Usage-Based Dynamics in Second Language Development Springer

Advancing English Language Education Edited by Wafa Zoghbor & Thomai Alexiou This volume contains a selection of nineteen articles that focus on skills and strategies for advancing English language teacher education in several contexts where English is taught to speakers of other language. The volume focuses on the teachers and learners as the prime participants in the learning process. The papers selected for inclusion represent the diverse backgrounds, experiences, and research interests of EFL educators and showcase contribution that document theory, research and pedagogy. The volume comprises six sections: Teacher Education and Professional Development; Young Learners; Testing and Assessment; Teaching of Writing Skills; Context-Specific Issues in EFL; Teaching, Learning, and Pedagogy Contributors: Alessandro Ursic, Alison Larkin Koushki, Athanasios Karasimos, Daria Grits, David Rear, Irshat Madyarov, Ivan Ivanov, James Milton, Laila Khalil, Larysa Nikolayeva, Mariam Al Nasser, Marianthi Serafeim, Marielle Risse, Marta Tryzna, Mher Davtyan, Michael M. Parrish, Nikita Berezin, Nour Al Okla, Peter Davidson, Richard D. Miller, Syuzanna Torosyan, Talin Grigorian, Thomai Alexiou, Wafa Zoghbor, Zainab Rashed Aldhanhani

Foreign Language Teaching in Romanian Higher Education
Multilingual Matters

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of

language learners as children.

New Directions for Research in Foreign Language Education brings together contributions by reputed scholars that examine the challenges, opportunities, and benefits of teaching and learning foreign languages. With a particular focus on languages other than English, the book looks at the socio-political dimension of language learning and teaching and the need to re-theorize multilingualism for our age. The volume includes a range of perspectives, from language teaching as an act of reconciliation to language learning across the lifespan, from innovations in assessment and curriculum to critical appraisals of pedagogy and textbook materials. Each chapter presents a clear case study drawn from diverse contexts to illustrate the different concerns of the contributors. The book is a valuable resource for all students, teachers, teacher educators and researchers who share an interest in researching multilingualism and the different facets of teaching and learning foreign languages.

Fluent in 3 Months How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World Harper Collins

Language Functions Revisited Multilingual Matters

This timely volume opens a window on issues related to English language education in Vietnam. The authors consider that teacher quality is the key factor to be considered if the national English language curriculum outcomes are to be achievable. Aiming to shed light on key issues recently observed in the Vietnamese landscape of English language education, it examines the complexity of the institutionalization of the standardized English proficiency policy, which has been in force since 2008. That policy uses the Common European Framework of References for Languages (CEFR) as the model to set the standards and levels of proficiency for teachers, learners and state employees. The book presents both the theoretical and practical aspects of the standardization movement in English language education. The contents comprise a series of extended research-based chapters

written by experts of language-in-education policy and planning in and about Vietnam from a range of perspectives including teachers, English language curriculum developers, teacher educators and researchers. The rich coverage of the book includes current discussion on English language education in Vietnam ranging from policy to practice, making it highly relevant to English teachers, teacher educators, and scholars, in Vietnam and worldwide, who aspire to broaden their horizons and professionalism.

Teaching Practices and Equitable Learning in Children's Language Education John Benjamins Publishing

This volume gathers recent research findings in the field of foreign language (FL) teaching in Romanian higher education dwelling on both methodology and students' learning outcomes. The book satisfies the need for an up-to-date overview of FL teaching in Romanian universities in the European context as well as from a global international perspective. This book confers visibility to Romanian foreign language scholars' research and it opens new paths for debate and collaboration worldwide. The scholars included in this volume have extensive expertise in the field of foreign language teaching and research in higher education which is supported by their international recognition as specialists in their specific areas. The contributing authors approach their respective chapters relying on both qualitative and quantitative research. Their experience and conclusions will prove helpful for any foreign language professional working in tertiary education.

This essential guide examines course planning as an end-to-end process, from learners' needs through to assessment, taking into account both the broader issues and the practical details at every stage. Areas covered include: • effective needs analysis • using the CEFR as a resource for course planning • writing scenarios for classroom teaching and assessment • triangulating course objectives, materials, and learners' goals • key terminology Extra resources are available on the website:

www.oup.com/elt/teacher/lcp Brian North is a co-author of the CEFR and of its companion volume, and was Chair of Eequals from 2005 to 2010. Mila Angelova is the Academic Vice Chair of Eequals and Head Director of Studies at AVO Language and Examination Centre, in Sofia. Elzbieta Jarosz is a member of the Eequals Certification Panel and is the Academic Director of Gama College, in Krakow. Richard Rossner is a co-founder of Eequals, and a co-author of the European Profiling Grid and the Eequals Framework.

How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World Harper Collins

This book provides teachers with an entirely new approach to developing and using classroom-based language assessments. This approach is based on current theory and practice in the field of language assessment and on an understanding of the assessment needs of classroom teachers. The following key questions are addressed: • Why do I need to assess? What beneficial consequences do I want to help bring about? How can my assessments help my students learn better and help me improve my teaching? • When and how often do I need to assess? What decisions do I need to make to help bring about these beneficial consequences? • What do I need to assess? How can I define the abilities that I want to assess? • How can I assess my students? What kinds of assessment tasks should I create? How can I score my students' responses to these tasks? The authors guide the reader step-by-step through the process of developing and using classroom-based assessments with clear explanations and definitions of key terms, illustrative examples, and activities for applying the approach in practice. Extra resources are available on the website: www.oup.com/elt/teacher/lact Lyle Bachman is Professor Emeritus of Applied Linguistics at the University of California, Los Angeles. He serves as a consultant in language testing research projects and in developing language assessments for universities and government agencies around the world, and he conducts courses and training workshops in language assessment. Barbara Damböck was Director of Studies of the English Department at the Teacher Training Academy in Dillingen, Germany, from 2003 to 2011. From 2003 to 2017 she supervised the training of oral examiners for the certification examination for elementary school English teachers in Bavaria. She has extensive experience as a classroom teacher, teacher

trainer, and teacher of teacher trainers. She conducts courses and workshops for teachers and teacher trainers around the world. *A European and International Orientation in Schools Policies, Theories and Research* Springer Addressing a wide range of issues in applied linguistics, sociolinguistics, and multilingualism, this volume focuses on language users, the 'people.' Making creative connections between existing scholarship in language policy and contemporary theory and research in other social sciences, authors from around the world offer new critical perspectives for analyzing language phenomena and language theories, suggesting new meeting points among language users and language policy makers, norms, and traditions in diverse cultural, geographical, and historical contexts. Identifying and expanding on previously neglected aspects of language studies, the book is inspired by the work of Elana Shohamy, whose critical view and innovative work on a broad spectrum of key topics in applied linguistics has influenced many scholars in the field to think "out of the box" and to reconsider some basic commonly held understandings, specifically with regard to the impact of language and languaging on individual language users rather than on the masses.

Advancing English Language Education Fluent in 3 Months How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World Curriculum design options cover a continuum from regional and school-based programs to national and international frameworks. How does policy speak to practice? What have teacher-researchers discovered through in-classroom studies? Where do you begin to describe or measure 'effective' language education curriculum design? The Routledge Handbook of Language Education Curriculum Design presents a comprehensive collection of essays on these issues by 31 established practitioners and new researchers. Informed by experienced scholarship and fresh studies, this handbook shares international perspectives on language education from policy and curriculum to teacher training and future directions. The handbook addresses language education curriculum design across five sections: Language curriculum design: perspectives, policies and practices Designs across the curriculum Curriculum designs in language education Curriculum resources, evaluation and assessment Teacher

education, research and future projects With contributions from Australia, Brazil, Indonesia, Switzerland, Timor-Leste and more, the handbook represents the breadth of research into and the global implications for sound language education curriculum design. It considers equally the needs of students and policy makers from urban metropolises and remote communities. It is designed to reinvigorate discussions about education policy, curriculum management and the role of teacher-researchers. *Global Challenges and Local Responses* Oxford University Press No other description available. *Negotiating Englishes and English-speaking Identities* Routledge Educating children and leading them towards the path of bilingualism is a valuable and challenging task for any educator. Effective language teaching can contribute to young learners' cognitive growth, develop their problem-solving skills, enhance their comprehension abilities, and provide children with the satisfaction of succeeding in the challenge of learning a foreign language. All these issues must be taken under consideration when researching children and their teachers. The current literature indicates that further material is needed to provide professionals with different classroom situations and enhance the art of teaching children. *Teaching Practices and Equitable Learning in Children's Language Education* focuses on various perspectives of efficient practices, approaches, and ideas for professional development in the field of young language learners. The chapters in this book link the theoretical understanding and practical experience of teaching children languages by concentrating on teaching practices, material design, classroom management, reading, speaking, writing, and more. This book is designed for inservice and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students interested in the field of early language learning and applied linguistics at large. **The Routledge Handbook of Plurilingual Language Education** Cambridge University Press This book explores key issues in course management and provides an essential toolkit of practical and effective strategies for creating a positive teaching and learning environment. **The Need and the Challenges** Cambridge University Press Third edition of the best-selling Cambridge English: First (FCE) course. The syllabus for the Cambridge English: First for Schools

exam has changed, and this product is no longer suitable preparation material. New Cambridge English products are available to suit the requirements of the new syllabus.

Assessing Academic English for Higher Education Admissions
Multilingual Matters

This volume focuses on a variety of aspects of foreign language learning and teaching. From a theoretical perspective, it explores the multidimensional character of language classes and delineates ways of developing students' knowledge and skills, according to current educational conceptions and postulates. The book is divided into four parts, dealing with such notions as foreign language teaching and learning, ICT in foreign language didactics, intercultural components of language education, and CLIL in the contemporary language class. It will be useful to individuals who find the issue of foreign language teaching and learning, and its cross-curricular character, interesting.

Empirical Studies in English Applied Linguistics in Honour of József Horváth Multilingual Matters

The Routledge Handbook of Plurilingual Language Education is the first comprehensive publication on plurilingualism, offering a multidimensional reflection on the nature, scope, and potential of plurilingualism in language education and society. Authored by a range of internationally recognized experts, the Handbook provides an overview of key perspectives on plurilingualism in a complementary range of fields. After a comprehensive introduction to the concept itself, 24 chapters are organized in six parts, each examining plurilingualism through a different lens. The Handbook spans historical, philosophical, and sociological dimensions, examines cognitive and neuroscientific implications, and the limitations of boundaries before moving to a pragmatic perspective: How is plurilingual language education developing in different contexts around the world? How can it contribute to language revitalization? How can it be expected to develop in education, digital spaces, and society as a whole? Written for an

international audience, this handbook is an indispensable reference tool for scholars in education and applied linguistics, educators, graduate and post-graduate students, and policy makers.

UZRT 2014 Oxford University Press

This book explores how different European education systems manage multilingualism. Each chapter focuses on one of ten diverse settings (Andorra, Asturias, the Basque Country, Catalonia, England, Finland, France, Latvia, the Netherlands and Romania) and considers how its education system is influenced by historical, sociolinguistic and legislative and political processes and how languages are handled within the system, stressing the challenges and opportunities in each area of study. The chapters provide the reader with insights around three key aspects: the management of the guarantee of the rights of regional language minorities; the incorporation of the language background inherited by immigrants living in Europe (whether they are European citizens or not) and the need to promote the learning of international languages. Individually, the chapters offer deep insights into a specific education system and, together, the studies allow for a comparison and holistic understanding of multilingualism in European education.

Creating a 21st Century Learning Experience Oxford University Press

This book provides a detailed account of the origin, development, administration, revision and subsequent research findings on the benchmarking initiative from 1996-2016. It presents an overall assessment of the initiative's impact on major stakeholders, predictions regarding the way forward, and implications for other countries, especially in South East Asia. In addition, the book discusses what the larger global community can learn from Hong Kong's two-decade experience of conceptualizing and implementing minimum standard language requirements for teachers.

Theoretical and Empirical Bases for Language Construct Definition Across the Ability Range Cambridge Scholars Publishing

This edited collection brings together papers by eminent scholars who attempt to demonstrate how challenges can most successfully be ameliorated with an eye to enhancing the effectiveness of the processes of language teaching and learning. In Part One, emphasis is placed on challenges that second language education has to face, both those more general, dealing with language policy issues, and those more specific, concerned with instructional options in the language classroom. Part Two focuses on challenges involved in researching the processes of teaching and learning in the second and foreign languages classroom, both with respect to research methodology and efforts to tap some variables impinging upon the effects of instruction. Finally, Part Three is devoted to challenges involved in second and foreign language teacher education, the quality of which to a large extent determines the outcomes of second language education in any educational context.

Language Education in a Changing World Springer Nature

This volume in the ALLC series offers current and soon-to-be professionals in the ESL / EFL field a comprehensive guide to how to make the best use of technology to enhance the English language learning experience. The book has a predominant focus on practical insights that are based on successful real-life experiences at the classroom and study program level, including contributions from teachers in various countries. Nevertheless, there is also a strong foundation in existing research and literature as they relate to the needs of English language teachers. To promote reflective and exploratory practice, there is plenty of 'food-for-thought' for the reader. Although pre-service and in-service teachers represent the primary audience, the book is likely to be just as useful for language program administrators, researchers, curriculum and materials writers, and e-learning developers.
