JASE SIDNEY

Hokusai's Great Wave
Public Affairs
Finalist for the 2011
Pulitzer Prize in General
Nonfiction: "Nicholas Carr
has written a Silent Spring
for the literary
mind."—Michael Agger,

Slate "Is Google making
us stupid?" When Nicholas
Carr posed that question,
in a celebrated Atlantic
Monthly cover story, he
tapped into a well of
anxiety about how the
Internet is changing us.
He also crystallized one of
the most important
debates of our time: As
we enjoy the Net's
bounties, are we
sacrificing our ability to

read and think deeply?
Now, Carr expands his
argument into the most
compelling exploration of
the Internet's intellectual
and cultural
consequences yet
published. As he
describes how human
thought has been shaped
through the centuries by
"tools of the mind"—from
the alphabet to maps, to
the printing press, the

clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr

makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and

consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne

contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

The American Yawp

BoD – Books on Demand Classic Books Library presents this brand new edition of the short story, “An Occurrence at Owl Creek Bridge” (1890) by Ambrose Bierce. In this text Bierce creatively uses both structure and

content to explore the concept of time, from present to past, and reflecting its transitional and illusive qualities. The story is one of Bierce’s most popular and acclaimed works, alongside “The Devil’s Dictionary” (1911). Bierce (1842-c. 1914) was an American writer, journalist and Civil War veteran associated with the realism literary movement. His writing is noted for its cynical, brooding tones and structural precision.

Romiette and Julio

HarperCollins
Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.
Unbroken Brain John Wiley & Sons
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah Magazine • Financial Times • Kansas City Star • BookPage • Kirkus Reviews • Publishers

Weekly • Booklist NEW YORK TIMES BESTSELLER
 “A stunner.”—Justin Cronin “It’s never the disasters you see coming that finally come to pass—it’s the ones you don’t expect at all,” says Julia, in this spellbinding novel of catastrophe and survival by a superb new writer. Luminous, suspenseful, unforgettable, *The Age of Miracles* tells the haunting and beautiful story of Julia and her family as they struggle to live in a time of extraordinary change. On an ordinary Saturday

in a California suburb, Julia awakes to discover that something has happened to the rotation of the earth. The days and nights are growing longer and longer; gravity is affected; the birds, the tides, human behavior, and cosmic rhythms are thrown into disarray. In a world that seems filled with danger and loss, Julia also must face surprising developments in herself, and in her personal world—divisions widening between her parents, strange behavior by her friends, the pain and

vulnerability of first love, a growing sense of isolation, and a surprising, rebellious new strength. With crystalline prose and the indelible magic of a born storyteller, Karen Thompson Walker gives us a breathtaking portrait of people finding ways to go on in an ever-evolving world. “Gripping drama . . . flawlessly written; it could be the most assured debut by an American writer since Jennifer Egan’s *Emerald City*.”—*The Denver Post* “Pure magnificence.”—Nathan

Englander “Provides solace with its wisdom, compassion, and elegance.”—Curtis Sittenfeld “Riveting, heartbreaking, profoundly moving.”—Kirkus Reviews (starred review) Look for special features inside. Join the Circle for author chats and more.

The Age of Miracles

Hodder Education
Hacking Leadership is Mike Myatt's latest leadership book written for leaders at every level. Leadership isn't broken, but how it's currently being practiced certainly

is. Everyone has blind spots. The purpose of Hacking Leadership is to equip leaders at every level with an actionable framework to identify blind spots and close leadership gaps. The bulk of the book is based on actionable, topical leadership and management hacks to bridge eleven gaps every business needs to cross in order to create a culture of leadership: leadership, purpose, future, mediocrity, culture, talent, knowledge, innovation, expectation, complexity,

and failure. Each chapter: Gives readers specific techniques to identify, understand, and most importantly, implement individual, team and organizational leadership hacks. Addresses blind spots and leverage points most leaders and managers haven't thought about, which left unaddressed, will adversely impact growth, development, and performance. All leaders have blind-spots (gaps), which often go undetected for years or decades, and sadly, even

when identified the methods for dealing with them are outdated and ineffective – they need to be hacked. Showcases case studies from the author's consulting practice, serving as a confidant with more than 150 public company CEOs. Some of those corporate clients include: AT&T, Bank of America, Deloitte, EMC, Humana, IBM, JP Morgan Chase, Merrill Lynch, PepsiCo, and other leading global brands. Hacking Leadership offers a fresh perspective that makes it

easy for leaders to create a roadmap to identify, refine, develop, and achieve their leadership potential--and to create a more effective business that is financially solvent and professionally desirable.

The Black Cat Center for Social Studies Educ
A NEW YORK TIMES
BESTSELLER More people than ever before see themselves as addicted to, or recovering from, addiction, whether it be alcohol or drugs, prescription meds, sex, gambling, porn, or the

internet. But despite the unprecedented attention, our understanding of addiction is trapped in unfounded 20th century ideas, addiction as a crime or as brain disease, and in equally outdated treatment. Challenging both the idea of the addict's "broken brain" and the notion of a simple "addictive personality," *The New York Times* Bestseller, *Unbroken Brain*, offers a radical and groundbreaking new perspective, arguing that addictions are learning disorders and shows how

seeing the condition this way can untangle our current debates over treatment, prevention and policy. Like autistic traits, addictive behaviors fall on a spectrum -- and they can be a normal response to an extreme situation. By illustrating what addiction is, and is not, the book illustrates how timing, history, family, peers, culture and chemicals come together to create both illness and recovery- and why there is no "addictive personality" or single treatment that works for

all. Combining Maia Szalavitz's personal story with a distillation of more than 25 years of science and research, *Unbroken Brain* provides a paradigm-shifting approach to thinking about addiction. Her writings on radical addiction therapies have been featured in *The Washington Post*, *Vice Magazine*, *The Wall Street Journal*, and *The New York Times*, in addition to multiple other publications. She has been interviewed about her book on many radio

shows including *Fresh Air* with Terry Gross and *The Brian Lehrer show*.

The Veldt Xist Publishing
Ray Bradbury [RL 6 IL 7-12] The nursery of the Hadleys ultra- modern HappyLife Home transforms itself into a sinister African veldt. Theme: technology out of control. 42 pages. Tale Blazers.

The Great Gatsby W. W. Norton & Company
This report summarizes the results of an ambitious three-year ethnographic study, funded by the John D. and

Catherine T. MacArthur Foundation, into how young people are living and learning with new media in varied settings—at home, in after school programs, and in online spaces. It offers a condensed version of a longer treatment provided in the book *Hanging Out, Messing Around, and Geeking Out* (MIT Press, 2009). The authors present empirical data on new media in the lives of American youth in order to reflect upon the relationship between new

media and learning. In one of the largest qualitative and ethnographic studies of American youth culture, the authors view the relationship of youth and new media not simply in terms of technology trends but situated within the broader structural conditions of childhood and the negotiations with adults that frame the experience of youth in the United States. The book that this report summarizes was written as a collaborative effort by members of the Digital

Youth Project, a three-year research effort funded by the John D. and Catherine T. MacArthur Foundation and conducted at the University of California, Berkeley, and the University of Southern California. John D. and Catherine T. MacArthur Reports on Digital Media and Learning

**AQA A-level Psychology

John Wiley & Sons
"The Machine Stops" by E.M. Forster, now presented in a beautifully illustrated edition, is a

visionary and thought-provoking novella that explores the perils of technological dependency and the potential consequences of a society overly reliant on machines. Set in a future where humanity lives underground, isolated in individual cells, their every need attended to by an all-encompassing Machine, the story follows Vashti, a lecturer and true believer in the Machine's omnipotence. However, as the Machine begins to show signs of malfunction, Vashti's worldview is

challenged, leading to a series of events that question the very foundations of her society. "The Machine Stops" remains a compelling exploration of the dangers of sacrificing human connections for the convenience of technology. This illustrated edition provides a fresh perspective on Forster's timeless work, making it an engaging and visually captivating experience for both new and returning readers. The Other Wes Moore

HarperCollins
"In *Glow Kids*, Dr. Nicholas Kardaras will examine how technology-- more specifically, age-inappropriate screen tech, with all of its glowing ubiquity-- has profoundly affected the brains of an entire generation. Brain imaging research is showing that stimulating glowing screens are as dopaminergic (dopamine activating) to the brain's pleasure center as sex. And a growing mountain of clinical research correlates screen tech with disorders like ADHD,

addiction, anxiety, depression, increased aggression, and even psychosis. Most shocking of all, recent brain imaging studies conclusively show that excessive screen exposure can neurologically damage a young person's developing brain in the same way that cocaine addiction can"--

Teaching the Short Story MIT Press

Since its publication in 1985, the "MLA Style Manual" has been the standard guide for

graduate students, teachers, and scholars in the humanities and for professional writers in many fields. Extensively reorganized and revised, the new edition contains several added sections and updated guidelines on citing electronic works--including materials found on the World Wide Web. *Dulce Et Decorum Est* Stanford University Press
Edgar Allan Poe's "The Black Cat" is a short story that explores themes of guilt and perversity. The narrator, haunted by cruelty to his black cat

and acts of domestic violence, is consumed by paranoia and madness. His attempt to conceal a crime leads to his own disgrace.

How It Feels to be Colored Me Macmillan

My new friends have begun to suspect I haven't told them the full story of my life. "Why did you leave Sierra Leone?" "Because there is a war." "You mean, you saw people running around with guns and shooting each other?" "Yes, all the time." "Cool." I smile a little. "You should tell us

about it sometime.” “Yes, sometime.” This is how wars are fought now: by children, hopped-up on drugs and wielding AK-47s. Children have become soldiers of choice. In the more than fifty conflicts going on worldwide, it is estimated that there are some 300,000 child soldiers. Ishmael Beah used to be one of them. What is war like through the eyes of a child soldier? How does one become a killer? How does one stop? Child soldiers have been profiled by journalists, and

novelists have struggled to imagine their lives. But until now, there has not been a first-person account from someone who came through this hell and survived. In *A Long Way Gone*, Beah, now twenty-five years old, tells a riveting story: how at the age of twelve, he fled attacking rebels and wandered a land rendered unrecognizable by violence. By thirteen, he’d been picked up by the government army, and Beah, at heart a gentle boy, found that he was capable of truly terrible

acts. This is a rare and mesmerizing account, told with real literary force and heartbreaking honesty. [MLA Style Manual and Guide to Scholarly Publishing](#) Allyn & Bacon Explores 175 short stories from 50 countries including information about the author and a synopsis of the story. Includes indexes on suggested comparisons - themes and literary devices. [The Ones Who Walk Away from Omelas](#) Librofilio *Bartleby, the Scrivener: A Story of Wall Street* is a

short story by Herman Melville about a strange man with a strange phrase: "I would prefer not to." This American short story is now one of the most famous of American short stories and has been adapted into many variations. This Xist Classics edition has been professionally formatted for e-readers with a linked table of contents. This eBook also contains a bonus book club leadership guide and discussion questions. We hope you'll share this book with your friends,

neighbors and colleagues and can't wait to hear what you have to say about it. Xist Publishing is a digital-first publisher. Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading, no matter what form it takes
Animals Nobody Loves
 Learning Express (NY)
 Be transported into dystopian cities and alternate universes. Hang out with unicorns, cyborgs and pixies. Learn how to

waltz in outer space. Be amazed and beguiled by a fairy tale with an unexpected twist, a futuristic take on a TV cooking show, and a playscript with tentacles. In other words, get ready for a wild ride! This collection of sci-fi and fantasy writing, including six graphic stories, showcases twenty of the most exciting writers and artists from India and Australia, in an all-female, all-star line-up! Published by Zubaan.
[A modest proposal](#) St. Martin's Press

In 26 giant photographs—of a roaring grizzly, a piranhas razor-sharp teeth, a rattlesnakes poisonous fangs—Seymour Simon reveals the truth about natures most misunderstood animals and lets the reader decide what to really think about natures grossest, fiercest, and most fascinating survivors.

The American Yawp

Modern Library

The acclaimed author of *Their Eyes Were Watching God* relates her experiences as an African

American woman in early-twentieth-century America. In this autobiographical essay, author Zora Neale Hurston recounts episodes from her childhood in different communities in Florida: Eatonville and Jacksonville. She reflects on what those experiences showed her about race, identity, and feeling different. “How It Feels to Be Colored Me” was originally published in 1928 in the magazine *The World Tomorrow*.

Glow Kids Random House

Do you feel the soul of another calling to you? Do you know in your heart that your destiny and his were meant to merge In the cosmos? We can help you find him. When Romiette Cappelle and her best friend, Destiny, decide to order The Scientific Soul Mate System from the back of Heavy Hunks magazine, they're not sure what they're getting into. But Destiny, a self-proclaimed psychic, assures Romi that for \$44.99 plus shipping and handling, it's the only way they're ever

going to find out who their soul mates really are. If nothing else, maybe Romi will get some insight into that recurring dream she's been having about fire and water. But they never expect that the scented candle and tube of dream ointment will live up to their promises and merge Romiette's destiny with that of Julio Montague, a boy she's just met in the "cosmos" of an Internet chat room. It turns out they go to the

same high school, not to mention having almost the same names as Shakespeare's famous lovers! Sweet-scented dreams of Julio have almost overtaken Romi's nightmares... ...when suddenly they return, but this time in real life. It seems the Devildogs, a local gang, violently oppose the relationship of Romiette and Julio. Soon they find themselves haunted by the purple-clad shadows of the gang, and the fire and water of

Romiette's dream merge in ways more terrifying -- and ultimately more affirming -- than even Destiny could have foreseen.
