JULISSA JESSIE

Kenya Gazette Notion Press

"Probably the best book on living with anxiety that I've ever read" Mark Manson, bestselling author of *The Subtle Art of Not Giving a F*ck* Sarah Wilson is a New York Times and Amazon #1 bestselling author, entrepreneur and philanthropist. She's the founder of IQuitSugar.com, whose 8-Week Program has been completed by 1.5 million people in 133 countries. A former news journalist and editor of *Cosmopolitan*, she was the host of the first series of *MasterChef Australia* and is the author of the international bestsellers *first, we make the beast beautiful*, *I Quit Sugar: Simplicious*, *I Quit Sugar* and *I Quit Sugar For Life*. Her latest book is *I Quit Sugar: Simplicious Flow*. She is ranked as one of the top 200 most influential authors in the world. Sarah blogs in an intimate fashion - on philosophy, anxiety, minimalism and anti-consumerism - at sarahwilson.com, lives in Sydney, Australia, rides a

bike everywhere, is a compulsive hiker and is eternally curious. In *first, we make the beast beautiful*, Sarah directs her intense focus and fierce investigatory skills onto this lifetime companion of hers, looking at the triggers and treatments, the fashions and fads. She reads widely and interviews fellow sufferers, mental health experts, philosophers, and even the Dalai Lama, processing all she learns through the prism her own experiences. Sarah pulls at the thread of accepted definitions of anxiety, and unravels the notion that it is a difficult, dangerous disease that must be medicated into submission. Ultimately, she re-frames anxiety as a spiritual quest rather than a burdensome affliction, a state of yearning that will lead us closer to what really matters. Practical and poetic, wise and funny, this is a small book with a big heart. It will encourage the myriad sufferers of the world's most common mental illness to feel not just better about their condition, but delighted by the possibilities it offers for a richer, fuller life. MORE PRAISE FOR

FIRST, WE MAKE THE BEAST BEAUTIFUL "at once a nomadic journey, a cri de coeur and a compendium of hard-won wisdom ..." Professor Patrick McGorry AO MD PhD FRCP FRANZCP FAA FASSA, 2010 Australian of the Year "A witty, well-researched and often insightful book about negotiating a new relationship with anxiety." Andrew Solomon, Professor of Clinical Psychology and author of *The Noonday Demon: An Anatomy of Depression* **Man-made Catastrophes and Risk Information Concealment** Chicago Review Press Ronny Mintjens, linguist, teacher, and professional football coach, needed to find a way to really see the world, something deeper than mere tourism. Leaving the comfort and familiarity of his own European life, Mintjens decided to pursue his love of professional sports and exotic cultures all at once. He began coaching football at clubs all across Africa. Beginning in southern and then moving on to eastern Africa, Mintjens soon realized that there was more to professional football than simply training and

winning matches. Trying to find ways to make a true mark on the game, Mintjens travelled from one club to the next. Each club, from Mount Kilimanjaro and the Serengeti Plains to Table Mountain and the Cape of Good Hope, held its own surprises and boasted its own strengths and weaknesses. In the end, each had its own lessons on the intricate weaving of African culture and heritage. Leave your life behind and dive into the exotic world of African sports with this fascinating tale of an ambitious foreigner and his deep journey to understand football as a way of life in the African football club. In this relatively unknown part of the world, football is certainly more than a game.

The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several

decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others? Written to inform The United States Department of Transportation's National Highway Traffic

Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential efficiency improvements, and barriers to commercial deployment of technologies that might be employed from 2020 to 2030. This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017-2025 CAFE standards.

On January 1st 2016, author Jerry Hyde - 'the most dangerous therapist in the world' - set out on a year-long adventure into the murky underworld of Sin with one objective in mind...to save the world. Join Hyde on an exhilarating journey through hope, despair, love and loss made all the more twisted by daily microdoses of psilocybin mushrooms. Listen in on conversations with such disparate and at times desperate characters as national treasure Grayson Perry, tantric chieftain Shivam O'Brien, Mem the Mad Sufi and LSD blotter designer Kevin Barron. The Book of Sin is not a self-help book. It's a do-it-yourself-help book. Read on if you want a better understanding of how to live life by your own rules, and how to make the world a better, safer, richer and more peaceful place.

A deadly virus is stolen

from a lab in Zimbabwe and hours later, bodies begin dropping in neighboring Botswana under very strange and unknown circumstances. Garikai, a semi-retired Zimbabwean spy living in Gaborone, is roped in to track and retrieve the virus. It seems like it would be a straight forward proposition: track down a group of disgruntled scientists with a bone to chew against their government and take back what belongs to his country. Simple, that is, until bazookas start going off and Garikai gets more than he bargained for. While Tsholofelo, a senior detective of the Botswana Police Service, is on the case for her country, Garikai is forced to improvise to stay ahead of an assassin's bullet or scientist's syringe. Garikai and Tsholo, an unlikely pair, are forced to team up and together, they uncover a truth that will shake both nations to their cores.

Management Control Systems helps students to develop the insight and analytical skills required of today's managers. Students uncover how real-world managers design, implement and use planning and control systems to implement business strategies. The first European edition is specifically aimed at an international audience and it has been thoroughly updated to include the latest developments in the field.

Swords of Exodus
The Last Warlord tells the story of the brotherhood forged in the mountains of Afghanistan between elite American Green Berets and Dostum that is told in the movie 12 Strong: The Declassified True Story of

the Horsesoldiers The Last Warlord tells the spellbinding story of the legendary Afghan warlord Abdul Rashid Dostum, a larger-than-life figure who guided US Special Forces to victory over the Taliban after 9/11. Having gained unprecedented access to General Dostum and his family and subcommanders, as well as local chieftains, mullahs, elders, Taliban prisoners, and women's rights activists, scholar Brian Glyn Williams paints a fascinating portrait of this Northern Alliance Uzbek commander who has been shrouded in mystery and contradicting hearsay. In contrast to sensational media accounts that have mythologized the "bear of a man with a gruff laugh" who "some Uzbeks swear, has on occasion frightened people to death," Williams carefully chronicles Dostum's rise from peasant villager to Uzbek leader and skilled strategist who has fought a long and bitter war against the Taliban and Al Qaeda fanatics that have sought to repress his people. Also revealed is Dostum's surprising history as a defender of women's rights and religious moderation. In riveting detail The Last

Warlord spotlights the crucial Afghan contribution to Operation Enduring Freedom: how the CIA contacted the mysterious warrior Dostum to help US Special Forces wage a covert war in the mountains of Afghanistan, how respect and even friendship quickly grew between the Afghan and American fighting men, and how Dostum led his nomadic people charging into war the same way his ancestors had—on horseback. The result was one of the most decisive campaigns in the entire war on terror. The Last Warlord shows that, far from serving as an exotic backdrop for American heroics, it was these horse-mounted descendents of the Mongol warrior Genghis Khan that allowed the American military to overthrow the Taliban regime in a matter of weeks. .
