JOHANNA EVELYN

The Law in America: a History Aspen
Publishers
When the first Supreme Court convened

in 1790, it was so ill-esteemed that its justices frequently resigned in favor of other pursuits. John Rutledge stepped down as Associate Justice to become a state judge in South Carolina; John Jay resigned as Chief Justice to run for Governor of New York; and Alexander Hamilton declined to replace Jay, pursuing a private law practice instead.

As Bernard Schwartz shows in this landmark history, the Supreme Court has indeed travelled a long and interesting journey to its current preeminent place in American life. In *A History of the Supreme Court*, Schwartz provides the finest, most comprehensive one-volume narrative ever published of our highest court. With impeccable scholarship and a clear, engaging style, he tells the story of the justices and their jurisprudence--and the influence the Court has had on American politics and society. With a keen ability to explain complex legal issues for the nonspecialist, he takes us through both the great and the undistinguished Courts of our nation's history. He provides insight into our foremost justices, such as John Marshall (who established judicial review in

Marbury v. Madison, an outstanding display of political calculation as well as fine jurisprudence), Roger Taney (whose legacy has been overshadowed by *Dred Scott v. Sanford*), Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and others. He draws on evidence such as personal letters and interviews to show how the court has worked, weaving narrative details into deft discussions of the developments in constitutional law. Schwartz also examines the operations of the court: until 1935, it met in a small room under the Senate--so cramped that the judges had to put on their robes in full view of the spectators. But when the new building was finally opened, one justice called it "almost bombastically pretentious," and another asked, "What are we supposed to do, ride in on nine

elephants?" He includes fascinating asides, on the debate in the first Court, for instance, over the use of English-style wigs and gowns (the decision: gowns, no wigs); and on the day Oliver Wendell Holmes announced his resignation--the same day that Earl Warren, as a California District Attorney, argued his first case before the Court. The author brings the story right up to the present day, offering balanced analyses of the pivotal Warren Court and the Rehnquist Court through 1992 (including, of course, the arrival of Clarence Thomas). In addition, he includes four special chapters on watershed cases: *Dred Scott v. Sanford*, *Lochner v. New York*, *Brown v. Board of Education*, and *Roe v. Wade*. Schwartz not only analyzes the impact of each of

these epoch-making cases, he takes us behind the scenes, drawing on all available evidence to show how the justices debated the cases and how they settled on their opinions. Bernard Schwartz is one of the most highly regarded scholars of the Supreme Court, author of dozens of books on the law, and winner of the American Bar Association's Silver Gavel Award. In this remarkable account, he provides the definitive one-volume account of our nation's highest court.

 PICK* "Schwartz's magical novel is at
 once gripping and tender, and the
 intricate plot is engrossing as the reader
 tries to solve the mystery. She doesn't
 miss a beat in either the characterization
 or action, scattering clues with a
 delicate, precise hand. This is, in the
 end, the story of the anatomy of the
 human heart." - Booklist (starred review)
 Dana Schwartz's *Anatomy: A Love Story*
 is a gothic tale full of mystery and
 romance. Hazel Sinnett is a lady who
 wants to be a surgeon more than she
 wants to marry. Jack Curren is a
 resurrection man who's just trying to
 survive in a city where it's too easy to

die. When the two of them have a
 chance encounter outside the Edinburgh
 Anatomist's Society, Hazel thinks
 nothing of it at first. But after she gets
 kicked out of renowned surgeon Dr.
 Beecham's lectures for being the wrong
 gender, she realizes that her new
 acquaintance might be more helpful
 than she first thought. Because Hazel
 has made a deal with Dr. Beecham: if
 she can pass the medical examination
 on her own, Beecham will allow her to
 continue her medical career. Without
 official lessons, though, Hazel will need
 more than just her books—she'll need
 corpses to study. Lucky that she's made
 the acquaintance of someone who digs
 them up for a living. But Jack has his own
 problems: strange men have been seen
 skulking around cemeteries, his friends

are disappearing off the streets, and the dreaded Roman Fever, which wiped out thousands a few years ago, is back with a vengeance. Nobody important cares—until Hazel. Now, Hazel and Jack must work together to uncover the secrets buried not just in unmarked graves, but in the very heart of Edinburgh society.

A behind-the-scenes look at the workings of the Supreme Court, between 1953 and 1969, under the leadership of Chief Justice Earl Warren discusses the members of the court, its operation, and the critical judicial decisions made 50+ Ways to Lose Or Damage Your Patients The Lawbook Exchange, Ltd.

Schwartz provides a masterly exposition of administrative law through a comparative study of the French droit administratif, arguably the most sophisticated Continental model. As Vanderbilt points out in his introduction,

this is an important field that involves much more than administrative procedure. It deals directly with some of the most crucial issues of modern government regarding the distribution of power between governmental units, the resulting effect on the freedom of the individual and on the strength and stability of the state. Reprint of the sole edition. "[T]his book represents a significant achievement.... Unlike so many volumes that roll off the press these days, it fills a real need; and, though perhaps not the definitive work in English on the subject, it fills it extremely well." --Frederic S. Burin, *Columbia Law Review* 54 (1954) 1016
 Bernard Schwartz [1923-1997] was professor of law and director of the Institute of Comparative Law, New York

University. He was the author of over fifty books, including *The Code Napoleon and the Common-Law World* (1956), the five-volume *Commentary on the Constitution of the United States* (1963-68), *Constitutional Law: A Textbook* (2d ed., 1979), *Administrative Law: A Casebook* (4th ed., 1994) and *A History of the Supreme Court* (1993).

Multiparty Arbitration Simon and Schuster

From the Foreword, by Arnold Lazarus, PhD, ABPP: "I shudder when I think... when I, as a newly minted PhD in clinical psychology, was certified as competent and qualified... it is not farfetched to say I knew next to nothing..." "Newly minted" therapists aren't alone in making mistakes, of course; even seasoned professionals can benefit from discovering the 50+ most common errors therapists make, and how to avoid them. Newly revised and updated, this indispensable guide includes more case examples and adds seven ways "to fail"

with child patients, too. *How to Fail...* details how to avoid errors such as not recognizing limitations, performing incomplete assessments, ignoring science, ruining the client relationship, setting improper boundaries, terminating improperly, therapist burnout, and more. *Administrative Law* Rowman & Littlefield Five volume set. 60203B v. 1--60203C v. 2--60203D v. 3 --60203F v. 4--60203H v. 5.

Some Makers of American Law Oxford University Press

The Brownsville/East New York neighborhood of the 1930's, 40's and 50's is now but an almost faded memory, a "time warp" as it were. Today it is a neighborhood that has been eviscerated and exists only as a geographic locale. Through the collective

memories of the famous and the not-so-famous, Jerry Chatanow and Bernie Schwartz have elicited and chronicled a treasure trove of anecdotes and remembrances that bring back to life a once vibrant and exhilarating neighborhood. The authors vividly transport the reader back to a bygone era of street games, egg creams, mello rolls and knishes, patriotism at the home front, plush movie palaces, the Dodgers, the Knicks, boxing venues, old time radio and the neighborhood settlement houses with its open doors waiting to welcome the teeming masses. Anyone from small town or big city who was ever enriched by the nurturing warmth, the loyalties and camaraderie of a “neighborhood” will enjoy this major contribution to the oral history of America. This is a story

told within the context of this country’s transformation from “The Great Depression” to World War Two to “Baby Boomer” prosperity. The authors were both observers of and participants in what in retrospect proved to be a triumphant generation.

The Bill of Rights: a Documentary History
Oceana Publications

Through four editions, The late Bernard Schwartz's clear and accessible casebook has illuminated a path through the intricacies of Administrative Law for both students and instructors. Now, under the direction of Roberto L. Corrada (2000 winner of the prestigious Carnegie fellowship for teaching), Administrative Law: A Casebook returns in a revised, refined, and updated new edition. As in previous editions, this exemplary

casebook emphasizes the basic principles of administrative law in an accessible fashion: concise and practical, it covers key topics in just seven chapters clear and straightforward, it was written with students in mind arranged chronologically, it mirrors the course of procedure in actual practice organized for flexibility, it begins with an overview of administrative law and its agencies addressing state law issues, In addition to standard federal topics, it gives students valuable exposure To The arena where most administrative law issues come up In the new edition, changes, revisions, and improvements for an up-to-date portrait of administrative law, including new coverage of the Office of Independent Counsel and Morrison v. Olson FDA v.

Brown & Williamson, The decision holding that the FDA does not have the right to regulate the tobacco industry agency regulation of cyberspace And The Electronic Freedom of Information Act new coverage of the doctrine of non-delegation and EPA v. ATA Plus, revised and expanded coverage of standing issues, welfare reform, And The Chevron doctrine and its increasing importance today

Theory, Research, and Mechanisms Doubleday Books

Since January 2004, a violent separatist insurgency has raged in southern Thailand, resulting in more than three thousand deaths. Though largely unnoticed outside Southeast Asia, the rebellion in Pattani and neighboring provinces and the Thai government's

harsh crackdown have resulted in a full-scale crisis. *Tearing Apart the Land* by Duncan McCargo, one of the world's leading scholars of contemporary Thai politics, is the first fieldwork-based book about this conflict. Drawing on his extensive knowledge of the region, hundreds of interviews conducted during a year's research in the troubled area, and unpublished Thai-language sources that range from anonymous leaflets to confessions extracted by Thai security forces, McCargo locates the roots of the conflict in the context of the troubled power relations between Bangkok and the Muslim-majority "deep South." McCargo describes how Bangkok tried to establish legitimacy by co-opting local religious and political elites. This successful strategy was upset when

Thaksin Shinawatra became prime minister in 2001 and set out to reorganize power in the region. Before Thaksin was overthrown in a 2006 military coup, his repressive policies had exposed the precariousness of the Bangkok government's influence. A rejuvenated militant movement had emerged, invoking Islamic rhetoric to challenge the authority of local leaders obedient to Bangkok. For readers interested in contemporary Southeast Asia, insurgency and counterinsurgency, Islam, politics, and questions of political violence, *Tearing Apart the Land* is a powerful account of the changing nature of Islam on the Malay peninsula, the legitimacy of the central Thai government and the failures of its security policy, the composition of the

militant movement, and the conflict's disastrous impact on daily life in the deep South. Carefully distinguishing the uprising in southern Thailand from other Muslim rebellions, McCargo suggests that the conflict can be ended only if a more participatory mode of governance is adopted in the region.
