We live in a time that seems to have natural and unnatural disasters happen

seemingly every week. We live in fear of global terrorism. People are being killed for the simple reason of intolerance. Children are being abandoned for reasons stemming from poverty, to mental illness, to basic neglect. With this time of unrest continually around us, we must learn to be even more Thankful of those we cherish. As you read through this work, you will hopefully recall events, instances, and moments in your life which may bring forth memories of a past that has helped you to become a stronger person today. This work is a celebration of a journey which leads to a path of growth, strength, and the truest love one can ever find. That love being, the love of oneself. With each and every worry we all have on a daily basis. When we get down because of the things we

do not have . . . this book reminds us of just how much we do have and reminds us of why we should always remain . . .

"THANKFUL." Thankfully, Earnest

This comprehensive quick and easy-to-use supplement complements any fourth grade math curriculum. The reproducible activities review twenty-four essential math skills and concepts in only ten minutes each day during a four-day period. On the fifth day, a 20-minute ten problem assessment is provided. The exercises in this book cover a 40-week period and are designed on a continuous spiral so concepts are repeated weekly. Concepts include place value, number concepts, time and money, measurement, graphs and tables, estimation, problem solving, word

problems, and more. It also includes test-taking tips, skills and concepts charts, scope and sequence charts, and an answer key.
