### **Vocabulary Instruction for Struggling Students**

John Wiley & Sons Engage your students AND keep your sanity with classroom-tested tools. Tools for Teaching Social Studies delivers a wealth of practical solutions for classroom success — all grounded in solid educational philosophy. A lifeline for new social studies teachers and a source of inspiration and ideas for experienced teachers, this book offers you a boost at every stage of your career. Based on a master teacher's four decades of experience, this top-notch toolkit is packed with strategies: Learn five key teaching principles that put you and your students on the path to success. Discover your unique style. Connect with your students. Set and achieve realistic professional and personal goals. Stay organized and manage your time effectively. Empower yourself as a teacher. Avoid burn-out. Facilitate effective group work. Create engaging learning plans. Make the right use of social media. And much more!

### **Federal Register**

Corwin Press The history and development of English, from the earliest known writings to its status today as a dominant world language, is a subject of major importance to linguists and historians. In this book, a team of international experts cover the entire recorded history of the English language, outlining its development over fifteen centuries. With an emphasis on more recent periods, every key stage in the history of the language is covered, with full accounts of standardisation, names, the distribution of English in Britain and North America, and its global spread. New historical surveys of the crucial aspects of the language are presented, and historical changes that have affected English are treated as a continuing process, helping to explain the shape of the language today. This complete and up-to-date history of English will be indispensable to all advanced students, scholars and teachers in this prominent field.

### **There's a Writer in Our House! Strategies for Supporting and**

**Encouraging Young Writers and Readers at Home** University of Michigan Press

Learn from those who have already been there, done that, and know what works. Drawing on their combined 47 years of experience as Title I resource teachers, the authors provide a detailed road map for helping struggling readers become proficient.

Focus on Reading Carson-Dellosa Publishing

Help your students develop logical reasoning and critical thinking skills. This new book from bestselling authors and popular consultants Tammy Jones and Leslie Texas offers authentic logic-building activities and writing strategies that can be used across all subject areas in grades 9-12. Filled with hands-on activities and photocopiable tools, *Strategic Journeys* will help you guide your students into deeper thinking to go beyond the surface of content to true understanding. Topics include: Identifying opportunities for students to engage in meaningful and relevant writing across the content areas; Introducing a logical reasoning process, questioning structure, and bridging models to allow students to delve deeper into problems; Incorporating literature to increase student engagement and make content come alive for your students; Building vocabulary and literacy skills through fun activities aimed at increasing proficiency; Using the Three Phases of Logical Reasoning to plan lessons effectively, help students reflect on their progress, and implement the strategies successfully. The strategies in this book have been implemented in hundreds of classrooms around the country, and have been proven to increase student engagement, promote higher-order thinking and in-depth reasoning, and improve overall achievement.

**Fundamentals of Teaching English to Speakers of Other Languages in K-12 Mainstream Classrooms** Teachers College Press

*There's a Writer in Our House!* is an invitation to parents of children in first grade through fifth grade interested in actively participating in their children's early literacy learning from the very first steps. Founded upon well-researched literacy instructional methods that have been informed by the author's clinical perspective as well as her years of experience with many kinds of learners, this book provides a valuable understanding of how both writing and reading contribute to child development in multiple areas. Chapters provide background concepts regarding grammar

and specific critical thinking skills in both writing and reading as well as customizable, child-centered activities used to practice and build writing and reading comprehension skills. You will learn how to advance and encourage your child's learning and communication skills by highlighting important literacy areas such as vocabulary development, background knowledge, and critical thinking. You will also learn to recognize and track the significant developmental achievements of your child as you proceed from the early to the more complex At-Home activities, as well as receive strategies for how to respond and give feedback in specific situations, such as when a child writes something that makes sense to the child but not to the parent, how to offer feedback that identifies and labels a child's strengths, and how to collaborate effectively with a child who is just developing new interests or a new willingness to try something that previously seemed "hard." Practical, accessible, and most importantly, fun, this book is a must-read for all parents, regardless of background, seeking to support their children's ongoing literacy development confidently and effectively.

**Teaching Languages to Young Learners** Nelson Thornes

Help your students develop logical reasoning and critical thinking skills. This new book from bestselling authors and popular consultants Tammy Jones and Leslie Texas offers authentic logic-building activities and writing strategies that can be used across all subject areas in grades K-5. Filled with hands-on activities and photocopiable tools, *Strategic Journeys* will help you guide students into deeper thinking to go beyond the surface of content to true understanding. Topics include: Identifying opportunities for students to engage in meaningful and relevant writing across the content areas; Introducing a logical reasoning process, questioning structure, and bridging models to allow students to delve deeper into problems; Incorporating literature to increase student engagement and make content come alive for your students; Building vocabulary and literacy skills through fun activities aimed at increasing proficiency; Using the Three Phases of Logical Reasoning to plan lessons effectively, help students reflect on their progress, and implement the strategies successfully. The strategies in this book have been implemented in hundreds of classrooms around the country, and have been proven to increase student engagement, promote higher-order thinking and in-depth reasoning, and

improve overall achievement.

*Building Vocabulary: Grade 4: Kit eBook* Pearson UK

This book will develop readers' understanding of children are being taught a foreign language.

**A History of the English Language**

John Wiley & Sons

Featuring today's most respected leaders in the field of reading interventions, this book examines what we have learned from the research to help struggling readers in grades K-6. Focusing on strategies that have been proven effective, the authors will help educators meet the demands placed on them to ensure that all students are making good progress toward becoming competent readers. Each chapter begins with a set of framing questions and ends with suggestions for action to foster discussion and help teachers translate research-based ideas into practice-perfect for teacher education courses and professional development workshops. This timely volume includes: An analysis of what is needed to help all students succeed in reading, especially struggling readers, students with special needs, and ELL students. Practices to foster young students' success in learning to decode. Instructional strategies to improve students' vocabulary and comprehension. School-wide practices to improve all students' reading in high-poverty, diverse schools.

Nature and Enactment of Tasks for Early English as a Foreign Language Teaching Walch Publishing

Affirm the linguistic, cultural, and experiential assets that multilinguals bring into the classroom. Now is the time to push past the limits of the long-term English learner (LEL) label and embrace a new way of honoring secondary multilinguals' valuable life experiences and academic potential. By focusing on experienced multilinguals' strengths and what teachers can do, you'll discover new avenues for teaching the academic language skills required for them to process content lessons and clearly communicate discipline-specific ideas. This concise guide presents an easy-to-implement cross-curricular instructional framework specifically designed for secondary content teachers. Practical, research-based, and classroom-tested this book includes: Four essential actions that foster the conditions for experienced multilinguals to reach the highest grade-level content and language proficiency. Specific strategies with "try it out" prompts to encourage implementation. Templates and anchor charts for

structuring lessons Vignettes and stories from both the student and teacher perspective There is nothing lacking with experienced multilinguals. All they need are the right conditions to unlock their potential—so they can express themselves as the mathematicians, scientists, historians, writers, and artists they know themselves to be.

*Understanding Reading Development*  
Routledge

Since the first edition was published in 1992, Nick Robinson's *The Planting Design Handbook* has been widely used as a definitive text on landscape architecture courses throughout the world. It remains one of the few titles written by a practicing landscape architect and educator who is also a horticulturalist and accomplished plantsman, and which deals with the application of planting design on a large scale in landscape architecture and urban design projects. *The Planting Design Handbook* is distinctive for its elegant integration of an ecological approach with an understanding of visual and spatial composition. It emphasizes the role of vegetation layers and designed plant communities in complex and diverse plant assemblages for all kinds of sites and uses. This expanded and comprehensively updated third edition still provides a complete examination of principles and practice of design for public, institutional and private landscapes. It takes account of developments in theory and practice, especially in the use of perennials, and reflects a variety of media and approaches current in landscape architecture and design. All chapters have been revised and re-written to ensure updated references and new references have been added. Many new photographs of planting and projects around the world have been included, with examples of current professional drawings to illustrate the design process. It is generously illustrated, including a colour section and the beautifully detailed line drawings of the Chinese architect and painter Jia-Hua Wu. *Long-Term Success for Experienced Multilinguals* Cambridge University Press Listening takes an experiential approach to listening instruction, providing

extensive applications and cases within the context of a sound theoretical framework. The text encourages students to view listening as a process involving six interrelated components which are developed along the parallel dimensions of theory and skill building. Within the unifying theoretical framework of the HURIER model, students develop an understanding of the listening process and gain powerful listening skills. The fifth edition continues to explore the impact of culture, technology, and globalization, and raises timely ethical questions to promote students' consideration of the responsibilities associated with listening in today's complex world. Self-assessment, activities, and case studies further distinguish this engaging text. Students will readily recognize the important role listening plays in helping them achieve their personal and professional goals while they become more engaged and informed citizens.

*Strategic Journeys for Building Logical Reasoning, K-5 Multilingual Matters*

This extensively revised and expanded edition of the bestselling text and teaching resource incorporates the newest research in vocabulary learning and instruction into a complete and balanced program for all K-12 students, from those who struggle in school to those who excel. Literacy expert Michael Graves presents a four-pronged vocabulary program that he has developed and honed for over 30 years. The program has the following four components: Frequent, Varied, and Extensive Language Experiences; Teaching Individual Words; Teaching Word Learning Strategies; and Fostering Word Consciousness. The text includes theory, research-based strategies, vocabulary interventions, classroom examples, advice for working with English learners, discussion of next-generation standards, and more. *The Vocabulary Book, Second Edition* will appeal to reading and subject-area teachers, teacher educators, and school, district, and state leaders. New for the Second Edition: Instructional approaches developed and classroom-tested since the release of the first edition. A chapter specifically on teaching

vocabulary to English learners. A chapter specifically on selecting vocabulary words to teach. Curricular and instructional elements designed to meet and exceed Common Core State Standards. An emphasis on vocabulary as a vital resource for all students in our increasingly diverse society. "If you believe vocabulary instruction is vital to reading, writing, and thinking, then Michael Graves' Second Edition of *The Vocabulary Book* will give you the tools for powerful instruction, as many teachers discovered with the First Edition. This book will shift your perspective and you will reap the benefits of placing vocabulary at the center of your instruction." —Peter Dewitz, district level reading consultant, Mary Baldwin College "Now that 'vocabulary' is included on the Nation's Report Card, teachers will want to know how to help students increase their word power. Graves's advice will be invaluable in what to do—and what not to do." —Robert Calfee, professor emeritus, Stanford University "This book is an excellent resource for practitioners interested in developing a comprehensive program for building vocabulary in children. It is also of great value for researchers who wish to design and test vocabulary interventions." —Diane August, senior research scientist, Center for Applied Linguistics

**BUILDING VOCABULARY SKILLS.LEVEL 4(TEACHERS EDITION)** Routledge *Building Vocabulary from Word Roots* provides a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Over 90% of English words of two or more syllables are of Greek or Latin origin. Instead of learning words and definitions in isolation, students learn key roots and strategies for deciphering words and their meanings across all content areas. *Building Vocabulary from Word Roots: Level 4 kit* includes: Teacher's Guide; Student Guided Practice Book (Each kit includes a single copy; additional copies may be ordered in quantities of 10 or more); Assessments to support data-driven instruction; and Digital resources including modeled lessons, 50 bonus activities, and more.
