Just over one month ago, I was taken from my home, from my parents and everything I'd ever known. The reason? I'd killed three strangers. Not on purpose, you understand. It was an accident. But the government decided I was too dangerous to be kept around normal people. I now live at the Farkas Academy for Magical Advancement. I was told I'll be here for years. Until somebody decides I'm no longer a menace to society. My only solace are three boys who are as trapped as I am. But things are not as they seem. My survival may depend on figuring out quickly who to trust and who to run from at the Second Chance Academy." This is book one of the Second Chance Academy series, a #whychoose medium-burn novel with a HFN, a grumpy cat, and three men trapped by their past.

Garrett Strickland is unapologetically country, fiercely loyal, and perfectly happy with his job at the Hotchkiss Co-op. Garrett is all about living in the present and not dwelling in the past—even if he was once on his way to a lofty agricultural sciences degree that would guarantee the brightest of futures, only to end up back home when his old man died, leaving behind a debt-ridden family farm that was impossible to keep afloat. After that, it was easy to see why dreaming big wasn't worth the heartache. And until he crosses paths with a city girl who's hell-bent on kick-starting her own future, he's sure that good enough is just that. Cara Cavanaugh is ready for more from life, even if that means changing everything; including dumping her boyfriend of ten years, turning down a lucrative job at a major newspaper, and leaving behind the upscale suburbs of Chicago where she grew up. Now, she just has to pray that temporarily relocating to the middle of nowhere in Colorado will be the first step in building a career as a freelance journalist—all she has to do is prove she's got what it takes to make a name for herself. Unfortunately, her tony country day school is as close to "country" as she's ever been. But when a goodhearted guy who looks like he just stumbled out of a

country music video offers to help, she ends up falling hard...and discovering that the perfect story is a love story. And it's theirs. Second Chance Season, book two in the Grand Valley series, is a charming, feel-good romance, perfect for fans of Jennifer Probst and Kristan Higgins.

Sometimes we're lucky enough to get that second chance - in life and in love. That Second Chance Series are stand-alone stories of strong women who battle heartache and loss with a courage and determination to find new paths and true love. What ties them together? A common theme: belief in the beauty of that second chance. Paradise Found is Book Four of That Second Chance Series. How does one see truly—with the heart or with the eyes? Matt Brandon has it all—wealth, power, looks, and talent. Women want him; men want to be like him. When a freak ski accident strips him of one of life's most basic needs—his sight—he struggles to accept the possibility that his blindness may be permanent. Enter psychologist Sara Hamilton, a woman who has known her own share of grief and loss and may just be the one person who can help Matt redefine his new world. Sara is every woman's woman—she's not a toothpick or a Cosmo girl, has never been prom queen, or dated the blond-haired god with the big white teeth. She's honest and decent and real...and lives on the perimeter, applauding her patients' successes, nursing them through their failures, but never acknowledging or accepting what she lacks in her own life. She's loved and lost once and has been so emotionally scarred, she's not willing to risk those feelings again. Of course, she's never met a man like Matt Brandon. As Matt and Sara explore the

delicate balance between "blind" trust and hope, they will discover that sometimes you have to lose everything to find what you are truly looking for... NEW YORK TIMES BESTSELLER • The "compassionate" (People), "startling" (Baltimore Sun), "moving" (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his "Underrated" Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a

convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a *The Other Wes Moore* discussion guide.

He thinks he's too big for me. I like a challenge. On my 25th birthday, I received a letter. My mother had left me a piece of land in her will-- the farm I grew up on as a child. Her last request was that I restore it... and how could I say no? So I returned to my little town full of big memories. Nothing has changed here. Except for Grant Werther. When we were kids, I barely saw him. Now I can't miss him. The guy is HUGE; all muscle and beard, like some hardened mountain man. He's intimidating... and definitely sexy, in an alpha-male-cowboy kind of way. Turns out his dad owns part of my farm and he's got the papers to prove it. That means I can't do anything without Grant's approval. On top of that, this jerk says I'm too "city girl" to be here. And the way he openly stares at my ass in my cut-off jeans makes it clear what he thinks I'd be good at. He's the biggest man I've ever seen and I admit, I'm curious what he's hiding in his boxers. I didn't know he'd catch me peeking. Now he won't stop teasing me. He keeps saying I could never handle him, that he'd break me in two. I know I don't have to prove him wrong... But I want to.

With the appearance of *Grunch of Giants*, R. Buckminster Fuller consummates his literary canon, his panoramic lifetime survey of all aspects of the responsibility of human beings for their own destiny. This book is a modern allegory - his long-gestated myth-of the villainy of capitalism and the fecklessness of classic economics. For Fuller, the academic discipline of economics is irrelevant since it derives from an invalid assumption of scarcity. In fact, he has long argued that future historians of our era may subsume our business practices as a branch of mythology; thus it is not surprising that the word economic appears nowhere in his text. Fuller's myth is no idle fairy tale, since he faces his question - the question of a technological imperative which only he could raise with the deadly seriousness of satire. That question is: Can our system of national political sovereignties and corporate

profits survive the inevitable technology revolution require to obviate wars by effecting a worldwide rise in the standard of living. One of the functions of myth is to resolve contradictions in our culture. *Grunch of Giants* portrays the rising of multinational corporations in the paradoxical role of function both as the epitome of capitalistic selfishness and as the inadvertent vehicle for the dissolution of national political boundaries - the last deterrent to a one-world economy. The result is more subversive of the property and profit values of the capitalist system than anything dreamed of since Karl Marx.

A former parole officer shines a bright light on a huge yet hidden part of our justice system through the intertwining stories of seven parolees striving to survive the chaos that awaits them after prison in this illuminating and dramatic book. Prompted by a dead-end retail job and a vague desire to increase the amount of justice in his hometown, Jason Hardy became a parole officer in New Orleans at the worst possible moment. Louisiana's incarceration rates were the highest in the US and his department's caseload had just been increased to 220 "offenders" per parole officer, whereas the national average is around 100. Almost immediately, he discovered that the biggest problem with our prison system is what we do—and don't do—when people get out of prison. Deprived of social support and jobs, these former convicts are often worse off than when they first entered prison and Hardy dramatizes their dilemmas with empathy and grace. He's given unique access to their lives and a growing recognition of their struggles and takes on his job with the hope that he can change people's fates—but he quickly learns otherwise. The best Hardy and his colleagues can do is watch out for impending disaster and help clean up the mess left behind. But he finds that some of his charges can muster the miraculous power to save themselves. By following these heroes, he both stokes our hope and fuels our outrage by showing us how most offenders, even those with the best intentions, end up back in prison—or dead—because the system systematically fails them. Our

focus should be, he argues, to give offenders the tools they need to re-enter society which is not only humane but also vastly cheaper for taxpayers. As immersive and dramatic as *Evicted* and as revelatory as *The New Jim Crow*, *The Second Chance Club* shows us how to solve the cruelest problems prisons create for offenders and society at large. *First Love, Second Chance & Temperatures Rising* Simon & Schuster
