The Dry Creek Chronicles offer a window onto the daily lives of Idaho families who owned and worked the land in the Dry Creek Valley and Green Meadow, southwestern Idaho, from 1863 to 1900. Two nineteenth

century farming communities, one in the creek valley and one on the floodplain of the Boise River, forged an enduring social bond through marriage and shared economic fortunes in similar environments. Over the course of forty years, however, their destinies diverged: one remained rural for more than 150 years, while the other became

a settled part of nearby Boise City. This is the story of the families who created those communities. *Incidents on Land and Water* AuthorHouse Through The Ranching For Profit School, Dave Pratt has helped thousands of families on millions of acres improve their land, their lives and the profitability of their ranches. In *Healthy Land, Happy Families* and

Profitable Businesses, Dave shares insights and experiences from the school and his clients that can improve the health of your land, the happiness of your family and the profitability of your business. "A master storyteller, Dave Pratt explains, applies, and sticks the reader with the most profound insights you'll find in any farming business book. To have this much uncommon

good sense packed into such a readable format is unprecedented. d. Because it condenses decades of experience into one volume, this book delivers more meaningful advice in a small space than I've ever seen. I'd want this one on my shelf even if I didn't have any others. What a delightful, wisdom-dense read." - Joel Salatin, Poly Face Farm

 Studies in Anthropology: The Versatility of Kinship focuses on the dynamics involved in the special class of interpersonal ties that bind individuals to others. The selection first offers information on the variant usage in American kinship, uses of kinship in Kwaio, Solomon Islands, and incest and kinship

structure. Discussions focus on incest categories in Cachama and Mamo, childhood bonds and adult residence, kinship with the dead, kinship, social identities, and behavior, and models of relatedness. The text then explores the biological, linguistic, and cultural aspects of the Hopi-Tewa system of mating in First Mesa, Arizona and the Navajo exogamic rules and

preferred marriages. The publication ponders on the Kpelle negotiation of marriage and matrilineal ties and kinship and descent in the ethnic reassertion of the Eastern Creek Indians. Topics include social and cultural history, genealogy as social instrument, crystallization of the Eastern Creek community, Kpelle marriage and matrilineal ties, ethnographic

background, and the negotiation of marriage and matrilineal ties. The selection is a valuable reference for anthropologists, sociologists, and readers interested in the dynamics of kinship.

Rising energy prices and concerns about climate

change are driving us towards a new kind of economy - a low-carbon economy. What will this low-carbon economy be like, and what does your business have to do to prosper in this new business environment? Larry Reynolds shows how successful organisations are already learning to be more energy efficient, manage their carbon footprint, adapt to climate change and

become truly sustainable. As well as explaining how to future-proof your organisation against possible threats, The Business Leader's Guide to the Low-carbon Economy, tells you how to make the most of the many opportunities that the low-carbon economy will bring, especially in growing profits from new products and services. It is your guide to creating an

organisation that will thrive in the twenty-first century. While there are plenty of published books about 'going green', there are none which explain the low-carbon economy and how to thrive in it. This book will fill that important gap. Drawing on examples from across industries, including businesses such as Asda, BT, Cargill, Coca Cola, Co-operative Group, Eurostar, Marks and Spencer,

Tesco, Tesla, Walker's Crisps, Walmart and ZipCar, Larry Reynolds shows how today's successful organisations are already benefiting from the coming low-carbon economy. *A Journey in the Shadow of the East* Academic Press

Michael Dante played the title role in Winterhawk

(1975), a Western about a legendary Blackfoot Chief's character and his principles. In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the

land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as Death Valley Days, The Big

Valley, Daniel      The Texan,      Maverick, and  
Boone, Custer,      Bonanza,      Cheyenne.
