Timber Home Living introduces and showcases the beauty and efficiency of timber homes to an eager custom home buying audience. The magazine's inspiring photography, informative editorial, quality advertising and essential resources involves and encourages readers to pursue their dream home.

Cruising World

Whatever the category of home repair, the authors have found Web sites with pertinent information. The sites include help on kitchens, bathrooms, floors, and roofs; guide to electrical, plumbing, and heating repairs; and projects for decks, yards, and grounds. 150 illustrations.

The Vacuum Cleaner

House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor (performed mostly by women). Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors, who improved vacuum cleaners as electricity became commonly available, made these advances possible. Many early manufacturers failed, but some, such as Bissell, Hoover, Eureka and others, became household names as they competed for global dominance with improved features, performance and appearance. This book describes the fascinating people who made this

possible, as well as the economic, cultural and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture.

The Big Store

In 1972, Sears, Roebuck & Co. was the quintessential American success story. It accounted for over one percent of the gross national product. Suddenly, it found itself in a downward spiral. Award-winning journalist Donald Katz was given unrestricted access to Sears's records and executives to write this revealing account of the downfall and resurrection of an American icon.
