 We all dream, and 98 per

cent of us can recall our dreams the next morning. Even in today's modern age, it is human nature to wonder what they mean. Now, groundbreaking science is putting dreams at the forefront of new research into sleep, memory, the concept of self and human socialization. Once a subject of the New Age and spiritualism, the science of dreams is revealed to have a crucial role in the biology and neuroscience of our waking lives. In *Why We Dream*, Alice Robb, a

leading American science journalist, will take readers on a journey to uncover why we dream, why dreaming matters, and how we can improve our dream life - and why we should. Through her encounters with scientists at the cutting edge of dream research, she reveals how: - Dreams can be powerful tools to help us process the pain of a relationship break-up, the grief of losing a loved one and the trauma after a dramatic event - Nightmares may be our body's warning system for

physical and mental illness (including cancer, depression and Alzheimer's) - Athletes can improve their performance by dreaming about competing - Drug addicts who dream about drug-taking can dramatically speed up their recovery from addiction. Robb also uncovers the fascinating science behind lucid dreaming - when we enter a dream state with control over our actions, creating a limitless playground for our fantasies. And as one of only 10 per cent of

people with the ability to lucid-dream, she is uniquely placed to teach us how to do it ourselves. With incredible new discoveries and stunning science, *Why We Dream* will give you dramatic insight into yourself and your body. You'll never think of dreams in the same way again.

The Sun's Seventh Horse Penguin

South Asian Pornographies is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire

in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and

legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities

rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal *Porn Studies*.
