### CALLAHAN CYNTHIA

**The Cambridge History of Ireland 4 Paperback Volume Set** McFarland

The Scotch-Irish began emigrating to Northern Ireland from Scotland in the seventeenth century to form the Ulster Plantation. In the next century these Scottish Presbyterians migrated to the Western Hemisphere in search of a better life. Except for the English, the Scotch-Irish were the largest ethnic group to come to the New World during the eighteenth century. By the time of the American Revolution there were an estimated 250,000 Scotch-Irish in the colonies, about a tenth of the population. Twelve U.S. presidents can trace their lineage to the Scotch-Irish. This work discusses the life of the Scotch-Irish in Ireland, their treatment by their English overlords, the reasons for emigration to America, the settlement patterns in the New World, the movement westward across America, life on the colonial frontier, Scotch-Irish contributions to America's

development, and sites of Scotch-Irish interest in the north of Ireland.

*A History of Irish Working-Class Writing* Yale University Press

Engaging and eloquent, *Migration and the Making of Ireland* provides long overdue consideration to those who made new lives in Ireland even as they made Ireland new.

*The Irish Rebellion of 1641 and the Wars of the Three Kingdoms* Cambridge University Press

This Handbook brings together leading historians of the events surrounding the English revolution, exploring how the events of the revolution grew out of, and resonated, in the politics and interactions of the each of the Three Kingdoms - England, Scotland, and Ireland. It captures a shared British and Irish history, comparing the significance of events and outcomes across the Three Kingdoms. In doing so, the Handbook offers a broader context for the history of the Scottish Covenanters, the Irish Rising of 1641, and the government of Confederate Ireland, as well as the British and Irish perspective on the English civil wars, the English revolution, the Regicide, and Cromwellian period. The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies. The events are approached not

simply as political, economic, and social crises, but as challenges to the predominant forms of religious and political thought, social relations, and standard forms of cultural expression. The contributors provide up-to-date analysis of the political happenings, considering the structures of social and political life that shaped and were re-shaped by the crisis. The Handbook goes on to explore the long-term legacies of the crisis in the Three Kingdoms and their impact in a wider European context.

*Making Ireland English* OUP Oxford

This collection of articles by leading scholars focuses on Irish writing in Latin in the Renaissance and aims to rewrite Irish cultural history through recovery and analysis of Latin sources. This book renders accessible for the first time the vastly important Irish contribution to the counter-reformation, to European Renaissance and baroque literature in Latin and to the intellectual culture of European Latinity. The ethnic, cultural and religious divisions within Ireland produced a divided Latin writing and reading community.

**The Cambridge History of Ireland: Volume 2, 1550-1730** Gill & Macmillan Ltd

English has been spoken in Ireland for over 800 years, making Irish English the oldest variety of the language outside Britain. This 2007 book traces the development of English in Ireland, both north and south, from the late Middle Ages to the present day. Drawing on authentic data ranging from medieval literature to authentic contemporary examples, it reveals how Irish English arose, how it has developed, and how it continues to change. A variety of central issues are considered in detail, such as the nature of language contact and the shift from Irish to English, the sociolinguistically motivated changes in present-day Dublin English, the special features of Ulster Scots, and the transportation of Irish English to overseas locations as diverse as Canada, the United States, and Australia. Presenting a comprehensive survey of Irish English at all levels of linguistics, this book will be invaluable to historical linguists, sociolinguists, syntacticians and phonologists alike.

*The evolution of a colonial institution* Manchester University Press

A brisk, concise, and readable overview of Irish history from the Protestant Reformation to the dawn of the twenty-first century Five centuries of Irish history are explored in this informative and accessible volume. John Gibney proceeds from the beginning of Ireland's modern period and continues through to virtually the present day, offering an integrated overview of the island nation's cultural, political, and socioeconomic history. This succinct, scholarly study covers important historical events, including the Cromwellian conquest and settlement, the Great Famine, and the struggle for Irish independence. Gibney's book explores major themes such as Ireland's often contentious relationship with Britain, its place within the British Empire, the impact of the Protestant Reformation, the ongoing religious tensions it inspired, and the global reach of the Irish diaspora. This unique, wide-ranging work assimilates the most recent scholarship on a wide range of historical controversies, making it an essential addition to the library of any student of Irish studies.

*Irish Freedom* Cambridge University Press

Roy Foster is one of the leaders of the iconoclastic generation of Irish historians. In this opinionated, entertaining book he examines how the Irish have written, understood, used, and misused their history over the past century. Foster argues that, over the centuries, Irish experience itself has been turned into story. He examines how and why the key moments of Ireland's past--the 1798 Rising, the Famine, the Celtic Revival, Easter 1916, the Troubles--have been worked into narratives, drawing on Ireland's powerful oral culture, on elements of myth, folklore, ghost stories and romance. The result of this constant reinterpretation is a shifting "Story of Ireland," complete with plot, drama, suspense, and revelation. Varied, surprising, and funny, the interlinked essays in *The Irish Story* examine the stories that people tell each other in Ireland and why. Foster provides an unsparing view of the way Irish history is manipulated for political ends and that Irish poverty and oppression is sentimentalized and packaged. He offers incisive readings of writers from Standish O'Grady to Trollope and Bowen; dissects the Irish government's commemoration of the 1798 uprising; and bitingly critiques the memoirs of Gerry Adams and Frank McCourt. Fittingly, as the acclaimed biographer of Yeats, Foster explores the poet's complex understanding of the Irish story--"the mystery play of devils and angels which we call our national history"--and warns of the dangers of turning Ireland into a historical theme park. *The Irish Story* will be hailed by some, attacked by others, but for all who care about Irish history and literature, it will be essential reading.

*Irish English* Syracuse University Press

*The Making of Ireland* by James Lydon provides an accessible history of Ireland from the earliest times. James Lydon recounts, in colourful detail, the waves of settlers, missionaries and invaders which have come to Ireland since pre-history and offers a long perspective on Irish history right up to the present time. This comprehensive survey includes discussion of the arrival of St. Patrick in the fifth century and Henry II in the twelfth, as well as that of numerous soldiers, traders and craftsmen through the ages. The author explores how these settlers have shaped the political and cultural climate of Ireland today. James Lydon charts the changing racial mix of Ireland through the ages which shaped the Irish nation. The author also follows Ireland's long and troubled entanglement with England from its beginning many centuries ago. *The Making of Ireland* offers a complete history in one volume. Through a predominantly political narrative, James Lydon provides a coherent and readable introduction to this vital complex history.

*The Making of Youghal* Oxford University Press

From the authors of *This Is Happiness* and *Her Name Is Rose*, a memoir of life in rural Ireland and a meditation on the power, beauty, and importance of the natural world. 35 years ago, when they

were in their twenties, Niall Williams and Christine Breen made the impulsive decision to leave their lives in New York City and move to Christine's ancestral home in the town of Kiltumper in rural Ireland. In the decades that followed, the pair dedicated themselves to writing, gardening, and living a life that followed the rhythms of the earth. In 2019, with Christine in the final stages of recovery from cancer and the land itself threatened by the arrival of turbines just one farm over, Niall and Christine decided to document a year of living in their garden and in their small corner of a rapidly changing world. Proceeding month-by-month through the year, and with beautiful seasonal illustrations, this is the story of a garden in all its many splendors and a couple who have made their life observing its wonders.

*Making the Irish American* Routledge

This groundbreaking book provides the first comprehensive study of the remaking of Ireland's aristocracy during the seventeenth century. It is a study of the Irish peerage and its role in the establishment of English control over Ireland. Jane Ohlmeyer's research in the archives of the era yields a major new understanding of early Irish and British elite, and it offers fresh perspectives on the experiences of the Irish, English, and Scottish lords in wider British and continental contexts. The book examines the resident peerage as an aggregate of 91 families, not simply 311 individuals, and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy. Tracking the impact of colonization, civil war, and other significant factors on the fortunes of the peerage in Ireland, Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite: making Ireland English.

*The Making of Ireland* Indiana University Press

This volume offers fresh perspectives on the political, military, religious, social, cultural, intellectual, economic, and environmental history of early modern Ireland and situates these discussions in global and comparative contexts. The opening chapters focus on 'Politics' and 'Religion and War' and offer a chronological narrative, informed by the re-interpretation of new archives. The remaining chapters are more thematic, with chapters on 'Society', 'Culture', and 'Economy and Environment', and often respond to wider methodologies and historiographical debates. Interdisciplinary cross-pollination - between, on the one hand, history and, on the other, disciplines like anthropology, archaeology, geography, computer science, literature and gender and environmental studies - informs many of the chapters. The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730. *The Oxford Handbook of the English Revolution* OUP Oxford

Challenges the argument that the English Pale was contracting during the early Tudor period.

*Irish Heart, English Blood* Princeton University Press

The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day. Interspersing narrative with detailed analysis of key themes, the first volume in *The Cambridge History of Ireland* presents the latest thinking on key aspects of the medieval Irish experience. The contributors are leading experts in their fields, and present their original interpretations in a fresh and accessible manner. New perspectives are offered on the politics, artistic culture, religious beliefs and practices, social organisation and economic activity that prevailed on the island in these centuries. At each turn the question is asked: to what extent were these developments unique to Ireland? The openness of Ireland to outside influences, and its capacity to influence the world beyond its shores, are recurring themes. Underpinning the book is a comparative, outward-looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe

*Ireland in crisis* Boydell Press

This is a book about Irish nationalism and how Irish nationalists developed their own conception of the Irish race. Bruce Nelson begins with an exploration of the discourse of race--from the nineteenth-century belief that "race is everything" to the more recent argument that there are no races. He focuses on how English observers constructed the "native" and Catholic Irish as uncivilized and savage, and on the racialization of the Irish in the nineteenth century, especially in Britain and the United States, where Irish immigrants were often portrayed in terms that had been applied mainly to enslaved Africans and their descendants. Most of the book focuses on how the Irish created their own identity--in the context of slavery and abolition, empire, and revolution. Since the Irish were a dispersed people, this process unfolded not only in Ireland, but in the United States, Britain, Australia, South Africa, and other countries. Many nationalists were determined to repudiate anything that could interfere with the goal of building a united movement aimed at

achieving full independence for Ireland. But others, including men and women who are at the heart of this study, believed that the Irish struggle must create a more inclusive sense of Irish nationhood and stand for freedom everywhere. Nelson pays close attention to this argument within Irish nationalism, and to the ways it resonated with nationalists worldwide, from India to the Caribbean.

*A History of Nationalism in Ireland* Taylor & Francis

*Spain and the Irish Mission, 1609-1707* examines Spanish confessional policy in 17th-century Ireland. Cristina Bravo Lozano provides an innovative perspective on Spanish-Irish relations during a crucial period for Early Modern European history. Key historical actors and events are brought to the fore in her account of the missionary networks created around the Irish Catholic exile in the Iberian Peninsula. She presents a comprehensive study of this form of royal patronage, the changes and challenges Irish Catholicism had to face after the peace of London (1604) and the role that Irish missionaries played in preserving its place within the framework of Anglo-Spanish relations.

*Making Ireland British, 1580-1650* OUP Oxford

*Women's Life Writing and Early Modern Ireland* provides an original perspective on both new and familiar texts in this first critical collection to focus on seventeenth-century women's life writing in a specifically Irish context. By shifting the focus away from England--even though many of these writers would have identified themselves as English--and making Ireland and Irishness the focus of their essays, the contributors resituate women's narratives in a powerful and revealing landscape. This volume addresses a range of genres, from letters to book marginalia, and a number of different women, from now-canonical life writers such as Mary Rich and Ann Fanshawe to far less familiar figures such as Eliza Blennerhassett and the correspondents and supplicants of William King, archbishop of Dublin. The writings of the Boyle sisters and the Duchess of Ormonde--women from the two most important families in seventeenth-century Ireland--also receive a thorough analysis. These innovative and nuanced scholarly considerations of the powerful influence of Ireland on these writers' construction of self, provide fresh, illuminating insights into both their writing and their broader cultural context.

*A Year in an Irish Garden* Cambridge University Press

"Most will find this book alone as satisfying as a plate of praties or an endearing tin-whistle tune." - *Foreword Magazine*"This lavish compendium looks at the Irish and America from a variety of perspectives." --USA Today"For anyone with the slightest interest in the history of Irish immigrants in America, Lee and Casey's book is a wonderful foundation on which to build a knowledge base."--*Northeast Book Reviews*"From the double-meaning of its title to its roster of impressive contributors, *Making the Irish American* is destined for the bookshelves of all readers who aim to keep up on Irish-American history." --*Irish America*"For the astute editorial selection of the number of general and somewhat specialized articles, expertise of the authors, and documentation in articles and appendices plus notes and biographies, *Making the Irish American* is a major text tying together this field of ethnic studies with American history and social history."--*Midwest Book Review**Irish America*- a land of pubs, politics, music, stories and St. Patrick's Day. But of course, it's also so much more....*Making the Irish American* is one of the most comprehensive books of its kind."--*NYU Today*"In *Making the Irish American*, editors J.J. Lee and Marion R. Casey have compiled an illustrated 700-page volume that traces the history of the Irish in the United States and shows the impact America has had on its Irish immigrants and vice versa. The book's 29 articles deal with various aspects of Irish-American life, including labor and unions, discrimination, politics, sports, entertainment and nationalism, as well as the future of Irish America. Among the contributors are Calvin Trillin, Pete Hamill, Daniel Patrick Moynihan and the editors." --*Associated Press*"This massive volume, copublish

*Irish and Indian Women's Writing in the Contemporary Era* Manchester University Press

The present volume contains a collection of essays to honour the enormous contribution by Professor Padraig A. Breatnach to learning in a diverse range of fields including Medieval Latin, Early Modern Irish, palaeography, literary history, eighteenth-century verse, and Modern Irish literature and language. The contributors engage with written material relating to early, medieval and modern Irish as well as with oral traditions in Gaelic-speaking areas of Ireland, Scotland and the Isle of Man. Cnuasach aisti ata curtha ar fail anseo in omos don Ollamh Padraig A. Breatnach, fear a bhfuil 'lorg na leabhar' go trom ar a chuid scoilareachta. Cuimsiann an t-abhar fein foinsi scriofa na Gaeilge on luathre anall go dti an treimhse chomhaimseartha chomh maith le foinsi beil Ghaeilge na hEireann, na hAlban agus Oilean Mhanann.

**British Interventions in Early Modern Ireland** Bloomsbury Publishing USA

The study of Irish history, once riven and constricted, has recently enjoyed a resurgence, with new practitioners, new approaches, and new methods of investigation. The Oxford Handbook of Modern Irish History represents the diversity of this emerging talent and achievement by bringing together 36 leading scholars of modern Ireland and embracing 400 years of Irish history, uniting early and late modernists as well as contemporary historians. The Handbook offers a set of scholarly perspectives drawn from numerous disciplines, including history, political science, literature, geography, and the Irish language. It looks at the Irish at home as well as in their migrant and

diasporic communities. The Handbook combines sets of wide thematic and interpretative essays, with more detailed investigations of particular periods. Each of the contributors offers a summation of the state of scholarship within their subject area, linking their own research insights with assessments of future directions within the discipline. In its breadth and depth and diversity, The Oxford Handbook of Modern Irish History offers an authoritative and vibrant portrayal of the history of modern Ireland.

**A Short History of Ireland, 1500-2000** Cambridge University Press

The crisis that befell Ireland in the 1640s has always fascinated historians. This volume of essays presents cutting-edge research on various aspects of the Irish wars, notably regionalism, the

nature of English interventions, popular politics and the problems of allegiance, authority and legitimacy in church and state. The chapters include studies of the earl of Cork in Munster, the earl of Clanricarde in Connacht and Lord Montgomery in Ulster, as well as the Confederate Catholic engagement with popular politics. The role of the marquess of Ormond, the Irish Parliament and the Church of Ireland are also examined in new ways, and the volume ends with a fresh look at the war of words between Oliver Cromwell and the Catholic Church. Ireland in crisis presents a very different view of the period that challenges existing assumptions. It will appeal to lecturers, students and the general reader.
