Nominated as one of America's best-loved novels by PBS's The Great American Read. Renowned hip-hop artist, writer, and activist Sister Souljah brings the streets of New York to life in a powerful and utterly unforgettable first novel. I came busting into the world during one of New York's worst snowstorms, so my mother named me Winter. Ghetto-born, Winter is the young, wealthy daughter of a prominent Brooklyn drug-dealing family. Quick-witted, sexy, and business-minded, she knows and loves the streets like the curves of her own body. But when a cold Winter wind blows her life in a direction she doesn't want to go, her street smarts and seductive skills are put to the test of a lifetime. Unwilling to lose, this ghetto girl will do anything to stay on top. The Coldest Winter Ever marks the debut of a gifted storyteller. You will never forget this Winter's tale.

Whether it's sleek leather pants, a shiny new Apple computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.

One of the greatest challenges for the apparel industry is to produce garments that fit customers properly. Anthropometry, Apparel Sizing and Design addresses the need for improved characterization of our populations in order to tailor garments according to size, weight, and shape of consumers. This book reviews techniques in anthropometry, sizing system developments, and their applications to clothing design. Part one considers a range of anthropometric methods. The text discusses the range of sizing systems, including data mining techniques, useful for bridging the gap between ergonomists and designers. Chapters examine three-dimensional anthropometric methods and multivariate and bivariate analysis for identifying key body dimensions. Part two then explains how to analyze anthropometric data to develop appropriate sizing systems. Here, the book discusses classification and clustering of human body shapes, the importance of national surveys, and using the data obtained to ensure inclusive design strategies. The book covers sizing systems developed for particular groups, apparel size designation, and the potential for international standardization. It considers the advantages of 3D body scanning and computer-aided design, and the use of body motion analysis to address ease allowance requirements of apparel. With its distinguished editors and international contributors, this work is an essential reference, particularly due to the specific combination of aspects of anthropometry and the sizing of clothing, for researchers, garment designers, students, and manufacturers in the clothing and fashion industry. Reviews techniques in anthropometry, sizing system developments, and their applications to clothing design Examines 3D anthropometric methods and multivariate and bivariate analysis for identifying key body dimensions Covers sizing systems developed for particular groups, apparel size designation, and the potential for international standardization

Before appearing on the BBC's The Great British Sewing Bee, Chinelo Bally had never used a sewing pattern. She wowed the judges with her ability to create stylish, fitted garments using a freehand cutting method that was taught to her by an aunt. In Freehand Fashion, Chinelo lets us in to the secret of how she does it. Using a series of basic garment blocks, she explains how this innovative technique can be used to create a whole wardrobe of fashionable clothes that will fit every shape and size - with no patterns required. Based on a traditional Nigerian technique, Chinelo has developed her own freehand cutting method. The emphasis is on the individual's own body measurements, and getting the perfect fit. This is a surprisingly simple technique that anyone can learn. No fancy equipment is needed - just a sewing machine, measuring tape, chalk and of course a good pair of scissors. Using step-by-step illustrations, the book shows how to draft, cut and construct the five basic blocks that are used - either singly or in combination - to make every item of clothing in the wardrobe. Once you have your basic blocks, you are ready to tackle the projects - practical garments that are fashionable, modern, stylish and versatile. There are tops, skirts, day dresses and eveningwear. This is an exciting sewing technique that will be brand new to most people, even experienced dressmakers. There really are no limits - and the beauty of this technique is that it can be applied to any body shape.

Vivienne Westwood è una delle icone della nostra era. Stilista di moda, attivista, co-creatrice del punk, brand globale. Mamma, più volte moglie e compagna, nonna. Una vera leggenda vivente. La sua carriera ha attraversato con successo cinque lunghi decenni, e il suo lavoro influenzato milioni di persone in tutto il mondo. Per la prima e unica volta, Vivienne Westwood ha scritto un libro di memorie personali, collaborando con il pluripremiato biografo Ian Kelly per descrivere gli eventi, le persone e le idee che hanno dato forma e sostanza alla sua vita straordinaria. Raccontata in tutto il suo fascino glamour e con appassionata onestà, questa è la Sua Storia. Dalla felice infanzia nel Derbyshire al trasferimento nella Londra degli anni Cinquanta. Dai primi originalissimi gioielli venduti sulle bancarelle di Portobello Road al vestito realizzato da sola per il primo matrimonio con Derek Westwood e la nascita del figlio Benjamin. Dalla separazione consensuale alla turbolenta relazione con Malcolm McLaren, futuro manager dei Sex Pistols, da cui nasce il secondo figlio Joseph Corrè. Per arrivare all'apertura del primo negozio su King's Road, "Let it Rock", destinato a cambiare diversi nomi e stili fino all'attuale "Worlds End". Dall'approdo al "made in Italy" grazie alla collaborazione con Carlo D'Amario alla relazione platonica e culturale con lo storico dell'arte Gary Ness. Fino al secondo matrimonio "clandestino" con Andreas Kronthaler, suo giovanissimo e geniale studente di moda austriaco, nel 1992. Se negli anni Settanta la Westwood viene riconosciuta come l'ideatrice del look punk, con creazioni stravaganti e provocatorie, negli anni Ottanta i suoi modelli

non traggono più ispirazione soltanto dalla moda di strada giovanile, ma da tradizione e tecnica. La sua ricerca prende coltissimi spunti dalla storia del costume ed esplora tutte le epoche. Nel nuovo millennio s'impone poi l'impegno sociale e politico come attivista per organizzazioni ambientaliste e

per i diritti umani e civili e il personale contributo grazie alla campagna "Rivoluzione Climatica" e al manifesto Active Resistance to Propaganda.
