I learned many years ago if you want to be the best you can be, then you need to learn from the best - particularly when you want to be the best bass fisherman possible. That's why I've written "Winning Strategies of the Bass Pros" about 11 top bassers. If you're wondering at what age you can start learning about bass fishing, you'll see in the first two chapters about two young men who have come up through the ranks of collegiate bass tournaments - Jordan Lee, who won the Bassmaster Classic in 2017, and Dustin Connell, who won \$100,000 in a B.A.S.S. Elite Series tournament in Mississippi in 2017. Top-name pros on both the B.A.S.S. circuit and the FLW circuit are in this book, including Kevin VanDam, Jay Yelas, George Cochran, Rick Clunn, Larry Nixon, Woo Daves, Randy Howell, Scott Canterbury and Gary Klein.

Through many decades, Lake Martin, a symbol of sustenance, has enticed generations of residents, vacationers, and modern retirees to its welcoming shores. This picturesque lake, shaped like a dragon protecting its territory, has witnessed droughts, tornadoes, fishing tournaments, boat races, and even World War II aircraft crashes. Surrounded by its own unique history, Lake Martin also reflects the dynamic personalities of those who sacrificed childhood homes and family land to bring dreams of a prosperous future to fruition. Before the Tallapoosa River was dammed to feed Lake Martin's waters, it was an ideal environment for the Native Americans who resided on land now submerged. The land's history is rife with discord as British soldiers and Georgia Rangers resisted French spies in the early 1700s and migrant settlers defended their homefront during the Civil War. The Martin Dam became a state landmark by 1927, generating hydroelectric power while memorializing the 31-mile-long lake as the world's largest man-made body of water at the time. It was not long before Lake Martin evolved into a community enjoying unparalleled growth as a vacation site and permanent home for Americans who discovered the satisfaction lakeside living could provide. Lake Martin: Alabama's Crown Jewel chronicles the trials and triumphs of the people who created one of today's leading retirement communities through courageous choices and determination. The story is told through compelling narrative and evocative images, many of which have not been widely published.

Tips to become a bass fishing pro! While many people catch fish, even the occasional lunker, few actually acquire bass fishing proficiency. The popular view is that anglers who achieve such prominence do so through a collection of vices. These afflictions range from luck, to fraudulence, to worst of all, patience. Few, however, talk about the true qualities that lead to angling success. That's what Joe Kinnison, himself a sportsman, gathered in Next-Level Bass Fishing: the tips, options, strategies, and winning methods, to allow those who fish recreationally to employ the knowledge base of a pro. Five professional anglers work with Joe to identify distinctive characteristics that elevate the best in the field. Bassmaster Elite pro Tyler Carriere illustrates a structured approach to fishing. Six-time Ladies Bass Anglers Association (LBAA) Angler of the Year, Pam Martin- Wells explains versatility as she takes readers on a tour of her favorite waterways. Brandon, Palaniuk, two-time 2020 tournament champion and one of the leading money winners on tour, discusses details such as hormones and sensory ranges of his quarry. Christaina Bradley teaches focus, and Destin Demarion provides an example of productive originality. When qualities are translated into lure selections and lake terrain targets, the results are far superior to those of the average angler reminiscing about

how one got away. Kinnison explores the key relationships, the innovative techniques, and the special places that have elevated the world's best anglers to the top of their craft. Next-Level Bass Fishing is the next-best thing to touring with the pros.
