To stay competitive in today's market, organizations need to adopt a culture of customer-centric practices that focus on outcomes rather than outputs. Companies that live and die by outputs often fall into the "build trap," cranking out features to meet their schedule rather than the customer's needs. In this book, Melissa Perri explains how laying the foundation for great product management can help companies solve real customer problems while achieving business goals. By

understanding how to communicate and collaborate within a company structure, you can create a product culture that benefits both the business and the customer. You'll learn product management principles that can be applied to any organization, big or small. In five parts, this book explores: Why organizations ship features rather than cultivate the value those features represent How to set up a product organization that scales How product strategy connects a company's vision and economic outcomes back to the product activities How to identify and pursue the right opportunities for producing value through an iterative product framework How to build a culture focused on successful outcomes over outputs

Methodology -- The abuse and exploitation of child domestic workers : a continuing situation -- Eight enduring myths -- Continuing failure of the Indonesian government to protect and prevent exploitation of child domestic workers -- National and local governments' international legal obligations --

Recommendations. This report documents how hundreds of thousands of girls in Indonesia, some as young as 11, are employed as domestic workers in other people's households, performing tasks such as cooking, cleaning, laundry, and child care. Most girls interviewed for the report worked 14 to 18 hours a day, seven days a week, with no day off. Almost all are grossly underpaid, and some get no salary at all. In the worst cases, girls reported being physically, psychologically, and sexually abused.

Kepercayaan diri Alif sedang menggelegak. Sudah separuh dunia dia kelilingi, tulisannya tersebar di banyak media, dan dia diwisuda dengan nilai terbaik. Perusahaan mana yang tidak tergiur merekrutnya? Namun Alif lulus di saat yang salah. Akhir '90-an, Indonesia dicekik krisis ekonomi dan dihoyak reformasi. Lowongan pekerjaan sulit dicari. Kepercayaan dirinya goyah, bagaimana dia bisa menggapai impiannya? Secerch harapan muncul ketika Alif diterima menjadi wartawan di Ibu Kota. Di sana, hatinya tertambat pada seorang gadis yang dulu pernah dia curigai. Ke mana

arah hubungan mereka? Takdir menerbangkan Alif ke Washington DC. Life is perfect, sampai terjadi tragedi 11 September 2001 di New York yang menggoyahkan jiwanya. Kenapa orang dekatnya harus pergi? Alif dipaksa memikirkan ulang misi hidupnya. Dari mana dia bermula dan ke mana dia akhirnya akan bermuara? 'Mantra' ketiga "man saara ala darbi washala" (siapa yang berjalan di jalannya akan sampai di tujuan) menuntun pencarian misi hidup Alif. Hidup hakikatnya adalah perantauan. Suatu masa akan kembali ke akar, ke yang satu, ke yang awal. Muara segala muara. Rantau 1 Muara adalah kisah pencarian tempat berkarya, pencarian belahan jiwa, dan pencarian di mana hidup akan bermuara. Novel ini adalah buku ketiga dari trilogi Negeri 5 Menara yang ditulis A. Fuadi, novelis asal Minang yang pernah tinggal di Washington DC, London, Quebec, dan Singapura. Bertualanglah sejauh mata memandang. Mengayuhlah sejauh lautan terbentang. Bergurulah sejauh alam berkembang.

The story of two brothers, Johnathan and Andy Hillstrand, who are maverick

fisherman on the Bering Sea. They share the skippering duties on board their family-operated vessel, the Time Bandit. They are totally outrageous characters, taking on what is known to be the most dangerous job in the world. The Bering Sea is dangerous and mercurial and can steal years from a fisherman's life and Time Bandit is the name of the fishing vessel the brothers use to hook the Alaskan King Crabs. In pursuit of their daily catch, the brothers brave ice floes and heaving waves 60ft high, the perils of 1000lb steel crab traps thrown about by the wind and the constant menace of open water. The details of their childhood make you wonder how they ever lived past the age of ten! This amazing story, co-written with Malcolm MacPherson, brings to life the heart-in-your-throat existence of the Hillstrand brothers.

One of The Globe & Mail's Top 10 Business books of the Year! Rethink Everything You Know About Leadership Strengths "A must-read for anyone wanting to positively

stand out in an organization or for leaders wanting to raise the overall performance of the organization." -- Cindy Brinkley, Vice President, Global Human Resources, General Motors "Zenger Folkman's findings related to companion behaviors is exciting. It enhances what's been presented in prior books and makes extraordinary leadership seem like an achievable goal. I would recommend this book to anyone committed to the journey." -- Pam Mabry, Director, Human Resources, The Boeing Company "The authors take the groundbreaking concept of driving leadership effectiveness by building our strengths to a whole new level of practical implementation, providing us with a brilliantly clear road map. I have found this body of work to be absolutely invaluable . . . I cannot imagine a person in a leadership role today who would not find value from reading this book cover to cover." -- Loren M. Starr, Senior Managing Director and Chief Financial Officer, Invesco Ltd. How to Be Exceptional is a milestone in the emerging business case for evidence-based management. Building on two decades of earlier research, the authors brilliantly lay out a simple, concrete,

scientifically validated model for achieving consistently superior business results through leadership. . . . Its magic is its simplicity, pragmatism, and focus." -- Eric Severson, Senior Vice President, Talent, Gap Inc. "How to Be Exceptional is the best book on professional development I have read in decades. It reinforces the emerging wisdom that the path to greatness is really about building profound strengths, rather than through relentlessly focusing on one's weaknesses. This is a great road map for any leader seeking to optimize their growth and impact." -- Michael A. Peel, Yale University, Vice President, Human Resources and Administration

If you want a holiday that's hassle-free, virtually pre-paid, and that lets you see lots of places while only needing to pack and unpack once, then you should try a cruise. This best-selling book is the cruise industry bible: it gives you all the information you need to choose the right cruise for you. Meticulously updated every year by cruise expert Douglas Ward, it is divided into two main parts: the first helps

you work out what you're looking for in a cruise holiday and how to find it; the lively text and colour photographs describe every aspect of life on board, including safety, the highs and lows of the cruise experience and how to save money. The second part contains unbiased reviews and fascinating detail of almost 300 ocean-going cruise vessels, and grades them on service, food, entertainment and facilities, using an internationally recognised ratings system.

The Theory of Advertising Career Examination

From the author of the international bestseller *Our House*, a new novel of twisty domestic suspense asks, "Could you hate your neighbor enough to plot to kill him?" *Lowland* Way is the suburban dream. The houses are beautiful, the neighbors get along, and the kids play together on weekends. But when Darren and Jodie move into the house on the corner, they don't follow the rules. They blast music at all hours, begin an unsightly renovation, and run a used-car business from their yard. It doesn't take long for an all-out war to start brewing. Then, early one Saturday, a horrific death shocks the

street. As police search for witnesses, accusations start flying—and everyone has something to hide.

"Nobody asked you to show up." Every experienced product manager has heard some version of those words at some point in their career. Think about a company. Engineers build the product. Designers make sure it has a great user experience and looks good. Marketing makes sure customers know about the product. Sales get potential customers to open their wallets to buy the product. What more does a company need? What does a product manager do? Based upon Product School's curriculum, which has helped thousands of students become great product managers, *The Product Book* answers that question. Filled with practical advice, best practices, and expert tips, this book is here to help you succeed!

Business practices in emerging markets are constantly challenged by the dynamic environments that involve stakeholders. This increases the interconnectedness and collaboration as well as spillover effect among business agents, that may increase

or hold back economic stability. This phenomenon is captured in this proceedings volume, a collection of selected papers of the 10th ICBMR 2016 Conference, held October 25–27, 2016 in Lombok, Indonesia. This ICBMR's theme was Enhancing Business Stability through Collaboration, and the contributions discuss theories, conceptual frameworks and empirical evidence of current issues in the areas of Business, Management, Finance, Accounting, Economics, Islamic Economics, and competitiveness. All topics include aspects of multidisciplinary and complexity of safety in research and education.

The missing manual on how to apply Lean Startup to build products that customers love The Lean Product Playbook is a practical guide to building products that customers love. Whether you work at a startup or a large, established company, we all know that building great products is hard. Most new products fail. This book helps improve your chances of building successful products through clear, step-by-step guidance and advice. The Lean Startup movement has contributed new

and valuable ideas about product development and has generated lots of excitement. However, many companies have yet to successfully adopt Lean thinking. Despite their enthusiasm and familiarity with the high-level concepts, many teams run into challenges trying to adopt Lean because they feel like they lack specific guidance on what exactly they should be doing. If you are interested in Lean Startup principles and want to apply them to develop winning products, this book is for you. This book describes the Lean Product Process: a repeatable, easy-to-follow methodology for iterating your way to product-market fit. It walks you through how to: Determine your target customers Identify underserved customer needs Create a winning product strategy Decide on your Minimum Viable Product (MVP) Design your MVP prototype Test your MVP with customers Iterate rapidly to achieve product-market fit This book was written by entrepreneur and Lean product expert Dan Olsen whose experience spans product management, UX design, coding, analytics, and marketing across a variety of products. As a hands-on consultant, he refined and

applied the advice in this book as he helped many companies improve their product process and build great products. His clients include Facebook, Box, Hightail, Epocrates, and Medallia. Entrepreneurs, executives, product managers, designers, developers, marketers, analysts and anyone who is passionate about building great products will find The Lean Product Playbook an indispensable, hands-on resource.

The definitive introduction to the behavioral insights approach, which applies evidence about human behavior to practical problems. Our behavior is strongly influenced by factors that lie outside our conscious awareness, although we tend to underestimate the power of this “automatic” side of our behavior. As a result, governments make ineffective policies, businesses create bad products, and individuals make unrealistic plans. In contrast, the behavioral insights approach applies evidence about actual human behavior—rather than assumptions about it—to practical problems. This volume in the MIT Press Essential Knowledge series, written by two leading experts in the field, offers an accessible introduction to behavioral insights, describing core features, origins, and practical examples. These insights have opened up new ways

of addressing some of the biggest challenges faced by societies, changing the way that governments, businesses, and nonprofits work in the process. This book shows how the approach is grounded in a concern with practical problems, the use of evidence about human behavior to address those problems, and experimentation to evaluate the impact of the solutions. It gives an overview of the approach's origins in psychology and behavioral economics, its early adoption by the UK's pioneering “nudge unit,” and its recent expansion into new areas. The book also provides examples from across different policy areas and guidance on how to run a behavioral insights project. Finally, the book outlines the limitations and ethical implications of the approach, and what the future holds for this fast-moving area.

Based on the Nas Daily video series with over 13 million dedicated followers comes the surprising, moving 1,000-day journey of a lifetime in book form. In 2016, Nuseir Yassin quit his job to travel for 1,000 consecutive days. But instead of the usual

tourist traps, Nas set out to meet real people, see the places they call home, and discover what unites all of us living on this beautiful planet—from villages in Africa and slums in India, to the high-rises of Singapore and the deserts of Australia. While he journeyed from country to country, Nas uploaded a single 60-second video per day for his Nas Daily Facebook following to highlight the amazing, terrifying, inspiring and downright surprising sh*t happening all over the world. Thirteen million followers later, Nas Daily has become the most immersive travel experience ever captured, and finally shows us what we've all been looking for: each other. **AROUND THE WORLD IN 60 SECONDS** is Nas' unpredictable 1,000-day world tour in book form. At times a striking portrait of the most uncharted places in the world, at others a touching exploration of the human heart, this collection of life-affirming stories and breathtaking photographs changes how we think about humanity and community and invites us all on a journey to see the world, and each other, anew.

This book provides a summary of the main obstacles for creating and maintaining high standards of health and safety in higher education and research organisations. The obstacles include high staff turnover and an uncertain and constantly evolving research environment, small groups lacking unified management structure, deadline time pressures, restricted funding models and existing "old school" culture. Often the Health and

Safety specialists and personnel managers in these organisations find themselves reiterating the same information, which gets lost as soon as the new cohort of workers arrives. Providing insight into methods of managing health and safety, training, and supervision, which help to build a strong and reliable health and safety system, this book is a collection of "best practices" from experienced safety professionals and researchers in Europe

and the United States. These experiences demonstrate how health and safety professionals have overcome these issues and provide readers with ideas and models they can use in their own organisations. The information contained within is aimed at health and safety professionals and managers in universities and research organisations conducting scientific and engineering research with transient workers and students worldwide.
