The terrorist attacks of 9/11 precipitated significant legal changes over the ensuing ten years, a "long decade" that saw both

domestic and international legal systems evolve in reaction to the seemingly permanent threat of international terrorism. At the same time, globalization produced worldwide insecurity that weakened the nation-state's ability to monopolize violence and assure safety for its people. The Long Decade: How 9/11 Changed the Law contains contributions by international legal scholars who critically reflect on how the terrorist attacks of 9/11 precipitated these legal changes. This book examines how the uncertainties of the "long decade" made fear a political and legal force, challenged national constitutional orders, altered fundamental assumptions about the rule of law, and ultimately raised questions about how democracy and human rights can cope with competing security pressures, while considering the complex process of crafting anti-terrorism measures.

The New York Times bestselling author of Ming Tea Murder serves up heists, homicides, and herbal blends in the latest in the Tea Shop mysteries. Catering a trunk show at Heart's Desire Jewelry is a shining achievement for Theodosia and the Indigo Tea Shop. After all, a slew of jewelers, museum curators, and private collectors will be there to sip some of Theo's best blends. Unfortunately, the party is crashed by a gang of masked muggers

who steal the precious gems on display, and then disappear almost as quickly as they arrived--leaving a dead body in their wake. Theo gets involved in the case after her friend Brooke, aunt of the victim and owner of Heart's Desire, begs for help in figuring out who committed the brutal burglary. Though the FBI believes this smash and grab is the work of an international gang of jewel thieves, Theo is convinced that the felon is someone much closer to home... INCLUDES DELICIOUS RECIPES AND TEA TIME TIPS!

**Rethinking Civilizational Analysis** Oxford University Press, USA

There is an unseen world most people can't begin to imagine... ... Where the most ordinary things can turn against you. The village of Templeton was evacuated during World War 2. Now even the ghosts are leaving - because something terrible stayed behind. Ben and his new friends at the School of Night must find out what's going on. But they are soon trapped in the village, where even the trees and plants turn against them. Could you survive against all the odds? Could you solve the ancient mystery and free the village from a curse that threatens the whole world? If you could, then maybe you have what it takes to join The School of Night

'At last, a volume on civilization that truly reflects the complexity of multiple civilizations. The wealth of contributions Arjomand and Tiryakian have assembled demonstrates the value of an old concept for understanding the awful dilemmas confronting human kind in the global age. Its thoroughgoing renewal here establishes this book as the essential benchmark for future

scholars of civilization' - Martin Albrow, Founding Editor of International Sociology and author of The Global Age - winner of the European Amalfi Prize, 1997 'In our tension filled world, many are heralding, and others fearing, a "clash of civilizations." The contributors to this volume provides a healthy and persuasive argument about why this clash need not, and certainly should not, take place. They do so, moreover, not by rejecting the concept of civilization, but by developing a less primordial, homogenous, and essentialist concept of it. An important collection that provides illumination in this sometimes frighteningly dark time' - Jeffrey Alexander, Professor and Chair of Sociology at Yale University 'The concept of civilization may well replace the notions of globalization and identity as the core component in the vocabulary of 21st century sociology. The authors contribute a great deal to the clarification of fashionable controversies around the "clash of civilizations" and "multiculturalism". They go a long way toward purging the concept of civilization of its ideological overtones, and they succeed admirably in turning it into powerful analytic tool of an emerging field of macrosociology, known already as civilizational analysis' - Piotr Sztompka, President, International Sociological Association Although the concept of 'civilization' has deep roots in the social sciences, there is an urgent need to re-think it for contemporary times. This book points to an exhaustion in using 'the nation state' and 'world system' as the basic macro-units of social analysis because they do not get to grips with the 'soft power' variable of cultural factors involved in global aspects of development. Also, globalization requires us to reconsider the link between civilization and a fixed or given territory. This book

focuses upon the dynamic aspect of civilizations. Among the topics covered are: · Civilizational analysis and social theory · Global civilization and local cultures · Civilizational forms · Rationalization and Civilization · Civilizations as zones of prestige · Historical and comparative dimensions of civilization · The clash of civilizations.

*Quantum Leadership: Building Better Partnerships for Sustainable Health* Oxford University Press, USA

Quantum Leadership: Transdisciplinary leadership in complex systems  
 Quantum Leadership: Building Better Partnerships for Sustainable Health, Fourth Edition skillfully prepares graduate students to thrive in a world of healthcare reform, complexity, and essential caring service. The Fourth Edition focuses on the current concepts of leadership, data, and research related to the complexities of leadership. The text also emphasizes the importance of principle-driven approaches and minimizes specific procedure-based solutions. This text is a seminal work around the complexity leadership as it applies to healthcare. There are very few other references that have the clarity, depth, and detail essential to enumerate this topic in healthcare organizations. It is especially valuable for graduate programs and DNP programs as it provides a foundation for contemporary leadership and emphasizes the characteristics necessary to lead complex organizations. The Fourth Edition features an additional chapter on the complexity of leadership in health care reform in an effort to incorporate the newest requirements of the Patient Protection Affordable Care Act in a manner that is relevant to leadership development and capacity. Case studies found within each chapter help reinforce translational work while new application

exercises found in the "The Quantum Workbook" are an excellent supplement for learning. Additional updates to the text include: chapter podcasts, additional translational and learning material related to chapter case studies. Lastly, all references have been revised and updated to reflect the most current evidence around learning leadership.

International Law provides a fresh, student-focused approach and European perspective on the central issues in public international law. Providing ideal coverage for short foundational courses, this engaging textbook introduces all the essential topics in a concise and manageable way. Dedicated chapters on environmental law, economic law, and human rights are included, ensuring that appropriate coverage is given to the various areas affected by international law. The core topics are fully explained in plain terms and the principles and key terminology outlined in an accessible style. Taking a critical perspective throughout, Henriksen introduces the areas of debate and builds students'

confidence in understanding the complexities of the international legal system and its operation across borders. Particular emphasis is placed on the key issues in civil law jurisdictions, making this text perfectly suited for students based in mainland Europe. A range of learning features highlight the important areas of debate and encourage students to engage critically with important disputes. Central issues boxes introduce each chapter, highlighting the controversies and key principles explored; chapter summaries provide an overview for students to review their understanding of a particular topic; discussion questions encourage students to apply their knowledge to addressing specific problems within the context of the subject; and carefully selected recommended reading lists guide students' wider research and enable them to broaden and consolidate their learning. Online Resources International Law offers a range of freely available materials to support lecturers and students in their studies. These resources include: - Short podcasts introducing the core topics covered - Advice on answering the Questions for Discussion at the end of each chapter - Links to other international law resources

With body piercing and tattooing becoming more popular and mainstream, many teens may think about engaging in these forms of body modification. An excellent resource for young people pondering a piercing or tattoo, this title presents some of the pros and cons they should consider. In an honest and engaging manner, the author presents important information teens need to protect their health, including how to identify a reputable studio, what to expect from the procedures, and how to do proper aftercare. Legal, social, and familial issues are explored, too, including the importance of discussing the decision with their parents and choosing tattoos or piercings they can live with throughout adulthood.
