Serial Publications Used in  
the Fourth Series of the  
Index-catalogue Asian

Development Bank  
This private sector  
assessment reviews Fiji's  
private sector  
environment in  
2006-2012, against  
recommendations made  
in the Asian Development  
Bank (ADB) publication  
"2005 Promise Unfulfilled:  
Private Sector Assessment  
for Fiji". While Fiji has  
made considerable reform  
progress in a number of  
areas (including tax  
reforms, encouraging  
telecommunications  
competition, and reducing  
barriers to foreign  
investment), it still faces  
considerable challenges in  
responding to a range of  
macroeconomic shocks  
following the global  
economic crisis, and  
political and policy  
uncertainty at home.

1875- include also the  
Annual report of the  
Government Geologist.  
Fiji Annual Report  
FijiBuilding Inclusive  
Institutions for Sustained  
Growth

This report provides a  
longitudinal study of the  
Fiji economy covering  
more than 2 decades of  
growth and development.  
It presents an economic  
update and outlook for  
the Fiji economy and  
assesses the key drivers  
of performance across key  
economic sectors. The  
report identifies potential  
reform strategies that can  
guide future policy action,  
assist in accelerating  
growth, and strengthen  
pro-poor policy  
development in Fiji.

Annual Report on  
Barbados Asian  
Development Bank  
From 2010 onward, Fiji  
witnessed one of its  
strongest spells of  
economic growth since  
independence. Extreme

poverty is in the single  
digits, but nearly a third  
of the population is  
unable to meet basic  
needs. Fiji thus faces two  
major challenges: to  
create a business  
environment that can  
attract more private  
investment to help sustain  
its growth momentum,  
and to make that growth  
inclusive so that all of Fiji  
can benefit. This country  
diagnostic study  
undertaken by the Asian  
Development Bank  
identifies the critical  
constraints to inclusive  
growth in Fiji and  
proposes policy options  
for addressing them.

Authors and subjects  
Asian Development Bank  
The fishing industry  
benefits the people and  
economies of the Pacific  
in various ways but the  
full value of these benefits  
is not reflected in the  
region's statistics.  
Records may be  
maintained but they are  
not complete, or accurate,  
or comparable. The  
research summarized in  
this report reaffirms the  
importance of this sector  
to the economies and  
societies of the Pacific

island countries. The research reveals that the full value of fisheries is likely to have eluded statisticians, and therefore fisheries authorities, government decision makers, and donors. But its value has never escaped the fisher, fish trader, and fish processor. The difference in appreciation between public and private individuals must raise the question of whether fisheries are receiving adequate attention from the public sector--- including the necessary management and protection, appropriate research, development, extension and training, and sufficient investment.
