Exploration of Subsurface Antarctica

Emerald Group Publishing

An inspiring keepsake that honors the heroic sacrifice of today's martyrs for the Christian faith—and shows how their actions mirror the courage of a long line of

brave Christians. In the twenty-first century, we are witnessing an escalation in Christian persecution like we have rarely seen since the first century. Many people don't realize that today thousands of Christians are dying cruel deaths throughout much of the world. There were, in fact, more martyrs in the last century than in all the previous Christian centuries combined. Millions have given their lives since the fall of Rome, and today tens of

thousands die annually for their faith in Jesus. Most of these modern stories are not legendary; in fact, many are unknown. The New Book of Christian Martyrs commemorates those modern-day heroes. In this update to Foxe's Book of Martyrs, Johnnie Moore and Jerry Pattengale highlight key martyrs of past centuries and feature stories of contemporary martyrs around the world. Through tears, Johnnie and Jerry offer this compendium of heroes

from the first century to the twenty-first century, from Europe to Africa and from Asia to the Americas, to inspire Christians around the globe. Today, we live in solidarity with them and in the next life, we will rejoice by their side. We will never forget their sacrifice for the truth.

Posthumanism in digital culture Jones & Bartlett Learning

This book is a printed edition of the Special Issue "Frontiers in Mental Health and the Environment" that was published in IJERPH

Federal Register Emerald Group Publishing International Academic Conference on Global Education, Teaching and Learning and International Academic Conference on Management, Economics, Business and Marketing and International Academic Conference on Transport, Logistics, Tourism and Sport Science. Virtual Events Management ARUN C MEHTA

Infants and young adults represent the future of the events industry. Yet, until now, there has been little research in this

important and growing sector. Events Management for the Infant and Youth Market takes a comprehensive look at the unique challenges posed for planning and delivering events for young people.

Nicole Biblioasis

This book explores the theories of transhumanism and posthumanism, two philosophies that deal with radically changing bodies, minds, and even the nature of humanity itself.

Quality assurance is an essential aspect for ensuring the success of corporations worldwide. Consistent quality requirements across organizations of similar types ensure that these requirements can be accurately and easily

evaluated. Shaping the Future Through Standardization is an essential scholarly book that examines quality and standardization within diverse organizations globally with a special focus on future perspectives, including how standards and standardization may shape the future. Featuring a wide range of topics such as economics, pedagogy, and management, this book is ideal for academicians, researchers, decision makers, policymakers, managers, corporate professionals, and students.

Events Management for the Infant and Youth Market Academic Press

The New York Times bestseller, now updated with new material on cyber attacks, digital sovereignty, and tech in a pandemic. From Microsoft's president and one of the tech industry's broadest thinkers, a frank and thoughtful reckoning with how to balance enormous promise and existential risk as the digitization of everything accelerates. "A colorful and insightful insiders' view of how technology is both empowering and threatening us. From privacy to cyberattacks, this timely book is a useful guide for how to navigate the digital future." —Walter Isaacson

Microsoft president Brad Smith operates by a simple core belief: When your technology changes the world, you bear a responsibility to help address the world you have helped create. In *Tools and Weapons*, Brad Smith and Carol Ann Browne bring us a captivating narrative from the top of Microsoft, as the company flies in the face of a tech sector long obsessed with disruption as an end in itself, and in doing so navigates some of the thorniest issues of our time—from privacy to cyberwar to the challenges for democracy, far and near. As the tumultuous events of 2020 brought technology and Big Tech even further into the lives of almost all Americans, Smith and Browne updated the book throughout to reflect a changed world. With three new chapters on cybersecurity, technology and nation-states, and tech in the pandemic, *Tools and Weapons* is an invaluable resource from the cockpit of one of the world's largest tech companies.

Focusing on the new DSM-V classifications for addiction with an emphasis on CACREP, neuroscience, and treatment, this

provocative, contemporary text is an essential reference for both students and practitioners wanting to gain a deeper understanding of those with addiction.

Radicalisation, Extremism and Social Work Practice Goodfellow Publishers Ltd

Written by activists and scholars based in Australia, Kenya, Pakistan, New Zealand, South Africa, Uganda and the USA, *The Bloomsbury Handbook of Prison Education* offers the first global state-of-the-field overview of research into educational practices and programs in prisons. It covers the history of the field and puts forward future directions for research. The range of topics covered include discussions of how gender, race, sexuality, indigeneity, age and faith impact incarceration rates around the world; educational leadership; STEM education; creative writing programs; distance learning; abolition; education after prison and education for correctional staff. The book includes a Foreword by Donald Sawyer, III (Director of Correctional Education, Quinnipiac University, USA).

Principles and Practice of Sport Management with Navigate Advantage Access Amer Physical

Therapy Assn

Radicalisation, Extremism and Social Work Practice is the first book to explore cultural identity, acculturation and perceived discrimination of Muslim youth across Western countries in relation to social work, as well as the radicalisation and extremist views and actions of a small number of Muslim youth. It draws on relevant theoretical frameworks and research to examine the different approaches taken in social work practice. Some countries consider multi-agency approaches, particularly how public health practice can inform interventions and strategies. Others take a public health approach, looking for risk factors and seeking protective factors to develop suitable interventions within the communities through public engagement and partnership. As well as examining and discussing the above approaches, this book critically examines government and community-based approaches to radicalisation and extremism, and strategies for combating these. This volume will be a valuable resource for social work students, including other disciplines such as psychology, public

health, psychiatry, sociology, political science and community development. It will also be of interest to policy makers, practitioners and researchers.

The New Book of Christian Martyrs SAGE Publications

This book presents cutting-edge research on memory in the age of the Internet and social media. The empirical studies reported in the ten chapters address the influence of the digital age on remembering in three broad areas: offloading memory and the associated costs, benefits, and boundary conditions; autobiographical memory online; and false memory at a time of fake news and misinformation. These studies employ innovative and rigorous methodological approaches that are ecologically valid in the online context. Their findings reveal complex and dynamic characteristics of human memory in a digitally mediated world that shapes our learning, our sense of self, and our beliefs and decision making. Collectively, the chapters in this volume provide rich theoretical insights into the workings and functions of memory. This book ushers in a new era of research on memory in the age of

digitization. Memory Online will be a beneficial read for students and scholars of Psychology, Cognitive Science, Communication, and Media Studies. The chapters in this book were originally published as a special issue of *Memory*.

Design + Anthropology NYU Press

This text guides patterns of practice; improves quality of care; promotes appropriate use of health care services; and explains physical therapist practice to insurers, policymakers, and other health care professionals. This edition continues to be a resource for both daily practice and professional education.

Focusing on the most compelling titles across the vast area of imaginative fantasy and science fiction literature and media, this book showcases creative ways to build on existing interest in these genres and promote reading, literacy, and critical thinking. Science fiction and fantasy stories captivate the imaginations of youth and adults—even today, when

real-life technological developments often border on unbelievable. We see evidence of the universal appeal of sci-fi and fantasy-themed tales in popular books, movies, and television series—from *The Hunger Games*, *The Martian*, and *Star Wars* to *Jessica Jones* and *The Man in the High Castle*. This guide provides avenues for making use of what naturally interests young audiences pre-teen through emerging or new adult with some 50 programs based on speculative fiction. For each of the literature-based programs, the book provides a description of the project that identifies the appropriate age level and its goals and learning objectives as well as the duration of time and materials needed. While the selection of titles is diverse, special emphasis is given to media and books created by women and people of color. The step-by-step directions, annotation of the book on which the project is based, list of related titles, and special tips ensure that you'll be able to easily implement the program in your classroom or library. Most of the programs have a technology-related component but can be adapted to be done as traditional crafts. All of the programs

are appropriate for students in English and creative writing classes as well as for youth or young adults in a public library setting.

Handbook of Aging and the Social

Sciences Bloomsbury Publishing USA

Our appreciation of glaciological processes in Antarctica suffers from a lack of observations in regions where numerical models indicate the ice sheet to be susceptible to ocean and/or atmospheric warming. The solution lies in the use and development of glacier geophysics. In this volume we present a series of papers that demonstrate how geophysics can be deployed in Antarctica to comprehend: (1) boundary conditions that influence ice flow such as subglacial topography, the distribution of basal water and ice-sheet rheology; (2) phenomena that might affect ice-flow processes, such as complex internal ice-sheet structures and the proposition of large stores of hitherto unappreciated groundwater; and (3) how glacial sediments and formerly glaciated terrain on, and surrounding, the continent can inform us about past ice-sheet dynamics. The volume also takes a historical view on developments leading to

current knowledge, examines active ice-sheet processes, and points the way forward on how geophysics can advance quantitative understanding of Antarctic ice-sheet behaviour.

Guide to Physical Therapist Practice Czech Institute of Academic Education
 Hazard Analysis and Risk-Based Preventive Controls: Improving Food Safety in Human Food Manufacturing for Food Businesses is a comprehensive, first of its kind resource for the retail food industry on the Hazard Analysis and Risk-based Preventive Controls (PCHF) regulations of the Food Safety Modernization Act (FSMA). This book covers all aspects of PCHF, including the legislation's intent, applications to ensure safe food production, and resources to keep up-to-date on new food safety hazards and regulatory guidance. Written for food safety professionals and food business leaders, its emphasis on what the retail food industry needs to know about PCHF make it an indispensable resource for organizations buying food from companies required to demonstrate compliance with PCHF. PCHF implementation is (or soon will be) required for human food companies along

the supply chain in the United States, as well as all food companies that import ingredients and products for human consumption into the U.S. - Explains what retail food industry professionals need to know about PCHF and how they can leverage PCHF when working with suppliers - Provides the most current "how to" information on implementing PCHF to prepare for new FDA regulations in the food industry - Identifies the right resources to perform hazard analysis and develop effective preventive controls - Demonstrates step-by-step examples for continuous improvement in sustaining PCHF responsibilities and keeping abreast of new food safety information
Processing Across Languages Penguin
 Until recently, McClelland and Stewart had been known as "The Canadian Publisher," the country's longest-lived and best independent press. Its dynamic leader Jack McClelland worked with successive provincial and federal governments to help draft policies in the 1960s and 70s which ensured that Canadian stories would, for the first time in the nation's history, be told and published by Canadians. M&S introduced Canadians to themselves while

championing the nation's literature, bringing to the world Margaret Atwood, Leonard Cohen, Mavis Gallant, Farley Mowat, Rohinton Mistry, Alice Munro, Mordecai Richler, and many others. When 75% of M&S was gifted amidst great fanfare to the University of Toronto on Canada Day 2000—"To achieve the survival of one great Canadian institution," M&S owner Avie Bennett declared at the time, "I have given it into the care of another great Canadian institution"—one could've assumed that it would remain in Canadian hands and under Canadian control in perpetuity. But one would have been wrong. In her controversial new book, Elaine Dewar reveals for the first time how M&S was sold salami-style to Random House, a division of German media giant Bertelsmann; how smart businessmen and even smarter lawyers danced through the raindrops of the laws put into place to protect Canadian cultural institutions from foreign ownership while cultural bureaucrats looked the other way; and why we should care. It is the story not just of the demise of the country's best independent publisher, it is about the threats, internal and otherwise, facing

Canadian culture. The Handover is more than just a CanLit How-Done-It: it is essential reading for anyone interested in the telling of Canadian stories.

Billboard SAGE Publications

Prof. Arun C Mehta worked at the premier National Institute of Educational Planning and Administration (NIEPA), New Delhi for almost four decades (1980 to 2019) and authored numerous books, published articles in journals of repute, and written research reports based on one of the largest databases of the World, namely the Unified District Information System for Education (U-DISE) which he nurtured

about two decades. He had written extensively in the areas of educational planning, education for all, demographic & enrolment projections, indicators of educational development, and data analysis. In the present book, Prof. Mehta presents a select 27 articles which are grouped into five broad headings, such as (i) Educational Statistics & EMIS (ii) Indicators of Educational Development (iii) Demographic & Enrolment Projections (iv) Educational Data Analysis & (v) Education for All. Apart, a complete list of his contribution has also been annexed.

Renowned social scientist and former Director of NIEPA, New Delhi Prof. Kuldeep Mathur has written the foreword of the book. Prof. R Govinda, Prof. Marmar Mukhopadhyay, Prof. G. D Sharma, Dr. Geeta Gandhi Kingdon, Shri Baldev Mahajan, Late Shri B. P. Khandelwal, Mr, Simon Ellis of UNESCO Institute for Statistics, Montreal, Prof. Pradeep Kumar Joshi, Former Director NIEPA and presently Chairman of Union Public Service Commission and Prof. Najma Akhtar, Vice-Chancellor, Jamia Millia Islamia University, New Delhi has commented on the research of Prof. Mehta.
