The Eye of Odin Funstory

“The Girl with Ghost Eyes is a fun, fun read. Martial arts and Asian magic set in Old San Francisco make for a fresh take on urban fantasy, a wonderful story that kept me up late to finish.” —#1 New York Times bestselling author Patricia Briggs

It's the end of the nineteenth century in San Francisco's Chinatown, and ghost hunters from the Maoshan traditions of Daoism keep malevolent spiritual forces at bay. Li-lin, the daughter of a renowned Daoshi exorcist, is a young widow burdened with yin eyes—the unique ability to see the spirit world. Her spiritual visions and the death of her husband bring shame to Li-lin and her father—and shame is not something this immigrant family can afford. When a sorcerer cripples her

father, terrible plans are set in motion, and only Li-lin can stop them. To aid her are her martial arts and a peachwood sword, her burning paper talismans, and a wisecracking spirit in the form of a human eyeball tucked away in her pocket. Navigating the dangerous alleys and backrooms of a male-dominated Chinatown, Li-lin must confront evil spirits, gangsters, and soulstealers before the sorcerer's ritual summons an ancient evil that could burn Chinatown to the ground.

With a rich and inventive historical setting, nonstop martial arts action, authentic Chinese magic, and bizarre monsters from Asian folklore, *The Girl with Ghost Eyes* is also the poignant story of a young immigrant searching to find her place beside the long shadow of a demanding father and the stigma of widowhood. In a Chinatown caught between tradition and modernity, one woman may be the key to holding everything together. Can you imagine not being able to speak or communicate? The silence, the loneliness, the pain. But, inside you disappear to magical places, and even meet your best friend there. However, most of the time you remain imprisoned within the isolation. Waiting, longing, hoping. Until someone realises your

potential and discovers your key, so your unlocking can begin. Now you are free, flying like a wild bird in the open sky. A voice for the voiceless. Jonathan Bryan has severe cerebral palsy, a condition that makes him incapable of voluntary movement or speech. He was locked inside his own mind, aware of the outside world but unable to fully communicate with it until he found a way by using his eyes to laboriously choose individual letters, and through this make his thoughts known. In *Eye can Write*, we read of his intense passion for life, his mischievous sense of fun, his hopes, his fears and what it's like to be him. This is a powerful book from an incredible young writer whose writing ability defies age or physical disability - a truly inspirational figure. Foreword by Sir Michael Morpurgo. A portion of the proceeds from the sale of this book will be donated to Jonathan Bryan's charity, Teach Us Too.

An insider's account of misogyny and rape in the US military and her extraordinary path to recovery and activism Desperate

to realize her childhood dream of being an astronaut, Lynn K. Hall was an enthusiastic young cadet. For Hall, the military offered an escape from her chaotic home—her erratic mother, absent biological father, and a man she called “dad” who sexually abused her. Resolute and committed to the Air Force Academy, Hall survived the ordeals of a first-year cadet: intense hazing from upperclassmen, grueling physical training, and demanding coursework. But she's dismissed from the Academy when, after being raped by an upperclassman and contracting herpes, she is diagnosed with meningitis and left with chronic and debilitating pain. Betrayed by the Academy and overcome with shame, Hall candidly recounts her loss of self, the dissociation from her body and the forfeiture of her individuality as a result of the military's demands and her perpetrator's abuse. Forced to leave the military and return to the civilian world, Hall turns to extreme sports to cope with and overcome PTSD and chronic pain. She, in turn, reclaims herself on the mountain trails of the Colorado Rockies. An intimate account of grappling with shame and a misogynistic culture that condones rape

and blames victims, *Caged Eyes* is also a transformative story of how it's possible to help yourself and others in the aftermath of a profound injustice.

There was a time. A time long before the Troll-Wars and the days of Noah. A time long forgotten and lost to recorded history, where kings, men, Elves, Dwarves and El'dwars ruled in harmony in their separate nation-states. And there were Wizards who used their mystical powers to serve the inhabitants of the realm, building the peace, projecting and overseeing all that was good within the lands of these allied nations. It was a good time. Oh, that's not to say there weren't a few minor incidents amongst the usual unsavory types. But isn't that always the case in any normal society? Or is it? To the North lay the lands of Norsada where all was not good. Norsada was home to the Muzoule, despicable creatures who had a growing hatred for the inhabitants of the Realm. Their loathing for all that was good became a religion to them, and they rallied the defeated Trolls and Gnomes to war against the believers of the Lord of Creation. Since their defeat and loss of

territories at the end of the Troll-Wars, their evil was ever growing. It was a vile festering malevolent influence that slowly began sweeping its way South to the Realm, insidiously infecting the weak of mind, the faint of heart and those who lust for power. The source of this evil emanated from the glowing Eye. The Eye of Illumination that sat in place of the capstone upon a pyramid in the midst of Northern most area of the Muzoule territories. The glowing eye was a source connection to a greater evil sealed within the portal of the Second Heaven. It was a dimensional prison reserved for the devil, the so called Shinning-One, along with his fallen angles. For them, there was no way out. No way to rule. No way to control and torture, until the Sword of Leahanna. The Sword by itself was a killing machine, created by the Elfin Warrior Leahanna. The Sword as created was not controllable. However in the past, it was a most effective tool paramount to winning the Troll-Wars. But, it was indiscriminate of who it killed when held high as it took control of its wielder. The Elfin Queen Leahanna employed the Sword in battle; and in doing so, it unintentionally and

without discretion murdered her late husband K'Thilladorn. From that point on, Queen Leahanna could not bear to look upon the murderous weapon. To bring the Sword under control, the Elfin Priestess Lynthena nurtured from a small speck a Pearl within the crystalline waters of I'Thilliander. When inserted within the pommel of the Sword, it brought this killing machine under usable control and was tested in battle by Commander K'Leander. It worked. Still, the Queen could not tolerate its presence within the Elfin forest of I'Thillianne. She ordered that both the Pearl and the Sword be separated and hidden in separate locations, never to be used again. However, there was another unexpected component to the Pearl and Sword's functionality. When reunited, the Pearl with the Sword became a Key. As prophesied by the dying King K'Thilladorn, beware during the time of a full Blood-Moon. If the blade of this Sword, now the key were to be inserted into the slot of the fractured lock at the top of the Evil-One's Ziggurat, hell would break loose. An open floodgate to evil would be unleashed. The porthole to another dimension, the second heaven reserved

for the devil and his angles would be free to come crawling out to infect all living things. Evil would once again rein supreme over the land. Torture and agony would be the rule-of-day. The Illuminated One will have won. This is the story of how good God fearing men, women and the inhabitants of their era prevailed and overcame corruption and wickedness. It is a story of impaling evil and keeping it from ever becoming the worst disaster in unrecorded history. The Wizards of the High Tower would see to it!

In *The Mind's Eye*, Oliver Sacks tells the stories of people who are able to navigate the world and communicate with others despite losing what many of us consider indispensable senses and abilities: the power of speech, the capacity to recognize faces, the sense of three-dimensional space, the ability to read, the sense of sight. For all of these people, the challenge is to adapt to a radically new way of being in the world. There is Lilian, a concert pianist who becomes unable to read music and is eventually unable even

to recognize everyday objects, and Sue, a neurobiologist who has never seen in three dimensions, until she suddenly acquires stereoscopic vision in her fifties. There is Pat, who reinvents herself as a loving grandmother and active member of her community, despite the fact that she has aphasia and cannot utter a sentence, and Howard, a prolific novelist who must find a way to continue his life as a writer even after a stroke destroys his ability to read. And there is Dr. Sacks himself, who tells the story of his own eye cancer and the bizarre and disconcerting effects of losing vision to one side. Sacks explores some very strange paradoxes—people who can see perfectly well but cannot recognize their own children, and blind people who become hyper-visual or who navigate by “tongue vision.” He also considers more fundamental questions: How do we see? How do we think? How important is internal imagery—or vision, for that matter? Why is it that, although writing is only five thousand years old, humans have a universal, seemingly innate, potential for reading? *The Mind's Eye* is a testament to the complexity of vision and the brain and to the power of

creativity and adaptation. And it provides a whole new perspective on the power of language and communication, as we try to imagine what it is to see with another person's eyes, or another person's mind.

How FBI surveillance influenced African American writing Few institutions seem more opposed than African American

literature and J. Edgar Hoover's white-bread Federal Bureau of Investigation. But behind the scenes the FBI's hostility to black protest was energized by fear of and respect for black writing. Drawing on nearly 14,000 pages of newly released FBI files, F.B. Eyes exposes the Bureau's intimate policing of five decades of African American poems, plays, essays, and novels. Starting in 1919, year one of Harlem's renaissance and Hoover's career at the Bureau, secretive FBI "ghostreaders" monitored the latest developments in African American letters. By the time of Hoover's death in 1972, these ghostreaders knew enough to simulate a sinister black literature of their own. The official aim behind the Bureau's close reading was to anticipate political unrest. Yet, as William J. Maxwell reveals, FBI surveillance came to influence the creation and public reception of African American literature in the heart of the twentieth century. Taking his title from Richard Wright's poem "The FB Eye Blues," Maxwell details how the FBI threatened the international travels of African American writers and prepared to jail dozens of them in times of national

emergency. All the same, he shows that the Bureau's paranoid style could prompt insightful criticism from Hoover's ghostreaders and creative replies from their literary targets. For authors such as Claude McKay, James Baldwin, and Sonia Sanchez, the suspicion that government spy-critics tracked their every word inspired rewarding stylistic experiments as well as disabling self-censorship.

Illuminating both the serious harms of state surveillance and the ways in which imaginative writing can withstand and exploit it, F.B. Eyes is a groundbreaking account of a long-hidden dimension of African American literature.

A guide for sports fans on how to watch and appreciate the game of hockey More and more fans are watching the NHL each week, but many of them don't know exactly what they should be watching. How does an offense create shooting lanes for its best sniper? When a center breaks through and splits between two defensemen, which defender is to blame? Why does a goalie look like a Hall of Famer one week and a candidate for the minor leagues the next? This guide for sports

fans on how to watch and appreciate the game of hockey takes you inside a coach's mind as he builds a roster or constructs a game plan, to the chaos of the goalie's crease, and deep into the perpetual chess match between offense and defense. Discussing topics such as what to look for when a team goes on the power play and why playing center might be the most grueling job in sports, *Take Your Eye Off the Puck* shows fans how to get the most out of watching their favorite sport.

One of the great joys of the academic life is to pay homage in a *Festschrift* to a scholar who has influenced both colleagues and students over years of interaction and friendship both professional and personal. This volume honors a scholar and theologian of historical theology, a theorist and a practitioner of religion and the arts, and a

keen analyst of cultural trends both ancient and modern. . . . [Margaret R.] Miles's prodigious production as a scholar has legendary qualities. Her dozen-plus books alone explore history, patristics, ancient philosophy, art and art history, spiritual formation and religious practice, critical theory, film, ethics and values, personal growth, gender and women's studies, as well as her true academic loves, Augustine and Plotinus. . . . The breadth and depth of her own work and her influence upon others demands an expansive volume, which the editors of this *Festschrift* unfortunately had to restrict to four categories--Historical Theology, Religion and Culture, Religion and Gender, and Religion and the Visual Arts--in order to capture the heart of our appreciation for her. --from the Introduction

The church is a contextualized reality, and

if it is to flourish, its leaders must be raised up to serve their own communities. Yet our very techniques for teaching and learning are culturally defined. If the church is to be effective in developing the leaders it needs, our approach to training must be informed by its local context. In this immensely practical text, Joseph Nehemiah combines sound pedagogical research with rich cultural insight to provide a framework for training leaders in an Arab context. Examining principles of adult education in light of Arab cultural dynamics, Nehemiah offers a paradigm for experiential learning that is biblically rooted and contextually appropriate. Informed by the experience of professors in the Arab Gulf, along with extensive interviews from local church leaders, *Leadership Training in the Hands of the Church* seeks to place the development, teaching, and training of leaders into the hands of the local church.
