## DAUGHERTY CHOI

### Concepts, Methodologies, Tools, and Applications

Springer Nature  
 This book is the third in a three-volume set that celebrates the career and achievements of Cliff Goddard, a pioneer of the Natural Semantic Metalanguage approach in linguistics. This third volume explores the potential of Minimal English, a recent offshoot of the Natural Semantic Metalanguage, with special reference to its use in Language Teaching and Intercultural Communication. Often considered the most fully developed, comprehensive and practical approach to cross-linguistic and cross-cultural semantics, Natural Semantic

Metalanguage is based on evidence that there is a small core of basic, universal meanings (semantic primes) that can be expressed in all languages. It has been used for linguistic and cultural analysis in such diverse fields as semantics, cross-cultural communication, language teaching, humour studies and applied linguistics, and has reached far beyond the boundaries of linguistics into ethnopsychology, anthropology, history, political science, the medical humanities and ethics.

*An Introduction for Translators, Interpreters and Mediators* IGI Global  
 A study of the non-verbal language which exists in every culture, the elaborate patterns of behavior through which we communicate  
*Inter- and Transcultural Learning in the*

*Context of Canadian Young Adult Fiction*  
 John Wiley & Sons

New Directions is a thematic reading-writing book aimed at the most advanced learners. It prepares students for the rigors of college-level writing by having them read long, challenging, authentic readings, from a variety of genres, and by having them apply critical thinking skills as a precursor to writing. This emphasis on multiple longer readings gives New Directions its distinctive character.

**Languages, Identities and Intercultural Communication in South Africa and Beyond** University of Adelaide Press

This book identifies the many facets of culture that influence second language learners and teachers. The paperback edition identifies the many facets of

culture that influence second language learners and teachers. It addresses the impact of culture on learning to interact, speak, construct meaning, and write in a second language, while staying within the sociocultural paradigms specific to a particular language and its speakers. By providing a comprehensive introduction to research from other disciplines on the interaction between language and culture, this volume offers an important contribution to the field of second language acquisition.

#### Intercultural Language Teaching and Learning IGI Global

While research into intercultural teaching has grown exponentially during the past two decades, the research has primarily resorted to the use of quantitative data collection instruments and the interpretation of scores calculated through them. As such, studies in the field can seem somewhat decontextualized, ignoring in some cases setting-specific parameters. Therefore, further study is needed to bring together theory, research, and practice demonstrating how this teaching is reflected in research design and how it is undertaken in different settings. *Intercultural Foreign Language Teaching and Learning in Higher Education Contexts* is an essential reference source that provides a series of rich insights into the way intercultural education is practiced in numerous international contexts and showcases practical examples of teaching situations and classroom activities that demonstrate its impact within the classroom. Featuring research on topics such as higher education, multilingualism, and professionalism, this book is ideally designed for educators, researchers, administrators, professionals, academicians, and students seeking pedagogical guidance on intercultural teaching.

#### *The Global Intercultural Communication Reader* SAGE Publications

"The impressive and stimulating essays in *Bridging Transcultural Divides* deal with the cultural and educational issues in the Australian context. (...) The book's central message is that education for Asian students in Australia, and more broadly in the West, can no longer be seen as a one-way transfer of knowledge, but must be understood as a process of reciprocal learning in which both teachers and students are changed by the experience." - Prof. Tim Wright, University of Sheffield.  
Issues in Training Methodology Springer  
In 1980, SAGE published Geert Hofstede's *Culture's Consequences*. It opens with a quote from Blaise Pascal: "There are

truths on this side of the Pyrenees that are falsehoods on the other." The book became a classic—one of the most cited sources in the Social Science Citation Index—and subsequently appeared in a second edition in 2001. This new SAGE *Encyclopedia of Intercultural Competence* picks up on themes explored in that book. Cultural competence refers to the set of attitudes, practices, and policies that enables a person or agency to work well with people from differing cultural groups. Other related terms include cultural sensitivity, transcultural skills, diversity competence, and multicultural expertise. What defines a culture? What barriers might block successful communication between individuals or agencies of differing cultures? How can those barriers be understood and navigated to enhance intercultural communication and understanding? These questions and more are explained within the pages of this new reference work. Key Features: 300 to 350 entries organized in A-to-Z fashion in two volumes Signed entries that conclude with Cross-References and Suggestions for Further Readings Thematic "Reader's Guide" in the front matter grouping related entries by broad topic areas Chronology that provides a historical perspective of the development of cultural competence as a discrete field of study Resources appendix and a comprehensive Index The SAGE *Encyclopedia of Intercultural Competence* is an authoritative and rigorous source on intercultural competence and related issues, making it a must-have reference for all academic libraries.

#### **Bridging Transcultural Divides**

Cambridge University Press

International perspectives on intercultural learning are presented within a framework of cultures of learning related to education and language learning and use in academic contexts. Intercultural learning involves learners travelling to learn in a place where other cultures of learning are dominant and to which they are usually expected to adapt.

#### **Computer-mediated Communication**

Elsevier

Text-based interaction among humans connected via computer networks, such as takes place via email and in synchronous modes such as chat, MUDs and MOOs, has attracted considerable popular and scholarly attention. This collection of 14 articles on text-based computer-mediated communication (CMC), is the first to bring empirical evidence from a variety of disciplinary perspectives to bear on questions raised by the new medium. The first section, linguistic perspectives,

addresses the question of how CMC compares with speaking and writing, and describes its unique structural characteristics. Section two, on social and ethical perspectives, explores conflicts between the interests of groups and those of individual users, including issues of online sex and sexism. In the third section, cross-cultural perspectives, the advantages and risks of using CMC to communicate across cultures are examined in three studies involving users in East Asia, Mexico, and students of ethnically diverse backgrounds in remedial writing classes in the United States. The final section deals with the effects of CMC on group interaction: in a women's studies mailing list, a hierarchically-organized workplace, and a public protest on the Internet against corporate interests.

#### *Modules for Cross-Cultural Training Programs* Walter de Gruyter GmbH & Co KG

*Cross-Cultural Competence for a Twenty-First-Century Military: Culture, the Flipside of COIN* suggests that the application of cross-cultural competence to the unique environment of expeditionary deployment through military objectives is one of the most important force enablers in today's U.S. international security mission. This volume will make immediate and long-lasting contributions to research, learning, and policy in the Department of Defense. Its contributors are many of the leading experts and military operators in a multidisciplinary effort to prepare U.S. military and civilian personnel for expeditionary missions.

#### *Cultures and Communication* Prentice Hall

The teaching of culture and interculturality is today viewed as an integral part of foreign language education. This book presents insights from recent research on the role of culture in second/foreign and heritage language education. It contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research. The chapters following the introduction are organised in four parts focusing on: 1) the teacher's role in integrated language and culture learning; 2) the interrelationship between culture, identity, and language learning and use; 3) the effect of culture on learner characteristics which impact language learning processes and outcomes; and 4) curriculum development aimed at fostering language and culture learning. The chapters in Parts 1 to 3 present contributions from current research - either in the form of the

authors' original studies or comprehensive reviews of relevant essential research - which bears important implications for curricular practice in foreign language and language teacher education. This close link between research, theory and practice is also maintained in the two chapters in Part 4, which present developmental projects based on well-grounded theoretical frameworks.

**Cross-cultural Communication :**

**Answer Key** IGI Global

A comprehensive survey of the key areas of research in cross-cultural communication, based on the authors' experience in organizing and delivering courses for undergraduate and postgraduate students and in business training in the UK and overseas.

*Intercultural Discourse and Communication: The Essential Readings* is a collection of articles that discuss major theoretical approaches, case studies of cultural and sub-cultural contact from around the globe, issues of identity in 'bicultural' individuals, and the 'real world' implications of intercultural contact and conflict. Collects articles that describe and analyze discourse and communication in several channels, including spoken, written, and signed. Considers various group organizations such as culture/subculture, gender, race/ethnicity, social class, age, and region. Includes brief introductions to each section by the editors that explain main concepts. Contains discussion questions that enhance the book's value for courses.

*Culture, the Flipside of COIN* Universal-Publishers

Within the past few years transcultural learning has become one of the key terms in TEFL theory. Central concerns in current research include differentiating between inter- and transcultural learning, navigating processes of understanding otherness, and assessing cultural competences. Using these aspects this study investigates texts recommended for cultural learning and key components of implementing literature in ELT. The results call for a more holistic perception of alterity and argue in favour of transcultural literature as a basis for transcultural learning. All of this dissertation is in English. (Subjects: Literary Criticism, Education) [Series: Fremdsprachendidaktik in globaler Perspektive, Vol. 5]

*Minimal English (and Beyond)* Routledge

Learning a new language offers a unique opportunity to discover other cultures as well as one's own. This discovery process is essential for developing 21st-century intercultural communication skills. To help prepare language teachers for their role as guides during this process, this book uses interdisciplinary research from social sciences and applied linguistics on intercultural communication for designing teaching activities that are readily implemented in the language classroom. Diverse language examples are used throughout the book to illustrate theoretical concepts, making them accessible to language teachers at all skill levels. The chapters introduce various perspectives on culture, intercultural communicative competence, analyzing authentic language data, teaching foreign/second languages with an intercultural communication orientation, the intercultural journey, the language-culture-identity connection, as well as resolving miscommunication and cultural conflict. While the immediate audience of this book is language teachers, the ultimate beneficiaries are language learners interested in undertaking the intercultural journey.

*The Culture Puzzle* Beyond  
Language Cross-cultural Communication  
The Journal of International Students (JIS), an academic, interdisciplinary, and peer-reviewed publication (Print ISSN 2162-3104 & Online ISSN 2166-3750), publishes narrative, theoretical, and empirically-based research articles, student and faculty reflections, study abroad experiences, and book reviews relevant to international students and their cross-cultural experiences and understanding in international education. *Conversation Strategies for International Graduate Students* Taylor & Francis US Teaches students to speak English and use it properly and effectively in major areas of cross-cultural communication. It provides skill practice in language acquisition and teaches an awareness of the effects of cultural difference on communication.

*Cross-cultural Communication* Rosda  
As education becomes more globally accessible, the need increases for comprehensive education options with a special focus on bilingual and intercultural education. The normalization of diversity and the acclimation of the students to various cultures and types of people are essential for success in the current world. *The Handbook of Research on Bilingual and Intercultural Education* is an essential scholarly publication that provides comprehensive empirical research on

bilingual and intercultural processes in an educational context. Featuring a range of topics such as education policy, language resources, and teacher education, this book is ideal for teachers, instructional designers, curriculum developers, language learning professionals, principals, administrators, academicians, policymakers, researchers, and students. *Insights from Research and Implications for the Practice A&C* Black

"This Reader is a scholarly tour de force, as it offers an intelligent and comprehensive coverage of the highly multidisciplinary field of Intercultural Communication without falling into the twin traps of essentialism or relativism. No researcher in applied linguistics will want to miss Zhu Hua's brilliant concluding chapter that surveys various research designs and data collection techniques, and discusses the strengths and weaknesses of each approach. The study questions and activities featured in each chapter together with suggestions for further reading make this Reader an invaluable resource for undergraduate and graduate seminars alike." Claire Kramsch, University of California, Berkeley, USA

"This volume covers all the key topics, both basic conceptual and theoretical questions and a broad range of empirical issues and perspectives related to different settings and different parts of the world. It is really global in its coverage. This book will give readers a good grasp of the field as it is being developed throughout the world." Karen Risager, Roskilde University, Denmark This reader covers the two interconnected areas of Language and Intercultural Communication, increasingly studied together. Language is key to understanding culture, and culture is an essential part of studying language. Divided into six parts, the Reader covers: Theories of language and intercultural communication; Cultural dimensions of language in use; Communication patterns across cultures; Teaching and learning cultural variations of language use; Interculturality; and Intercultural Communication in professional contexts. With 22 varied readings from eminent authorities in the field as well as cutting edge material from new researchers, the Reader explores the breadth and depth of the subject as well as providing a valuable overview for both student and scholar. Each reading has been carefully selected to both showcase the best thinking and latest research, and to reflect the international nature of the field. Each part begins with a clear and comprehensive introduction, and is enhanced by

discussion questions, suggested activities and far-reaching further reading sections.

There is a final section offering advice on how to perform research in this area. This is an essential text for all students and

researchers in the area of language and intercultural communication.
