 Excerpt from *Studies in Hebrew Synonyms In English*, as yet, comparatively little has been published. The *Hebrew Review* for 1835-36 contains some short but helpful notes. Valuable hints may be gained from the laborious lexicon 9 by Canon W. Wilson, Of Winchester, though his remarks cannot always be justified. The brochures of E. G. King 1 and A. W. Hands u are rather prefatory and inconclusive. But valuable results are given in the work Of Canon R. B. Girdlestone,12 despite undue deference shown to the Septuagint. grammatical knowledge, and philological acumen, to the study of older classical Hebrew texts, including literary and epigraphic texts. This volume presents studies of individual words and verses within the Bible, as well as broader thematic discussions of biblical language and its long reception-history, down through medieval scribes and modern lexicographers . Also represented are Bar-Asher's penetrating studies of Qumran texts and languages, which illuminate both the linguistic traditions reflected in these texts and the scribal culture from which they emerged. The third section contains studies of Mishnaic Hebrew. There are both sweeping surveys of the field and its accomplishments and challenges, and studies of specific phonological, morphological, syntactic and lexical features. *Essays on the Spiritual Unity of Life* Forgotten Books A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature. The Garden of Eden story, one of the most famous narratives in Western history, is typically read as an ancient account of

original sin and humanity's fall from divine grace. In this highly innovative study, Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text. Drawing on such diverse disciplines as biblical studies, geography, archaeology, mythology, anthropology, biology, poetics, law, linguistics, and literary theory, he clarifies the worldview of the ancient

Israelite readers during the First Temple period and elucidates what the story likely meant in its original context. Most provocatively, he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism. He shows how, for ancient Israelites, the story was really about how humans achieved ethical discernment. He argues

further that Adam was not made from dust and that Eve was not made from Adam's rib. His study unsettles much of what has been taken for granted about the story for more than two millennia—and has far-reaching implications for both literary and theological interpreters. "Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist. He knows all the hidden

subtleties of the instrument, and he makes you hear them in this rendition of the profoundly simple story of Adam, Eve, the Serpent, and their Creator in the Garden of Eden. Zevit brings a great deal of other biblical learning to bear in a surprisingly light-hearted book.”—Jack Miles, author of *God: A Biography*
