**Command at  
Sea** Oxford  
University  
Press  
The Law of  
Psychic  
Phenomena is  
a classic work  
in the field of  
psychic  
manifestations  
of the human  
intellect. The  
author, Dr.  
Thomson Jay  
Hudson, Ph.D.,  
LL.D., was the  
acknowledged  
authority in  
the field of  
metaphysics  
when he wrote

this book in  
the late years  
of the 19th  
century. This  
book explores  
all areas of  
the  
metaphysical  
world from  
early  
philosophies  
to hypnotism  
and  
mesmerism,  
clairvoyance,  
visions, right  
through an  
overview of  
the psycho-  
therapeutic  
practices of  
that time. The  
Law of Psychic  
Phenomena  
remains as  
fascinating  
and  
informative

today as it  
was when it  
was first  
published.  
[African  
Security and  
the African  
Command](#)  
Stanford  
University  
Press  
In 1798  
Napoleon  
Bonaparte,  
who was all  
but Master of  
Europe,  
assembled a  
formidable  
expeditionary  
force at  
Toulon. While  
its purpose  
was unknown  
there was  
every reason  
to believe that  
Great Britain

was its destination and the Nation was on invasion alert.??The overwhelming British priority was for a fleet to be assembled and sent to the Mediterranean to destroy this threat before the French force could set sail.??The burning issue was which of four Royal Naval flag officers should command this vital mission? The strong field in order of seniority was Admiral The Earl St Vincent, Rear

Admirals Sir William Parker, Sir John Orde and Sir Horatio Nelson. The choice of Nelson who went on the win the Battle of Nice provoked great anger and even a challenge by Orde for a duel, only prevented buy the King's intervention.? Nelson's and Orde's acrimonious relationship erupted in the months before the Battle of Trafalgar and is well documented in this fascinating

book. *The Pursuit of Mission Command in the U.S., British, and Israeli Armies* His to Command Explores the circumstances that led to Britain's support of the United States in wars in Iraq and Afghanistan and how the Ministry of Defence coped with challenges including rivalry and diffuse responsibility among the Service Chiefs, lack of clear strategy, and weak

domestic political support. Black Spartacus McGill-Queen's Press - MQUP Long before Mexico, Colombia, and Afghanistan became notorious for their contributions to the global drug traffic, Lebanon was a special target of U.S. drug agents for harboring the world's greatest single transit port in the international traffic in narcotics. In the words of one American

official, "certain of the largest traffickers are so influential politically, and certain highly placed officials so deeply involved in the narcotic traffic, that one might well state that the Lebanese Government is in the narcotics business." Using previously secret government records, The Lebanese Connection uncovers for the first time the story of how Lebanon's

economy and political system were corrupted by drug profits—and how, by financing its many ruthless militia, Lebanon's drug trade contributed to the country's greatest catastrophe, its fifteen-year civil war from 1975 to 1990. In so doing, this book sheds new light on the dangerous role of vast criminal enterprises in the collapse of states and the creation of war economies

that thrive in the midst of civil conflicts. Taking a regional approach to the drug issue, Jonathan Marshall assesses the culpability of Syria, Israel, and of Palestinian factions and other groups that used Lebanon as their battleground. On the international level, he documents Lebanon's contribution to the hard drug problem of major consuming countries,

from the days of the "French Connection" through the "Pizza Connection," as well as Lebanon's unrivaled place in the global hashish market. *Provinces and Provincial Command in Republican Rome: Genesis, Development and Governance* Blushing Publications When the Roman Republic became the master of an overseas empire, the Romans had to adapt their

civic institutions so as to be able to rule the dominions that were successively subjected to their imperium. As a result, Rome created an administrative structure mainly based on an element that became the keystone of its empire: the provincia. This book brings together nine contributions from a total of ten scholars, all specialists in Republican Rome and the Principate, who analyse from diverse

perspectives and approaches the distinct ways in which the Roman res publica constituted and ruled a far-flung empire. The book ranges from the development of the Roman institutional structures to the diplomatic and administrative activities carried out by the Roman commanders overseas. Beyond the subject on which each author focuses, all chapters in this volume

represent significant and renewed contributions to the study of the provinces and the Roman empire during the Republican period and the transition to the Principate. **To Command the Sky** Prensas de la Universidad de Zaragoza 2011 Updated Reprint. Updated Annually. Russia National Security and Defense Policy Handbook Economic Studies Simon and Schuster Jez Stewart charts the

course of this extraordinarily fertile area of British film from early experiments with stop-motion and the flourishing of animated drawings during WWI. He reveals how the rockier interwar period set the shape of the industry in enduring ways, and how creatives like Len Lye and Lotte Reiniger brought art to advertising and sponsored films, building a foundation for such distinctive talents as Bob

Godfrey, Alison De Vere and George Dunning to unleash their independent visions in the age of commercial TV. Stewart highlights the integral role of women in the industry, the crucial boost delivered by the arrival of Channel 4, the emergence of online animation and much more. The book features 'close-up' analyses of key animators such as Lancelot Speed and Richard Williams, as well as more thematic takes on art, politics and music. It builds a framework for better appreciating Britain's landmark contributions to the art of animation, including Halas and Batchelor's *Animal Farm* (1954), Dunning's *Yellow Submarine* (1968) and the creations of Aardman Animations. *Mesopotamia, 1914-1916* Pen and Sword An English adaptation of Helholt's *Weltgeschichte*, with a rejection of sections which did not seem quite adequate from the point of view of its English readers. C.f. Publisher's note. *The Lebanese Connection* Stanford University Press The twentieth century in Europe witnessed some of the most brutish episodes in history. Yet it also saw incontestable improvements in the conditions of

existence for most inhabitants of the continent - from rising living standards and dramatically increased life expectancy, to the virtual elimination of illiteracy, and the advance of women, ethnic minorities, and homosexuals to greater equality of respect and opportunity. It was a century of barbarism and civilization, of cruelty and tenderness, of technological achievement and

environmental spoliation, of imperial expansion and withdrawal, of authoritarian repression - and of individualism resurgent. Covering everything from war and politics to social, cultural, and economic change, *Barbarism and Civilization* is by turns grim, humorous, surprising, and enlightening: a window on the century we have left behind and the earliest years of its troubled

successor. *The Theory of Economic Progress* Bloomsbury Publishing In 1896 a massive Ethiopian army routed an invading Italian force and brought Italy's conquest of Africa to an end. In defending its independence, Ethiopia cast doubt on the assumption that all Africans would fall under the rule of Europeans, and opened a breach that would lead to the continent's

painful struggle for freedom from colonial rule.  
**The U.S. Naval Institute Wheel Book Series** Farrar, Straus and Giroux  
 The British invasion of Mesopotamia was initially successful in securing the oil fields around Basra by November 1914. Despite evidence of stiffening Turkish resistance and inadequate supply lines which relied solely on the River Tigris, the Expeditionary

Force was disastrously ordered to advance on Baghdad under the command of the ambitious, capable but flawed Major General Charles Townshend. After a pyrrhic victory at Ctesiphon in November 1915 the British were forced to withdraw to Kut. After a five month siege Townshend had little option but to surrender due to heavy losses and inadequate supplies. Such

was the humiliation and loss of life that the British Parliament ordered a Mesopotamia Commission to be set up. This attributed responsibility and blame to the toxic combination of incompetent leadership and wholesale military misjudgement. This fine book re-examines the circumstances and personalities that brought about such a disastrous and costly outcome to a

classic example of mission creep. **The Battle for Air Superiority Over Germany, 1942-1944** Pen and Sword 'After the end of the Cold War and a failed mission in Somalia, the US decided to wash its hands of major military operations in Africa. Within the past few years, however, strategic interests in the region have grown, based largely on the threat

of international terrorist group activities there. In 2007, the Bush Administration created a new military presence in Africa, AFRICOM (United States Africa Command), professed to be based not on occupying military or fixed bases, but rather on capacity building for and collaboration with African security forces. Some see AFRICOM as the answer to an African security

system crippled by a lack of resources, widespread politicization and institutional weakness. Others claim the program is nothing more than a characteristic attempt by the US to secure its own interests in the region without regard to the actual needs of Africans. A variety of viewpoints on the debate, both from the US and Africa, come together in this collection to examine the

objectives and activities of AFRICOM. The result provides the reader with a well-rounded picture of longstanding security challenges in Africa and what might be done to address them.' (Publisher) *A Working Hypothesis for the Systematic Study of Hypnotism, Spiritism, Mental Therapeutics, Etc* Good Press  
In this grand history of naval warfare, Palmer

observes five centuries of dramatic encounters under sail and steam. From reliance on signal flags in the seventeenth century to satellite communications in the twenty-first, admirals looked to the next advance in technology as the one that would allow them to control their forces. But while abilities to communicate improved, Palmer shows how other technologies simultaneousl

y shrank admirals' windows of decision. The result was simple, if not obvious: naval commanders have never had sufficient means or time to direct subordinates in battle. *Corruption, Civil War, and the International Drug Traffic* Simon and Schuster  
Falling between the "War of Movement" in 1914 and the major attrition battles of 1916, 1915 was a critical year in the First World

War. As France failed in ever-larger offensives to break through the German trenches, Britain shifted its strategy from defence of empire to total commitment to the continental war. In the second of three planned volumes, Roy Prete analyzes the political and military policies and strategies of Britain and France and their joint command relationship on the Western Front in 1915. The opposing strategies of the two governments proved to be the main determinant in the sometimes ragged relations between the French commander-in-chief, Joseph Joffre, and his British counterpart, Sir John French, as they sought to drive the German army out of France and to aid their hard-pressed Russian ally. With an impressive marshalling of evidence, Strategy and Command demonstrates that the increased British commitment to the continental war, manifested in sending Kitchener's New Armies to France in 1915, was largely due to the disastrous situation of the Russian army on the Eastern Front and the perceived weakness of the French government. Based on extensive research in French and British political

and military archives, this new in-depth study of Anglo-French military relations on the Western Front in 1915 fills a major gap in the unfolding drama of the First World War. Barbarism and Civilization CreateSpace "The Dominant Dollar" by Will Lillibridge. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics

& literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Dominant Strain OUP  
Oxford  
With Washington's proximity to the Confederate capital of Richmond, Union military operations in the first two years of the Civil War focused mainly on the Eastern Theater, where General McClellan commanded the Army of the Potomac. McClellan's "On to Richmond" battle cry dominated strategic thinking in the high

command. When he failed and was sacked by President Lincoln, a coterie of senior officers sought his return. This re-examination of the high command and McClellan's war in the East provides a broader understanding of the Union's inability to achieve victory in the first two years, and takes the debate about the Union's leadership into new areas.

### **A History of**

**Europe in our Time**  
Kumarian Press  
General Sir David Richards is one of the best known British generals of modern times. In 2013 he retired after over forty years of service in the British Army and a career that had seen him rise from junior officer with 20 Commando to Chief of the Defence Staff, the professional head of the British Armed Forces. He served in the

Far East, Germany, Northern Ireland and East Timor. He was the last Governor of Berlin's Spandau Prison, when Rudolf Hess, Hitler's deputy, was its sole prisoner. In 2005 he was appointed Commander of the Allied Rapid Reaction Corps in Afghanistan and as commander of NATO forces became the first British General to command US Forces in combat since

the Second World War. In 2000, Richards won acclaim when he brought together a collation of forces in Sierra Leone to stop the ultra-violent Revolutionary United Front from attacking the capital, Freetown. In so doing he ended one of the bloodiest civil wars to bedevil the region. He did so without the official sanction of London, and failure could have cost him his career. As Chief of the Defence Staff

he advised the government during the crises and interventions in Libya and Syria and oversaw the controversial Strategic Defence and Security Review. Taking Command is Richards' characteristically outspoken account of a career that took him into the highest echelons of military command and politics. Written with candour, and often humour, his story reflects the changing

reality of life for the modern soldier over the last forty years and offers unprecedented insight into the readiness of our military to tackle the threats and challenges we face today. Telephony Harvard University Press The Normandy landings of 6 June 1944, across five sectors of the French coast - Utah, Omaha, Gold, Juno and Sword - constituted the largest amphibious invasion in

history. This study analyses in depth the preparations and implementation of the D-Day landing on Gold Beach by XXX Corps. Historians have tended to dismiss the landing on Gold Beach as straightforward but the evidence points to a different reality. Armour supported the infantry landing and prior bombing was intended to weaken German defences; however, the

bulk of the bombing landed too far inland, and many craft foundered in difficult conditions at sea. It was the tenacity of the assault units and the flexibility of the follow up units which enabled the Gold landing to secure the right flank of the British Army in Normandy. Using detailed primary evidence from The National Archives and the Imperial War Museum, this volume provides a substantial

assessment of the background to the landing on Gold, and analyses the events of D-Day in the wider context of the Normandy Campaign. **Naval Command and Control since the Sixteenth Century** Steeple Hill The complete, bestselling Under His Command series! \*Warning: Dominant alpha hero Blake Roberts will own your nights and forever ruin you for lesser

men\* Blake Roberts has everything he's ever wanted—fame, money, and ownership of the hottest chain of tattoo parlors in the country. But he's haunted by his first love, his former foster sister, Erin. The matching tattoo they share is a constant reminder of who he was before he learned how to control his emotions, his desire, and a woman's pleasure. He needs to purge her from his heart,

and he'll do whatever it takes to be free. For Erin, what started as a charade has become all too real. She's never experienced anything like the savage bliss she's discovered in Blake's arms. He tests her, dominates her, and if she isn't careful, soon he'll own her—body and soul. Blake has what he thought he wanted—Erin's submission. But with her submission comes a deeper responsibility. Erin's in

trouble and an innocent life hangs in the balance. Blake knows he can help her break free of the past, but he doesn't know if a man like himself belongs in her future. How can he swear to protect her from danger when he has a dark side of his own? Praise for the Under His Command Series: "Everly Stone writes white-hot, grab-your-lover, take-me-now sex, and a story that demands the pages be turned." - NYT

Few generals achieved the reputation won by General Lucien Truscott during his time in the American	Army during World War Two; it was the opinion of the future President General Eisenhower that Truscott was second only to the legendary General Patton as a battlefield commander. Refusing all personal accolades in press releases, General Truscott, was as tough as they come, determined and cool under fire. His autobiography stands as one of the great books written
---	--	---

by any officer who served the Allied cause during the Second World War. He led the 60th Infantry and 66th Armored Regiments during the invasion of French North Africa, his formations benefitted hugely from his tough training methods that saved lives under fire. His next command at the head of the 3rd Infantry Division would cement his reputation, forcing his troops over

some of the harshest mountains in Europe in Sicily and routing pushing the Germans off the island. Truscott then led his men ashore the Italian mainland at Salerno and then again in the landings at Anzio... By 1944 the Allied command considered that Truscott was the foremost amphibious expert in the European theatre and gave him command of the vital

landings in southern France; his inspiring leadership and determined forceful handling of his troops led to such success that the Germans were bundled back out the French province very rapidly opening the port of Marseilles to Allied supply ships. Truscott was renowned for his abilities as a general, a motivator of men and a shrewd commander who was determined to seize and keep hold of
