Creating a document in LaTeX - Overleaf, Online LaTeX Editor

Example Document\end{document}
After typing in the commands to LaTeX (which are the instructions preceded by the backslash character) and the text of a sample paper, save them in a file with a name ending in .tex, like paper.tex. A LaTeX example - Stanford UniversityFor example, if you look at the sample file below, you can easily guess that \title is the title of the document, \begin{abstract} starts the abstract text, and so on. A comment line begins with a

percent symbol (%) and continues to the end of the line. That's all you need to know about the syntax now. LaTeX Source of Example 1Writing a Simple LaTeX DocumentIn the example, the extra parameters set the font size (12pt) and the paper size (letterpaper). Of course other font sizes (9pt, 11pt, 12pt) can be used, the default size is 10pt. As for the paper size, other possible values are included A4 and legalpaper. Note that Overleaf uses a European LaTeX distribution, which produces documents in A4 ...Creating a document in LaTeX - Overleaf, Online LaTeX EditorContact.
