Stock Market
Basics Rule
#2: Stay
Liquid. There
are two main

components to this rule. First, the stock has to be actively traded — at least 100,000 shares in daily volume. If trading stocks below that level, you run the risk of being stuck in a position simply because there are no traders on the other side.

Stock market basics for beginners: 8

guidelines to follow

Stock Basics
When you invest in stock, you buy ownership shares in a company—also known as equity shares. Your return on investment, or what you get back in relation to what you put in, depends on the success or failure of that company.

Stock traders:
Stock traders

generally buy and sell within the same trading session.

Traders use technical analysis to understand which stocks to invest in. Traders look for short and quick gains. Stock trading basics will require you to learn technical indicators like momentum oscillators, bollinger bands, charts and more.
