Clint Eastwood's Cinema of Trauma Columbia University Press

With *Flags of Our Fathers* (2006) and *Letters from Iwo Jima* (2006), Clint Eastwood made a unique contribution to film history, being the first director to make two films about the same event. Eastwood's films examine the battle over Iwo Jima from two nations' perspectives, in two languages, and embody a passionate view on conflict, enemies, and heroes. Together these works tell the story behind one of history's most famous photographs, Leo Rosenthal's "Raising the Flag on Iwo Jima." In this volume, international scholars in political science and film, literary, and cultural studies undertake multifaceted investigations into how Eastwood's diptych reflects war today. Fifteen essays explore the intersection among war films, American history, and Japanese patriotism. They present global attitudes toward war memories, icons, and heroism while offering new perspectives on cinema, photography, journalism, ethics, propaganda, war strategy, leadership, and the war on terror.

More often than not, Clint Mason has his foot firmly wedged in his mouth, which tends to get him in plenty of hot water with the ladies. Although his laid back good ole' Southern charm does not fly far with the female population of Cedar Tree, the big burly contractor hides his dark side well. The only one Beth Franklin allows herself to rely on is Beth, and so far that has served her well. Just when her son disappears after dropping his little guy

off on her doorstep, her life seems to spiral out of control. For the first time ever, fearing for his safety, the fiercely independent waitress is forced to be on the receiving end of a helping hand. That's not easy for her, especially since the shovel-sized hand belongs to a man whose approach has run hot and cold the last year, leaving her feeling off balance. With a steady and commanding force, he exposes her softer side, while doing everything he can to keep her and those close to her safe.

Two years after Clint Wolf's life has been disrupted forever, he's asked to serve as police chief for a quiet little town deep in the swamps of Louisiana. But the tranquility of the town is shattered when a severed arm is found in the jaws of an alligator. With the aid of Sergeant Susan Wilson, Clint investigates and it isn't long before they realize someone has been murdered. As the investigation ensues, Clint battles secret demons from his past as he befriends a local reporter named Chloe, who proves to be an asset to the case when she shares information from a source who says the murder was part of a larger plot. Will Clint and Susan unveil and foil the larger plot before it's too late, or will the citizens of Louisiana awaken to a horror worse than any in their state's history? "Great imagery, bigger than life characters, and true sounding law enforcement scenes made this a romp of a read. It was fast moving and kept me guessing up to the very end." --Cheryl Stout, an Amazon Top 1000 Reviewer "This author has a real talent for keeping me gripped and wanting to know what was going to happen next." --Liz H, Through The Booking Glass

The Sound of Creation Univ. of Queensland Press

Embattled former detective Clint Wolf is the newly appointed police chief for Mechant Loup, a small swampy town in southeast Louisiana. Usually a

quiet town, the tranquility of the place is shattered when a human arm is found in the jaws of an alligator. Once it's determined the arm belongs to a reputable business owner, the race is on to find the man and figure out what happened to him. Little does Clint know that solving the case could unearth a plot so evil it would go down as the worst event in Louisiana history . . . and he might not live to see it.(NOTE: Originally published on December 6, 2015 by Amber Quill Press, LLC)

Throughout his directorial career, Clint Eastwood's movies have presented sympathetic narratives of characters enduring personal trauma as they turn to violence to survive calamity or sustain social order—a choice that leaves them marginalized rather than redeemed. In this collection of new essays, contributors examine his films—from *The Outlaw Josey Wales* to *Sully*—as studies on PTSD that expose the social conditions that tolerate or trigger traumatization and (in his more recent work) imagine a way through individual and collective trauma.

The world is full of interesting people, and it has been George Weigel's good fortune to have known many such personalities in a variety of fields: politics, religion, the arts and sciences, journalism, the academy, entertainment, and sports. In this collection of reminiscences and elegies, the best-selling author of the definitive biography of Pope Saint John Paul II remembers these men and women from inside the convictions that formed them. Whether he is sketching the lives of Nobel Prize-winning scientists, major league baseball managers, princes of the Church, television personalities, or history-making political leaders, Weigel tries to understand, and help readers understand, the deep truths of the human condition illuminated by each of these not-forgotten lives. Written with verve, insight, and an appreciation for the consequential lives that have touched his own, *Not Forgotten* fills out the autobiographical portrait that George Weigel began painting in *Lessons in Hope: My Unexpected Life with Saint John Paul II*, while offering a backstage view of some of the men and women who have shaped the turbulent history of our times.

Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

In this risk-taking book, a major feminist philosopher engages the work of the actor and director who has progressed from being the stereotypical “man’s man” to pushing the boundaries of the very genres—the Western, the police thriller, the war or boxing movie—most associated with American masculinity. Cornell's highly appreciative encounter with the films directed by Clint Eastwood revolve around the questions “What is it to be a good man?” and “What is it to be, not just an ethical person, but specifically an ethical man?” Focusing on Eastwood as a director rather than as an actor or cultural icon, she studies Eastwood in relation to major philosophical and ethical themes that have been articulated in her own life's work. In her fresh and revealing readings of the films, Cornell takes up pressing issues of masculinity as it is caught up in the very definition of ideas of revenge, violence, moral repair, and justice. Eastwood grapples with this involvement of masculinity in and through many of the great symbols of American life, including cowboys, boxing, police dramas, and ultimately war—perhaps the single greatest symbol of what it means (or is supposed to mean) to be a man. Cornell discusses films from across Eastwood's career, from his directorial debut with *Play Misty for Me* to *Million Dollar Baby*. Cornell's book is not a traditional book of film criticism or a cinematographic biography. Rather, it is a work of social commentary and ethical philosophy. In a world in which we seem to be losing our grip on shared symbols, along with community itself, Eastwood's films work with the fragmented symbols that remain to us in order to engage masculinity with the most profound moral and ethical issues facing us today.

NATIONAL BESTSELLER • “Elegant and wicked.... [This] might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime.” —The New York Times Book Review Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the “soul of pampered self-absorption”; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.

After a year of working as a tour guide in the swamps of Louisiana—and the day after a man's body is found in a canal—former Police Chief Clint Wolf realizes he can't stay away from law enforcement work forever. Ditching his paddle for a pistol, he rejoins the Mechant Loup Police Department, but this time as their chief investigator, and he works beside Police Chief Susan Wilson as they seek to solve the mystery in the canal. While it isn't odd to find drowned bodies floating in the vast waterways of Louisiana from time to time, it is unusual to find a body with six bullet holes in its back. This first case back for Clint won't be a walk in the park, but a blue truck and a single piece of paper might be the key to everything. The only problem? The truck has seemingly vanished into thin air and no one can find the piece of paper.

“Brings to life Franklin's grit and spirit...an important contribution to the historical record.” —The Washington Post The new novel from the New York Times bestselling author of *The Mystery of Mrs. Christie!* She changed the world with her discovery. Three men took the credit. Rosalind Franklin has always been an outsider—brilliant, but different. Whether working at the laboratory she adored in Paris or toiling at a university in London, she feels closest to the science, those unchanging laws of physics and chemistry that guide her experiments. When she is assigned to work on DNA, she believes she can unearth its secrets. Rosalind knows if she just takes one more X-ray picture—one more after thousands—she can unlock the building blocks of life. Never again will she have to listen to her colleagues complain about her, especially Maurice Wilkins who'd rather conspire about genetics with James Watson and Francis Crick than work alongside her. Then it finally happens—the double helix structure of DNA reveals itself to her with perfect clarity. But what unfolds next, Rosalind could have never predicted. Marie Benedict's powerful new novel shines a light on a woman who sacrificed her life to discover the nature of our very DNA, a woman whose world-changing contributions were hidden by the men around her but whose relentless drive advanced our understanding of humankind. INSTANT NEW YORK TIMES BESTSELLER “This extraordinary book is not only a chronicle of Ron’s and Clint’s early careers and their wild adventures, but also a primer on so many topics—how an actor prepares, how to survive as a kid working in Hollywood, and how to be the best parents in the world! The Boys will surprise every reader with its humanity.” — Tom Hanks “I have read dozens of Hollywood memoirs. But *The Boys* stands alone. A delightful, warm and fascinating story of a good life in show business.” — Malcolm Gladwell *Happy Days*, *The Andy Griffith Show*, *Gentle Ben*—these shows captivated millions of TV viewers in the ’60s and ’70s. Join award-winning filmmaker Ron Howard and audience-favorite actor Clint Howard as they frankly and fondly share their unusual family story of navigating and surviving life as sibling child actors. “What was it like to grow up on TV?” Ron Howard has been asked this question throughout his adult life. In *The Boys*, he and his younger brother, Clint, examine their childhoods in detail for the first time. For Ron, playing Opie on *The Andy Griffith Show* and Richie Cunningham on *Happy Days* offered fame, joy, and opportunity—but also invited stress and bullying. For Clint, a fast start on such programs as *Gentle Ben* and *Star Trek* petered out in adolescence, with some tough consequences and lessons. With the perspective of time and success—Ron as a filmmaker, producer, and Hollywood A-lister, Clint as a busy character actor—the Howard brothers delve deep into an upbringing that seemed normal to them yet was anything but. Their Midwestern parents, Rance and Jean, moved to California to pursue their own showbiz dreams. But it was their young sons who found steady employment as actors. Rance put aside his ego and ambition to become Ron and Clint’s teacher, sage, and moral compass. Jean became their loving protector—sometimes over-protector—from the snares and traps of Hollywood. By turns confessional, nostalgic, heartwarming, and harrowing, *THE BOYS* is a dual narrative that lifts the lid on the Howard brothers’ closely held lives. It’s the journey of a tight four-person family unit that held fast in an unforgiving business and of two brothers who survived “child-actor syndrome” to become fulfilled adults.

For many Americans who grew up in a small town, childhood and adolescence revolved around the skatepark. As time passes, however, these people drift away from skateboarding and the spaces where they learned to do it. Part memoir, part travelogue, part essay, *Small Town Skateparks* is the story of an adventure to discover the role skateparks play in such lives and the role they played in the author's own. Clint Carrick grew up at the skatepark. Every day of the summer, he and his friends would loaf at the dilapidated park with warped plywood ramps strewn with rusty nails. They were the outsiders of the town, or at least thought of themselves that way. They wore jeans and ripped skate shoes and felt free in their special hang out, the skatepark, where they had their own language, their own heroes, and their own views of the world. In this setting they matured from children awestruck of high school kids to bored young men desperate to get out. Clint, now an adult, rekindles these forgotten memories as he drives across the country visiting unremarkable skateparks in America's small towns. Why is he drawn to these skateparks? What is their charm? How does the skatepark function as an institution, and what is the indelible mark it leaves on those who grow in its womb? As he makes his way further west, Clint relearns how to skate. He chats with locals, crashes, bleeds, and hears a lot of stories that sound like his own. The rust begins to wear off, but questions remain. Can someone who left skating behind rediscover the activity that defined his youth? Can someone who abandoned skateboarding make the skatepark once again his home?

The basis of the film starring Orlando Bloom and Scott Eastwood, *The Outpost* is the heartbreaking and inspiring story of one of America's deadliest battles during the war in Afghanistan, acclaimed by critics everywhere as a classic. At 5:58 AM on October 3rd, 2009, Combat Outpost Keating, located in frighteningly vulnerable terrain in Afghanistan just 14 miles from the Pakistani border, was viciously attacked. Though the 53 Americans there prevailed against nearly 400 Taliban fighters, their casualties made it the deadliest fight of the war for the U.S. that year. Four months after the battle, a Pentagon review revealed that there was no reason for the troops at Keating to have been there in the first place. In *The Outpost*, Jake Tapper gives us the powerful saga of COP Keating, from its establishment to eventual destruction, introducing us to an unforgettable cast of soldiers and their families, and to a place and war that has remained profoundly distant to most Americans. A runaway bestseller, it makes a savage war real, and American courage manifest. "The Outpost is a mind-boggling, all-too-true story of heroism, hubris, failed strategy, and heartbreaking sacrifice. If you want to understand how the war in Afghanistan went off the rails, you need to read this book." -- Jon Krakauer
