Britain makes more money from music than from its car industry. In the United States the core copyright industries achieved foreign sales and exports of \$60.18 billion - a figure which surpasses, for the first time, every other export sector, including automobiles, agriculture and aircraft. Howkins sets out to explore how we can harness creativity and the industry it sustains to our common interests. This book is not about information and the information society. It is about more basic matters, what we humans want and what we are good at.

A rare, insider's look at the life of Donald Trump from Bill O'Reilly, the bestselling author of the Killing series, based on exclusive interview material and deep research Readers around the world have been enthralled by journalist and New York Times bestselling author Bill O'Reilly's Killing series—riveting works of nonfiction that explore the most famous events in history. Now, O'Reilly turns his razor-sharp observations to his most compelling subject thus far—President Donald J. Trump. In this thrilling narrative, O'Reilly blends primary, never-before-released interview material with a history that recounts Trump's childhood and family and the factors from his life and career that forged the worldview that the president of the United States has taken to the White House. Not a partisan pro-Trump or anti-Trump book, this is an up-to-the-minute, intimate view of the man and his sphere of influence—of “how Donald Trump's view of America was formed, and how it has changed since becoming the most powerful person in the world”—from a writer who has known the president for thirty years. This is an unprecedented, gripping account of the life of a sitting president as he makes history. As the author will tell you, “If you want some insight into the most unlikely political phenomenon of our lifetimes, you'll get it here.”

Over the past twenty years or so, the work on Japanese within generative grammar has shifted from primarily using contemporary theory to describe Japanese to contributing directly to general theory, on top of producing extensive analyses of the language. The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, “What can Japanese say about Universal Grammar?” Each of the eighteen chapters takes up a topic in syntax, morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature. Each chapter ends with a section on how the study of the particular phenomenon in Japanese contributes to our knowledge of general linguistic theory. This book will be useful to students and scholars of linguistics who are interested in the latest studies on one of the most extensively studied languages within generative grammar.

In June 1985, a symposium, “Changing Identities of the Southeast Asian Chinese since World War II” was held at the Australian National University in Canberra. This volume includes many of the papers from that symposium presented by ANU scholars and those from universities elsewhere in Australia, North America and Southeast Asia. Participants looked at the current thinking about the parameters of identity and shared their own research into the complex issues that overlapping categories of identity raise. Identity was chosen as the focus of the, symposium because perceptions of self - whether by others or by the individual

Chinese concerned - appear to lie at the heart ' of the present-day Chinese experience in Southeast Asia, It is also evident that identity wears many guises and that we cannot talk about a single Chinese identity when identity can be determined by the different political, social, economic or religious circumstances an individual faces at any given time. One of the distinctive characteristics of all the essays in this volume is that they are written from an historical perspective. While the papers focus on how recent developments in Southeast Asian society have shaped Chinese identity, they also discuss those changes in terms of the historical matrix from which they developed. Because many of the essays in this volume combine an historical overview with more recent statistical data, it should serve as a useful companion to the increasingly popular case studies in which much of the writing about the Chinese in Southeast Asia is now cast.

*Activists in Transition* examines the relationship between social movements and democratization in Indonesia. Collectively, progressive social movements have played a critical role over in ensuring that different groups of citizens can engage directly in—and benefit from—the political process in a way that was not possible under authoritarianism. However, their individual roles have been different, with some playing a decisive role in the destabilization of the regime and others serving as bell-weepers of the advancement, or otherwise, of Indonesia's democracy in the decades since. Equally important, democratization has affected social movements differently depending on the form taken by each movement during the New Order period. The book assesses the contribution that nine progressive social movements have made to the democratization of Indonesia since the late 1980s, and how, in turn, each of those movements has been influenced by democratization.

New York Times Bestseller *The Trump administration is remaking the government. It's Even Worse Than You Think: What the Trump Administration Is Doing to America* tells us exactly how it is making America worse again. Bestselling author and longtime Trump observer David Cay Johnston shines a light on the political termites who have infested our government under the Trump Administration, destroying it from within and compromising our jobs, safety, finances, and more. No journalist knows Donald

Trump better than David Cay Johnston, who has been following him since 1988. *It's Even Worse Than You Think: What the Trump Administration Is Doing to America* goes inside the administration to show how the federal agencies that touch the lives of all Americans are being undermined. Here is just some of what you will learn: *The Wall*. Mexican President Enrique Peña Nieto told President Trump that Mexico will never pay for the border wall. So, Trump is proposing putting a tariff on Mexican imports. But a tariff will simply raise the price of Mexican goods in the US, meaning American consumers will end up paying for the wall—if it ever gets built. *Climate Change*. Welcome to the new EPA, run by Scott Pruitt, a lawyer who has spent much of his career trying to destroy the agency he now heads. Secrecy reigns at the new EPA because Pruitt meets with industry executives to find out which clean air and clean water provisions they most want to roll back, and keeps staffers in the dark to make sure these pro-pollution plans don't leak prematurely. *Stocking the Swamp*. Contrary to his promise to "drain the swamp" in Washington, DC, Trump has filled his cabinet with millionaires and billionaires, from Treasury Secretary Steven Mnuchin, a Goldman Sachs and hedge fund veteran who made much of his fortune foreclosing on homeowners to billionaire heiress Education Secretary Betsy DeVos, who has already put the interests of bankers ahead of debt-burdened students and their families. *The Kleptocracy*. Under Donald Trump conflict of interest is passé. When Trump isn't in Washington, he stays at one of his properties, where the taxpayers pick up the tab for staffers, Secret Service, and so on, all at full price. And back in Washington, everyone now knows that the Trump International Hotel is the only place to stay if you want to do business with the administration. Meanwhile sons Donald Jr. and Eric run an eyes-wide-open blind trust of Trump holdings to avoid the appearance of conflict of interest—but not the reality.

Since the early 2000s, Indonesia has taken a number of steps to prioritize early childhood development - ranging from the inclusion of Early Childhood Development (ECD) in the National Education System Law No. 20 in 2003 to a Presidential Declaration on Holistic and Integrated ECD and the launch of the

country's first ever ECD Census in 2011. These policy milestones have occurred in parallel with sustained progress on outcomes included in the Millennium Development Goals, including for child malnutrition, child mortality and universal basic education. Additional progress could be achieved by strengthening ECD policies further. This report presents findings from an assessment of ECD policies and programs in Indonesia based on two World Bank tools: the ECD module of the Systems Approach for Better Education Results (SABER) and a guide on essential interventions for investing in young children. Results from the application of both tools to Indonesia are used to suggest a number of policy options for consideration.

Optimalkan Pembangunan Sektor Peternakan Di sektor pertanian, sub sektor peternakan merupakan salah satu kegiatan utama masyarakat Aceh, sehingga sub sektor ini sangat potensial untuk dikembangkan. Hampir setiap keluarga di Aceh, terutama di gampong-gampong, memiliki usaha sampingan di bidang ternak. Pendapatan dari usaha ternak ini sangat membantu ekonomi keluarga. Hanya saja sub sektor peternakan belum tergarap secara optimal dan terpadu. Pengembangan sub sektor peternakan didukung oleh potensi alam Aceh yang memiliki lahan peternakan yang luas dengan ketersediaan padang rumput hijau yang menjadi sumber pakan ternak. Namun kayanya potensi sumberdaya alam tersebut tidak sepenuhnya mampu mengangkat peternakan sebagai sektor yang berdikari dan memiliki pengaruh yang cukup besar terhadap perekonomian Aceh. Hal tersebut terlihat dari kontribusinya terhadap PDRB Aceh saat ini baru mencapai angka 5,23 persen. Tidak hanya pada kontribusi peternakan, sejumlah populasi ternak di Aceh juga mengalami penurunan. Misalnya, sapi potong populasinya saat ini mencapai 404.221 ekor dan rata-rata terus mengalami penurunan sebesar 23 persen dari tahun 2012. Hal ini ikut menyebabkan harga daging sapi di Aceh mahal. Pemerintah selama ini telah memberikan perhatian pada sub sektor peternakan. Salah satu programnya adalah pengadaan bibit sapi untuk masyarakat. Namun, kenyataannya, tidak banyak warga yang sukses di sektor peternakan. Peternakan belum menjadi andalan pendapatan

keluarga. Untuk itu, dinas terkait perlu mengevaluasi berbagai faktor kelambanan pengembangan sektor ini. Misalnya, apakah benefeceries (penerima manfaat) sudah tepat sasaran, apakah program-program penyuluhan dan sebagainya telah dijalankan secara baik, secara reguler dan berkelanjutan. Jika digarap dengan serius, sektor peternakan sangat menjanjikan bagi pendapatan keluarga. Rasyidi (49) di Kecamatan Sampoiniet Kabupaten Aceh Jaya berhasil hidup makmur dengan usaha ini. Dia bahkan menjadikan usaha ternak sapi sebagai profesi. Usahanya dari hari ke hari menunjukkan peningkatan yang cukup signifikan. Pada tahun 2012 Rasyidi memiliki 200 ekor sapi/kerbau, namun tiga tahun kemudian berkembang menjadi 450 ekor dengan harga jual berkisar Rp 15-45 juta per ekor. Satu hal yang dikeluhkan Rasyidi yaitu dia tidak mampu mengembangkan bibit sapi unggul dengan ukuran dan berat yang lebih besar. Dalam hal ini tentu membutuhkan campur tangan pemerintah melalui instansi teknis terkait. Rasyidi pantas diangkat sebagai ikon peternak Aceh. Kiranya instansi terkait perlu mendorong lahirnya minimal seorang Rasyidi di setiap kabupten/kota. Dengan demikian, Aceh akan surplus daging serta menekan angka kemiskinan dan pengangguran. Semoga! \* abu bakar karim

*Pemikiran dan praktek perencanaan dalam era transformasi di Indonesia* Mengabdikan Kepada Negeri Bersinergi di Era Pandemi For the past two years (2006-2008) The Bridge of Silver Wings has earned a name for itself both as a series of poems published in different e-zines and as a book first published in 2007. What makes this 2009 edition a special one is the inclusion of five new poems: "Angel of Better Days to Come"; "Midnight Flight of the Poetry Angels"; "Photographed Light of My Grandmother's Soul"; "There upon a Bough of Hope and Audacity"; and, "What Angels Call a Poet." Readers exploring the pages of this book are likely to experience it in different ways as they move back and forth between one poetic state of being and another. The Bridge of Silver Wings 2009 may at times appear to be nothing more than a silk-thin illusion --resembling at moments either a terrifying nightmare or a healing vision--spread across an evening mist. While at other times it will register as solid as a concrete sidewalk

or a giant boulder. (from author's Foreword)

In a world plagued by religious conflict, how can the various religious and secular traditions coexist peacefully on the planet? And, what role does sociology play in helping us understand the state of religious life in a globalizing world? In the Fourth Edition of *Of Gods in the Global Village*, author Lester Kurtz continues to address these questions. This text is an engaging, thought-provoking examination of the relationships among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order. Thoroughly updated to reflect recent events, the book discusses the role of religion in our daily lives and global politics, and the ways in which religion is both an agent of, and barrier to, social change.
