Because knowledge of a burning building's floor plan or fire protection system can be the difference between life and death, a well-crafted pre-incident response plan is critical. *Pre-Incident Planning, Third Edition*, will teach fire service professionals to create and implement such plans. Based on the NFPA 1620, *Recommended Practice for Pre-Incident Planning*, this text will provide fire officers with knowledge necessary to manage

the most complex emergency situations. *Fire and Life Safety for the Handicapped* Routledge
Sharpen your leadership skills and improve departmental performance with *Management in the Fire Service, Fourth Edition*.
