Fourth-grader Calvin lives near the beach in Oahu with his mom and little sister. Mom says: "You're the man of the house." But Calvin's not great at being the man of the house, or taking care of his responsibilities. He's too busy having fun with his pals, and avoiding Tito, the bully. *Trouble Magnet* is the first book in a new series for younger readers full of all the fun of growing up in Hawaii. It introduces a wonderful multicultural cast of characters, including Mr. Purdy, who calls his fourth-grade class *Boot Camp*; Uncle Scoop, who runs the lunch wagon at the beach; Ledward, Mom's 6'7" boyfriend; and gorgeous, intimidating, 15-year-old Stella-from-Texas, who arrives to be the live-in babysitter—and to step all over Calvin's turf.

Magnet Max loves experimenting with magnets. He knows all about how they work and loves using them to attract new types of things. But when he shows them to his friend Nick, the other boy is baffled. Will magnets stick to a paperclip? A refrigerator? A horse? How do they work, anyway? It must be magic! Join Max and Nick as they explore the science behind the magic. Discover which objects are attracted and why some are while others aren't. In *Magnet Max*, Monica Hughes uses her experience as an educator to explain scientific concepts in clear, easy-to-follow language. Catchy rhymes and the colorful illustrations of Holly Weinstein add to the fun. Watch your children's curiosity come to life as they explore the wonders of magnetism with *Magnet Max!*
