American Federationist

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

Voice of the Cement, Lime, Gypsum and Allied Workers

This book examines the themes of

imperialism and empire from the perspective of the foreign policy program of organized labor in the United States. It details efforts to make real popular democracy within Labor. The author calls for American workers to join the global movement for economic and social justice and to extend globalization from 'below' against the values and activities of the top-down and destructive military-corporate globalization that has been sweeping the world for years.

Early essays from the sociologist, displaying the beginnings of his views on politics, society, and Black Americans' status in the United States. This volume assembles essential essays—some published only posthumously, others obscure, another only recently translated—by W. E. B. Du Bois from 1894 to early 1906. They show the first formulations of some of his most famous ideas, namely, “the veil,” “double-consciousness,” and the “problem of the color line.” Moreover, the deep historical sense of the formation of the modern world that informs Du Bois’s thought and gave rise to his understanding of “the problem of the color line” is on display here. Indeed, the essays constitute an essential companion to Du Bois’s 1903 masterpiece *The Souls of Black Folk*. The collection is based on two editorial principles: presenting the essays in their entirety and in strict chronological order. Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois’s everyday intellectual and scholarly reference. These essays commence at the moment of Du Bois’s return to the United States from two years of graduate-level study in Europe at the University of Berlin. At their center

is the moment of Du Bois’s first full, self-reflexive formulation of a sense of vocation: as a student and scholar in the pursuit of the human sciences (in their still-nascent disciplinary organization—that is, the institutionalization of a generalized “sociology” or general “ethnology”), as they could be brought to bear on the study of the situation of the so-called Negro question in the United States in all of its multiply refracting dimensions. They close with Du Bois’s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences. The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois’s thought. The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker. “A seminal contribution to the history of modern thought. Compiled and edited by the world’s preeminent scholar of early Du Boisian thought, these texts represent his most generative period, when Du Bois engaged every discipline, helped construct modern social science, employed critical inquiry as a weapon of antiracism and political liberation, and always set his sites on the entire world. We know this not by the essays alone, but by Nahum Dimitri Chandler’s brilliant, original, and quite riveting introduction. If you are coming to Du Bois for the first time or the 500th time, this book is a must-read.” —Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination*

Biography of Ernie Goodman, a Detroit lawyer and political activist who played a key role in social justice cases. In a working life that spanned half a century, Ernie Goodman was one of the nation's preeminent defense attorneys for workers and the militant poor. His remarkable career put him at the center of the struggle for social justice in the twentieth century, from the sit-down strikes of the 1930s to the Red Scare of the 1950s to the freedom struggles, anti-war demonstrations, and ghetto rebellions of the 1960s and 1970s. *The Color of Law: Ernie Goodman, Detroit, and the Struggle for Labor and Civil Rights* traces Goodman's journey through these tumultuous events and highlights the many moments when changing perceptions of social justice clashed with legal precedent. Authors Steve Babson, Dave Riddle, and David Elsilatell Goodman's life story, beginning

with his formative years as the son of immigrant parents in Detroit's Jewish ghetto, to his early ambitions as a corporate lawyer, and his conversion to socialism and labor law during the Great Depression. From Detroit to Mississippi, Goodman saw police and other officials giving the "color of law" to actions that stifled freedom of speech and nullified the rights of workers and minorities. The authors highlight Goodman's landmark cases in defense of labor and civil rights and examine the complex relationships he developed along the way with individuals like Supreme Court Justice and former Michigan governor Frank Murphy, UAW president Walter Reuther, Detroit mayor Coleman Young, and congressman George Crockett. Drawing from a rich collection of letters, oral histories, court records, and press accounts, the authors re-create the compelling story of Goodman's life. *The Color of Law* demonstrates that the abuse of power is non-partisan and that individuals who oppose injustice can change the course of events.
