Deep as the Marrow Random House
From the author of Jurassic Park, Timeline, and Congo comes a psychological thriller about a group of scientists who investigate a spaceship discovered on the ocean floor. In the middle of the South Pacific, a thousand feet below the surface, a huge vessel is unearthed. Rushed to the scene is a team of American scientists who descend together into the depths to investigate the astonishing discovery.

What they find defies their imaginations and mocks their attempts at logical explanation. It is a spaceship, but apparently it is undamaged by its fall from the sky. And, most startling, it appears to be at least three hundred years old, containing a terrifying and destructive force that must be controlled at all costs.

Rising Sun Harper Collins
"ER has become the most successful television series in the world since CHARLIE'S ANGELS. Michael Crichton created the series from his own experiences as a medical doctor in the emergency rooms, operating rooms and

wards of Massachusetts General Hospital. FIVE PATIENTS is Michael Crichton's true account of the real life dramas so vividly portrayed in ER. A construction worker is seriously injured in a scaffold collapse- a middle-aged despatcher is brought in suffering from a fever that has reduced him to a delirious wreck; a young man nearly severs his hand in an accident; an airline traveller suffers chest pains; a mother of three is diagnosed with a life-threatening disease."

How to Think about Computers Vintage
From the bestselling author of Jurassic Park, Timeline, and Sphere comes a

gripping thriller about the shocking demise of eight American geologists in the darkest region of the Congo. Deep in the African rain forest, near the ruins of the Lost City of Zinj, a field expedition is brutally killed. At the Houston-based Earth Resources Technology Services, Inc., a horrified supervisor watches a gruesome video transmission of that ill-fated group and sees a haunting, grainy, man-like blur moving amongst the bodies. In San Francisco, an extraordinary gorilla named Amy, who has a 620-sign vocabulary, may hold the secret to that fierce carnage. Immediately, a new expedition is sent to the Congo with Amy in tow, descending into a secret, forbidden world where the only escape may be through the grisliest death.

Jurassic Park Penguin Group Australia
From the bestselling author of Jurassic Park, Timeline, and Sphere comes a deeply personal memoir full of fascinating adventures as he travels everywhere from the Mayan pyramids to Kilimanjaro. Fueled by a powerful curiosity—and by a need to see, feel, and hear, firsthand and close-up—Michael Crichton's journeys have carried him into worlds diverse and

compelling—swimming with mud sharks in Tahiti, tracking wild animals through the jungle of Rwanda. This is a record of those travels—an exhilarating quest across the familiar and exotic frontiers of the outer world, a determined odyssey into the unfathomable, spiritual depths of the inner world. It is an adventure of risk and rejuvenation, terror and wonder, as exciting as Michael Crichton's many masterful and widely heralded works of fiction.

A Novel BenBella Books

Was it murder? Was it horribly botched surgery - accidental malpractice? Was someone in the great Boston medical centre -violating the Hippocratic oath? No one knows exactly. . . The New York Times–bestselling author of The Select “combines medical and political intrigue into one explosive, warp-speed thriller” (Douglas Preston). To end the war on drugs, the president of the United States decides to legalize narcotics—and tax them heavily. Some think he’s crazy. Others want him dead. The president’s personal physician, John Van Dyne, took an oath to do no harm, but after a Colombian drug lord kidnaps his six-year-old daughter, he’s forced to do the unthinkable to save her: poison the president.

Eaters of the Dead Open Road Media

An agent races to stop a chemical attack in this thriller from the #1 New York Times–bestselling author of The Andromeda Strain and Jurassic Park. His name is John Wright, and he’s the most dangerous man in the United States. A

millionaire radical with a deep hatred for everything America stands for, he has concocted a scheme that will shatter the very foundation of our democracy—and he's just crazy enough to pull it off. The only man who can stop him is John Graves, an embittered federal agent whose mission in life is to destroy Wright. He'll get his chance—or America will burn. A train races across the Utah desert, carrying a shipment of the deadliest nerve gas known to man. Seven mobsters stop the train, steal the gas, and hand it over to Wright. His target? The Republican National Convention in San Diego, where unleashing the gas will kill one million honest citizens, including the US president. Graves has just one shot to stop Wright—and for the sake of democracy, he'd better not miss. From “the master of the sci-tech thriller,” this is a terrifying high-speed novel that will keep you on the edge of your seat from beginning to end (Booklist). This ebook features an illustrated biography of Michael Crichton including rare images from the author's estate.

Propelling the reader back and forth between the 1940s, 1960s and 1980s, *The Silent Listener* is an unforgettable literary suspense novel set in the dark, gothic heart of rural Australia. In the cold, wet summer of 1960, 11-year-old Joy Henderson lives in constant fear of her father. She tries to make him happy but, as he keeps reminding her, she is nothing but a filthy sinner destined for Hell . . . Yet, decades later, she returns to the family's farm to nurse him on his death bed. To her surprise, her 'perfect' sister Ruth is also there, whispering dark words, urging revenge. Then the day after their father finally confesses to a despicable crime, Joy finds him dead - with a belt pulled tight around his neck . . . For Senior Constable Alex Shepherd, investigating George's murder revives memories of an unsolved case still haunting him since that strange summer of 1960- the disappearance of nine-year-old Wendy Boscombe. As seemingly impossible facts surface about the Hendersons - from the past and the present - Shepherd suspects that Joy is pulling him into an intricate web of lies

and that Wendy's disappearance is the key to the bizarre truth. **** 'A book that should be atop of everyone's reading list. The prose is spectacular, and the characters so richly imagined. This is a novel about inherited violence and redemption packaged as a cracking psychological thriller.' J. P. Pomare, author of Call Me Evie 'Intense, intricate, emotionally devastating. This is proper Australian gothica.' Liam Pieper, author of Sweetness and Light 'Totally addictive.' Books+Publishing 'A cracking thriller with heart. It intrigues, it twists and turns, it deftly combines the muddy domestic details of life on a Victorian farm with a black, Gothic sensibility of lies and violence and the heartbreaking fantasy world of a young child.' Jane Sullivan 'A heartbreaking, terrifying and stunningly accomplished novel that had me holding my breath. Yeowart instantly pulled me into the life of a rural family dominated by an angry, insecure despot from its unnerving beginnings to its shocking end.' Kirsten Alexander, author of Half Moon Lake 'Steeped in atmosphere and with taut, intricate plotting, The Silent Listener, contrary to its title, had me audibly

gasping throughout.' Benjamin Stevenson, author of Either Side of Midnight 'An ingenious form of storytelling archaeology--down through layers of family trauma, the truths are finally brought to light.' Jock Serong, author of The Rules of Backyard Cricket

Michael Crichton, the #1 New York Times bestselling author of Jurassic Park, returns to the world of paleontology in this recently discovered novel—a thrilling adventure set in the Wild West during the golden age of fossil hunting. The year is 1876. Warring Indian tribes still populate America's western territories even as lawless gold-rush towns begin to mark the landscape. In much of the country it is still illegal to espouse evolution. Against this backdrop two monomaniacal

paleontologists pillage the Wild West, hunting for dinosaur fossils, while surveilling, deceiving and sabotaging each other in a rivalry that will come to be known as the Bone Wars. Into this treacherous territory plunges the arrogant and entitled William Johnson, a Yale student with more privilege than sense. Determined to survive a summer in the west to win a bet against his arch-rival, William has joined world-renowned paleontologist Othniel Charles Marsh on his latest expedition. But when the paranoid and secretive Marsh becomes convinced that William is spying for his nemesis, Edwin Drinker Cope, he abandons him in Cheyenne, Wyoming, a locus of crime and vice. William is forced to join forces with Cope and soon stumbles upon a discovery of historic proportions. With this extraordinary treasure, however, comes exceptional danger, and William's newfound resilience will be tested in his struggle to protect his cache, which pits him against some of the West's most notorious characters. A page-turner that draws on both meticulously researched history and an exuberant imagination, Dragon Teeth is based on the rivalry

between real-life paleontologists Cope and Marsh; in William Johnson readers will find an inspiring hero only Michael Crichton could have imagined. Perfectly paced and brilliantly plotted, this enormously winning adventure is destined to become another Crichton classic.

Wherever the cutting edge of science goes, Michael Crichton is there. From dinosaur cloning to global warming, nanotechnology to time travel, animal behavior to human genetics, Crichton always takes us to the cutting edge of science and then pushes the envelope. The Science of Michael Crichton examines the amazing inventions of Crichton's books and lifts up the hood, revealing the science underneath. In intelligent and well-thought essays, scholars and experts decide what Crichton gets right and what he gets wrong. They examine which Crichton imaginings are feasible and which are just plain impossible. Scenarios

examined include whether dinosaurs can be cloned, if nanotechnological particles can evolve intelligence, and if we can go back in time.
