English Swahili Dictionary Simon and Schuster  
 Betrayal in the City, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.  
**(tamthilia ya Timothy M. Arege)** Taylor & Francis  
 Linguists estimate that there are currently nearly 2,000 languages in Africa, a staggering figure that is belied by the relatively few national languages. While African national politics, economics, and law are all conducted primarily in the colonial languages, the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects, making language itself the center of debates over multiculturalism, gender studies, and social theory. In The Power of

Babel, the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language. The Power of Babel is one of the first comprehensive studies of the complex linguistic constellations of Africa. It draws on Ali Mazrui's earlier work in its examination of the "triple heritage" of African culture, in which indigenous, Islamic, and Western traditions compete for influence. In bringing the idea of the triple heritage to language, the Mazruis unravel issues of power, culture, and modernity as they are embedded in African linguistic life. The first section of the book takes a global perspective, exploring such issues as the Eurocentrism of much linguistic scholarship on Africa; part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language policy and democratic development; the third section presents a set of regional studies, centering on the Swahili language's exemplification of the triple heritage. The Power of Babel unites empirical information with theories of nationalism and pluralism—among others—to offer the richest contextual account of African languages to date.

*Essays on Language, Communication and Literature in Africa* explores language choice questions, together with domain-driven lingua-communicative and literary resources situated within the discourses of law, culture, medicine, visual art, politics, the media, music and literature in Africa. It identifies the distinctive African paraphernalia of these discourses, and foregrounds their real-world and mediated cultural and societal values, and highlights the Western presence through the inclusion of aspects of Shakespearean perspectives which bear universal tidings and speak to the African gender tradition. The chapters' attention to verbal and visual artistic communicative mechanisms underlines such engagements as multilingualism policies, socio-political declension, social dynamism and cultural interventions that characterise the African setting. These realities are discussed in impressive detail, authoritative scholastic depth and effective stylistic tones that reflect the authors' familiarity with the facets of African societies deducible from language, communication and literature.

This volume traces the theme of the loss of language and culture in numerous post-colonial contexts. It establishes that the aphasia imposed on the indigenous is but a visible symptom of a deeper malaise — the mismatch between the symbiotic relation nurtured by the indigenous with their environment and the idea of development put before them as their future. The essays here show how the cultures and the imaginative expressions of indigenous communities all over the world are undergoing a phase of rapid depletion. They unravel the indifference of market forces to diversity and that of the states, unwilling to protect and safeguard these marginalized communities. This book will be useful to scholars and researchers of cultural and literary studies, linguistics, sociology and social anthropology, as well as tribal and indigenous studies.

Reality is deadly when you go off script. Bliss Island seems like an idyllic place to live - especially to the people suffering on the war-torn mainland. What's not so idyllic about Bliss is the fact that the Island is a set, and everyone's life is a performance; they're all stars of a hit reality TV show, *Blissful Days*. Characters on the show think they're better off on Bliss than the mainland, but they're always in danger of being cut if their ratings dip too low. And no one really knows what happens to cut characters. Nettie Starling has never had great ratings, so it seems lucky when a producer offers suggestions to help her improve. But she'll soon have to decide how far she'll go to preserve her ratings ... especially when she learns what could happen to her if she doesn't.

A dazzling short story collection from the person Chimamanda Ngozi Adichie calls "one of the greatest writers of our time" Ngũgĩ wa Thiong'o, although renowned for his novels, memoirs, and plays, honed his craft as a short story writer. From "The Fig Tree," written in 1960, his first year as an undergraduate at Makerere University College in Uganda, to the playful "The Ghost of Michael Jackson," written as a professor at the University of California, Irvine, these collected stories reveal a master of the short form. Covering the period of British colonial rule and resistance in Kenya to the bittersweet experience of independence—and including two stories that have never before been published in the United States—Ngũgĩ's collection features women fighting for their space in a patriarchal society, big men in their Bentleys who have inherited power from the British, and rebels who still embody the fighting spirit of the downtrodden. One of Ngũgĩ's most beloved stories, "Minutes of Glory," tells of Beatrice, a sad but ambitious waitress who fantasizes about being feted and lauded over by the middle-class clientele in the city's beer halls. Her dream leads her on a witty and heartbreaking adventure. Published for the first time in America, *Minutes of Glory and Other Stories* is a major literary event that celebrates the storytelling might of one of Africa's best-loved writers.
