of ICWL 2002 (Hong Kong, China), ICWL 2003 (Australia), and ICWL 2004 (China), ICWL 2005 aimed at presenting progress on the technical, pedagogical, as well as management issues of Web-based learning. The conference featured a comprehensive program, including a number of tutorials, two keynote talks, a main track containing regular as well as short paper presentations, and an

application track. We received a total of 99 submissions from all over the world. The Program Committee selected 33 papers as regular papers for presentation in the main track, an acceptance rate of about 33%. Due to the high-quality submissions, the Committee decided to further accept 9 papers as short papers for presentation. Assessing Listening for

In the schools of today, English learners are the fastest-growing segment of the student population. As such, it is increasingly imperative to educate these students properly, while still practicing inclusion for overall student success. The Handbook of Research on Pedagogies and Cultural Considerations for Young English Language Learners is an authoritative research publication on research-based, theoretical frameworks and best practices for teaching young English language learners. Featuring exhaustive coverage on a variety of topics and perspectives such as co-teaching, inclusion, and social awareness, this publication is ideally designed for academicians, researchers, and students seeking current research on the examination of how diverse backgrounds, cultures, and experiences contribute to curriculum and pedagogy for bilingual young learners.

Following the principles of communicative testing in general and test construction approach proposed by Bachman and Palmer (1996) in particular, the project develops CLCT for CET-4 and CET-6. The research begins with the construction of frameworks</p>
---	---	--

<p>of listening task characteristics and communicative listening ability. Subsequently, based on a survey of Chinese college students' English listening needs and an analysis of listening tasks in influential English listening course books and public tests, CLCT-4 and CLCT-6 test specifications are developed. Finally, sample papers are produced</p>	<p>and a series of posteriori studies are conducted to examine the difficulty and usefulness of the newly developed notes-completion task type in two CLCT tests. As an example of successful integration of communicative testing theories and test construction practice, this research provides valuable insights into listening test development for other large-scale tests.</p>	<p><i>Activate Your English Pre-intermediate Coursebook</i> Cambridge University Press This book provides language teachers with guidelines to develop suitable listening tests <i>True to Life Pre-intermediate Personal Study Workbook</i> R&amp;L Education The teaching of English in the Asian context is always challenging and dynamic because both teachers and learners have</p>

diverse linguistic and cultural backgrounds. Equally important, where English is not widely used outside the classroom, English language classrooms are an authentic site of learner engagement. For these reasons, for all those concerned with contemporary English language teaching (ELT) in Asia, Asian English Language Classrooms: Where Theory and Practice

Meet, provides an account of theoretical orientations and practices in the teaching of English to multilingual speakers whose primary language is not English. While covering the fundamental ELT areas (e.g., the teaching of language skills, educational literature, the use of technology in ELT, the role of pragmatics in ELT, social psychology of the language classroom, and language

classroom management) with which every language teacher and teacher trainer must be concerned, this volume showcases how particular orientations shape ELT practices. We believe that practicing English teachers must have a heightened awareness of the theory behind their practice. At the same time, the theoretical stance must be firmly anchored in actual

classrooms. Containing newly commissioned chapters written by well-regarded and emerging scholars, this book will appeal not only to beginning teachers or teachers in training but also to established teachers around Asia where English is used as a lingua franca. If you are a student teacher of English or an English teacher who would like to see what other

progressive teachers like you are doing across Asia, this is the book you have been looking for.
