A Novel Kate Rudolph
This stunning fantasy inspired by Chinese folklore is a companion novel to *Starry River of the Sky* and the New York Times bestselling and National Book Award finalist *When the Sea Turned to Silver*. In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who

accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved *Year of the Dog* and *Year of the Rat* returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, *Where the Mountain Meets the Moon* is a timeless story reminiscent of *The Wizard of Oz* and Kelly Barnhill's *The Girl Who Drank the Moon*. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

Moon Madness and Other Stories Megan Ryder
In the RITA® nominated *Marked by the Moon*, Alaska has never been so dangerous. Alexandra Trevalyn was once a member of an elite force of werewolf hunters, but these days she's going rogue, determined to rid the world of the crazed killers, specifically the one that killed her parents. Once a Viking, now a werewolf, Julian Barlow has been hunting Alex since she killed his gentle wife. His plans of

vengeance are downright devious. To make Alex understand, up close and personal, that not all werewolves are evil, killing machines, he makes Alex a werewolf too. It's only a matter of time before she succumbs to the freedom of the wolf that runs through her veins, if she doesn't succumb to the temptation of Julian first. At his magical village above the Arctic Circle a rogue werewolf kills the innocent. Can Julian and Alex work together to save the rest of the pack? Or will they just tear each other apart?

And Other Fantasies Lori Handeland
The Moon is not a cold, dead rock but a rich, fascinating world just as alive as Earth • Investigates the Moon as the home of an alien intelligence who controls humanity • Examines several of NASA's Apollo missions and the findings they concealed • Reveals the many holes in the "Giant Impact" theory about the Moon's origins and the evidence for a hollow, artificial Moon • Explores the deep

influence of the Moon on the collective mind of humanity and occult teachings about the Moon from the Qabalah, tarot, and other sources. Despite being the most prominent celestial body after the Sun, the Moon has many qualities that science has yet to explain. Lunar rock samples reveal the Moon once had a magnetic field like the Earth, and seismic experiments by NASA suggest the Moon is at least partially hollow. For centuries people have observed lights, moving clouds and shadows, and even the disappearance of entire craters via telescope. Apollo astronauts repeatedly felt the presence of a “non-human intelligence” during their Moon visits, and many indigenous traditions speak of malevolent visitors from the Moon. A growing body of astrophysical and geological evidence shows the Moon is not an entirely natural world--that someone or something altered it long ago. Louis Proud explores the phases and movements of the Moon along with its ancient and mysterious features--its craters, maria, rilles, tunnels, and domes. He examines several of NASA's Apollo missions,

showing not that NASA faked the Moon expeditions but that they concealed what the astronauts found there. He explains the many holes in the commonly accepted “Giant Impact” theory of the Moon's origins and reveals the evidence for a hollow, artificial Moon placed in orbit eons ago to observe Earth. Examining the deep influence of the Moon on the collective mind of humanity, Proud looks at what the Qabalah, the tarot, and other occult traditions say about the Moon and interprets G. I. Gurdjieff's teachings that “we are food for the Moon.” He investigates the Moon as a gateway to another realm, as the Purgatory of Christianity, and as the home of an alien intelligence who controls and exploits humanity. Examining the Moon from both scientific and esoteric perspectives, Proud shows the Moon is not a cold, dead rock but a rich, fascinating world just as alive as Earth. [Moon Madness \(Dazon Agenda #4\) \[SciFi Romance\]](#) Lulu.com This mesmerizing coming-of-age novel, with its sheen of near-magical realism, is a moving tale of family and the power of stories. After their

mother's probable suicide, sisters Olivia and Jazz take steps to move on with their lives. Jazz, logical and forward-thinking, decides to get a new job, but spirited, strong-willed Olivia—who can see sounds, taste words, and smell sights—is determined to travel to the remote setting of their mother's unfinished novel to lay her spirit properly to rest. Already resentful of Olivia's foolish quest and her family's insistence upon her involvement, Jazz is further aggravated when they run into trouble along the way and Olivia latches to a worldly train-hopper who warns he shouldn't be trusted. As they near their destination, the tension builds between the two sisters, each hiding something from the other, until they are finally forced to face everything between them and decide what is really important. [Lost Colony, The \(Artemis Fowl, Book 5\)](#) HarperCollins UK His wolf wanted. His wolf took. But that doesn't mean he can keep what he stole... Consumed by full moon madness, Nathaniel bit Rafferty without considering the consequences. Furious at himself for his

inexplicable behavior, Nathaniel pushes Rafferty away in a desperate bid to hide his soul-consuming attraction. But once the pack leader declares that any werekin who turns a human gains himself a mate, Nathaniel breathes a sigh of relief. If he has no choice but to accept Rafferty as his forever after, then the deal is done. Unfortunately, the damage has been done too. Rafferty hates him. In fact, the tiny human despises Nathaniel so much that the pack leader reverses his previous order, giving Rafferty the right to choose his own mate. Now, the only way for Nathaniel to win Rafferty's heart is to romance him. But when everything Nathaniel does backfires, and Rafferty shows interest in another werekin, Nathaniel has to face the fact that he might not be able to change Rafferty's mind. Nathaniel's last hope is that he is the only one who can help Rafferty through his first transition. One last night to show him he's changed. Will Rafferty be able to see Nathaniel in a new light or will he lose his chosen to another?

The Stars of the Pack Omnibus Simon and Schuster

Twelve short stories that examine what happens in the lives of characters who discover shocking truths about the people they thought they knew best. Whether set in a cottage or a Montreal market, a graveyard or a backyard, these stories transport you into the lives of people you'll recognize. Your neighbours may not want to make squirrels into pets or sell you a piece of the moon. Your son may not be asked to donate sperm to his girlfriend's mother. Your sister may not want you to bring a dead cat across the border. You may not have an imaginary husband, a secret brother, or a friend who has turned to murder in a custody battle. But in each of these stories, people are trying to figure out how to live in a world that doesn't always seem hospitable. With her keen poet's eye, Julie Paul examines human nature and animal instinct, as the characters in *The Pull of the Moon* try to negotiate their impulses and desires. Ultimately, they want what most of us want: connection, belonging, love, and forgiveness.

The Moon Is a Harsh Mistress Simon and Schuster

From two of the greatest imaginations of our time comes a magnificent novel of adventure and magic...SHADOW MOON: First in the Chronicles of the Shadow War. The genius of Star Wars(r) creator George Lucas and the vision of Chris Claremont, the author of the phenomenally bestselling *The Uncanny X-Men* adventures, merge in what must be the fantasy event of the year. In *Shadow Moon*, war and chaos have gripped the land of Tir Asleen. An ancient prophecy reveals one hope: a savior princess who will ascend to the throne when the time is right. But first, a

Nelwyn wanderer must face forces of unimaginable malevolence and dangerous, forbidden rites of necromancy that could bring back a powerful warrior from soulless sleep. George Lucas reshaped filmmaking in the '70s and '80s with his *Star Wars* and *Indiana Jones* films. When Bantam Books asked Lucas if he had any stories he would like to develop as novels rather than as films, Lucas turned to his 1988 fantasy film, *Willow*. "When I wrote the story for *Willow*, I began with the pre-story," Lucas said, "but the full story was yet to be told." Now, Lucas's vision is being fulfilled with the talented help of Chris Claremont. Having previously taken the reins of what was for a decade the bestselling comic in the western hemisphere (*The Uncanny X-Men*) Claremont assumes the responsibility of foster parent to Lucas's creation. On sale in hardcover now, and available on BDD Audio Cassette as well, SHADOW MOON is a momentous new adventure for readers looking to spend part of this summer in a fantastic world. SHADOW MOON is one of Bantam Spectra's most exciting publishing

events in 1995, the year we celebrate our 10th Anniversary as the premiere publishing imprint of books of speculative fiction. Little, Brown Books for Young Readers

The author of the critically acclaimed *Wife 22* has written a captivating novel about a love that transcends time—perfect for readers of *The Time Traveler's Wife*, *Time and Again*, and the novels of Alice Hoffman. San Francisco, 1975. A single mother, Lux Lysander is overwhelmed, underpaid, and living on the edge of an emotional precipice. When her adored five-

year-old son goes away to visit his grandparents, Lux takes a solo trip to Sonoma Valley—a chance to both lose herself and find herself again. Awakened at midnight, Lux steps outside to see a fog settled over the Sonoma landscape. Wandering toward a point of light in the distance, she emerges into a meadow on a sunny day. There she meets a group of people whose sweetly simple clothing, speech, and manners almost make them seem as if they are from another time. And then she realizes they are. Lux has stumbled upon an idyllic community cut off not only from the rest of the world but from time itself. The residents of Greengage tell a stunned and disoriented Lux that they've somehow been marooned in the early twentieth century. Now that she has inexplicably stepped into the past, it is not long before Lux is drawn in by its peace and beauty. Unlike the people of Greengage, Lux discovers that she is able to come and go. And over the years, Lux finds herself increasingly torn between her two lives. Her beloved son is very much a child of the modern world, but she

feels continually pulled back to the only place she has ever truly felt at home. A gorgeous, original, and deeply moving novel about love and longing and the power that time holds over all of us, *Valley of the Moon* is unforgettable. Praise for *Valley of the Moon* “The literary equivalent of a farm-to-table delicacy: lovingly handcrafted, delectable and transcendent, becoming more than just a tasty appetizer but a full-course experience of love and time and all the mystical beauty that the region has to offer.”—*San Francisco Chronicle* “Beautifully written . . . [*Valley of the Moon* is] a wonderful story about belonging, love and the aching certainty that there’s something more out there . . . sure to appeal to fans of *Time and Again* or *The Time Traveler’s Wife*.”—*Shelf Awareness* (starred review) “With lovely shades of *The Time Traveler’s Wife*, *Valley of the Moon* is a magical, cinematic novel, breathlessly romantic and alive with the love of language.”—*Sarah Addison Allen* “An enjoyable magic carpet ride . . . Two narrators, separated by nearly a

century, tell a tale of old-time charm and contemporary agita.”—*Kirkus Reviews* “Captivating.”—*Booklist* “Gripping . . . This update of *Brigadoon* is recommended because of its well-crafted twists and thought-provoking insights into different times and cultures.”—*Historical Novels Review* “A propulsive and at times deeply suspenseful novel . . . [*Valley of the Moon*] offer[s] powerful and perceptive considerations about the passage of time, the shape of our lives and the often unintended effects our actions have on the people and communities around us.”—*Bookreporter* [The Madness and Medical Genius of Dr. Perry Baird, and His Daughter's Quest to Know Him](#) *Brindle and Glass* ‘My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person ...’ *Susannah Cahalan* was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of what had

happened or how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis, undergoing rages and convulsions, hallucinating that her father had murdered his wife; that she could control time with her mind. Everything she had taken for granted about her life, and who she was, was wiped out. Brain on Fire is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare autoimmune disease attacking her brain. His diagnosis of this little-known condition, thought to have been the real cause of devil-possession through history, saved her life, and possibly the lives of many others. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing

journey, piecing it together using memories, journals, hospital videos and records. Written with passionate honesty and intelligence, Brain on Fire is a searingly personal yet universal book, which asks what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face: the loss of mind, body and self. Brain on Fire is a mesmerizing story' -Mira Bartók, New York Times bestselling author of The Memory Palace Susannah Cahalan is a reporter on the New York Post, and the recipient of the 2010 Silurian Award of Excellence in Journalism for Feature Writing. Her writing has also appeared in the New York Times, and is frequently picked up by the Daily Mail, Gawker, Gothamist, AOL and Yahoo among other news aggregator sites. *A Sexy Shifter Paranormal Romance Series* Belgrave House
This book is written by an Everyman, a person who has traveled through the

ups and downs of life, with his eyes wide open and his heart exposed. The eyes have seen too much. The heart has taken a few hits. It started with a poem. One poem reflecting a single thought. Then a second and a third and a fourth. The poems span a period and, in themselves, have become a reflection of the writer, me. The observations are not so unusual. It is unusual, however, I guess, to maintain a printed word of the journey.

Omega & Alpha for the Pack He Wanted the MoonThe Madness and Medical Genius of Dr. Perry Baird, and His Daughter's Quest to Know Him

A selection of the History, Scientific American, and Quality Paperback Book Clubs For a very brief moment during the 1960s, America was moonstruck. Boys dreamt of being an astronaut; girls dreamed of marrying one. Americans drank

Tang, bought "space pens" that wrote upside down, wore clothes made of space age Mylar, and took imaginary rockets to the moon from theme parks scattered around the country. But despite the best efforts of a generation of scientists, the almost foolhardy heroics of the astronauts, and 35 billion dollars, the moon turned out to be a place of "magnificent desolation," to use Buzz Aldrin's words: a sterile rock of no purpose to anyone. In *Dark Side of the Moon*, Gerard J. DeGroot reveals how NASA cashed in on the Americans' thirst for heroes in an age of discontent and became obsessed with putting men in space. The moon mission was sold as a race which America could not afford to lose. Landing on the moon, it was argued, would be good for the economy, for politics, and for the soul. It could even win the Cold War. The great tragedy is that so much effort and expense was devoted to a small step that did virtually nothing for mankind. Drawing on meticulous archival research, DeGroot cuts through the myths constructed by the Eisenhower, Kennedy, and Johnson administrations

and sustained by NASA ever since. He finds a gang of cynics, demagogues, scheming politicians, and corporations who amassed enormous power and profits by exploiting the fear of what the Russians might do in space. Exposing the truth behind one of the most revered fictions of American history, *Dark Side of the Moon* explains why the American space program has been caught in a state of purposeless wandering ever since Neil Armstrong descended from Apollo 11 and stepped onto the moon. The effort devoted to the space program was indeed magnificent and its cultural impact was profound, but the purpose of the program was as desolate and dry as lunar dust.
